The following information replaces the existing disclosure in the “Investing in the Funds-Financial Intermediary Support Payments” section of each fund’s/portfolio’s Prospectus:

FINANCIAL INTERMEDIARY SUPPORT PAYMENTS

The Advisor, the Distributor and/or their affiliates may pay additional compensation, out of their own assets and not as an additional charge to the fund, to selected affiliated and unaffiliated brokers, dealers, participating insurance companies or other financial intermediaries (“financial advisors”) in connection with the sale and/or distribution of fund shares or the retention and/or servicing of fund investors and fund shares (“revenue sharing”). Such revenue sharing payments are in addition to any distribution or service fees payable under any Rule 12b-1 or service plan of the fund, any record keeping/sub-transfer agency/networking fees payable by the fund (generally through the Distributor or an affiliate) and/or the Distributor or Advisor to certain financial advisors for performing such services and any sales charge,

commissions, non-cash compensation arrangements expressly permitted under applicable rules of the Financial Industry Regulatory Authority or other concessions described in the fee table or elsewhere in this prospectus or the Statement of Additional Information as payable to all financial advisors. For example, the Advisor, the Distributor and/or their affiliates may compensate financial advisors for providing the fund with "shelf space" or access to a third party platform or fund offering list or other marketing programs, including, without limitation, inclusion of the fund on preferred or recommended sales lists, mutual fund "supermarket" platforms and other formal sales programs; granting the Distributor access to the financial advisor's sales force; granting the Distributor access to the financial advisor's conferences and meetings; assistance in training and educating the financial advisor's personnel; and obtaining other forms of marketing support.

The level of revenue sharing payments made to financial advisors may be a fixed fee or based upon one or more of the following factors: gross sales, current assets and/or number of accounts of the fund attributable to the financial advisor, the particular fund or fund type or other measures as agreed to by the Advisor, the Distributor and/or their affiliates and the financial advisors or any combination thereof. The amount of these revenue sharing payments is determined at the discretion of the Advisor, the Distributor and/or their affiliates from time to time, may be substantial, and may be different for different financial advisors based on, for example, the nature of the services provided by the financial advisor.

The Advisor, the Distributor and/or their affiliates currently make revenue sharing payments from their own assets in connection with the sale and/or distribution of DWS fund shares or the retention and/or servicing of investors and DWS fund shares to financial advisors in amounts that generally range from 0.01 % up to 0.55% of assets of the fund serviced and maintained by the financial advisor, 0.05% to 0.25% of sales of the fund attributable to the financial advisor, a flat fee of up to \$60,000, or any combination thereof. These amounts are subject to change at the discretion of the Advisor, the Distributor and/or their affiliates. Receipt of, or the prospect of receiving, this additional compensation may influence your financial advisor's recommendation of the fund or of any particular share class of the fund. You should review your financial advisor's compensation disclosure and/or talk to your financial advisor to obtain more information on how this compensation may have influenced your financial advisor's recommendation of the fund. Additional information regarding these revenue sharing payments is included in the fund's Statement of Additional Information, which is available to you on request at no charge (see the back cover of this prospectus for more information on how to request a copy of the Statement of Additional Information).

The Advisor, the Distributor and/or their affiliates may also make such revenue sharing payments to financial advisors under the terms discussed above in connection with the distribution of both DWS funds and non-DWS funds by financial advisors to retirement plans that obtain record keeping services from ADP, Inc. or ExpertPlan Inc. on the DWS Investments branded retirement plan platform (the "Platform") with the level of revenue sharing payments being based upon sales of both the DWS funds and the non-DWS funds by the financial advisor on the Platform or current assets of both the DWS funds and the non-DWS funds serviced and maintained by the financial advisor on the Platform.

It is likely that broker-dealers that execute portfolio transactions for the fund will include firms that also sell shares of the DWS funds to their customers. However, the Advisor will not consider sales of DWS fund shares as a factor in the selection of broker-dealers to execute portfolio transactions for the DWS funds. Accordingly, the Advisor has implemented policies and procedures reasonably designed to prevent its traders from considering sales of DWS fund shares as a factor in the selection of broker-dealers to execute portfolio transactions for the fund. In addition, the Advisor, the Distributor and/or their affiliates will not use fund brokerage to pay for their obligation to provide additional compensation to financial advisors as described above.

Government & Agency Securities Portfolio

INVESTMENT OBJECTIVE

The fund seeks to provide maximum current income consistent with stability of capital.

FEES AND EXPENSES OF THE FUND

These are the fees and expenses you may pay when you buy and hold shares.

SHAREHOLDER FEES

(paid directly from your investment) None

ANNUAL FUND OPERATING EXPENSES

(expenses that you pay each year as a % of the value of your investment)

Management fee	0.05
Distribution/Service (12b-1) fees	None
Other expenses	0.15
Total annual fund operating expenses	0.20

EXAMPLE

This Example is intended to help you compare the cost of investing in the fund with the cost of investing in other mutual funds. The Example assumes that you invest \$10,000 in the fund for the time periods indicated and then redeem all of your shares at the end of those periods. The Example also assumes that your investment has a 5% return each year and that the fund's operating expenses remain the same. Although your actual costs may be higher or lower, based on these assumptions your costs would be:

1 Year	3 Years	5 Years	10 Years
\$20	\$64	\$113	\$255

PRINCIPAL INVESTMENT STRATEGY

The fund is managed in accordance with Rule 2a-7 under the Investment Company Act of 1940, as amended, which governs the quality, maturity, diversity and liquidity of instruments in which a money market fund may invest.

The fund pursues its objective by investing exclusively in the following types of investments:

- US Treasury bills, notes, bonds and other obligations issued or guaranteed by the US government, its agencies or instrumentalities.
- Repurchase agreements backed by these securities. In a repurchase agreement, the fund buys securities at one price with a simultaneous agreement to sell back the securities at a future date at an agreed-upon price.

The fund may invest in floating and variable rate instruments (obligations that do not bear interest at fixed rates).

Working in consultation with portfolio management, a credit team screens potential securities and develops a list of those that the fund may buy. Portfolio management, looking for attractive yield and weighing considerations such as credit quality, economic outlooks and possible interest rate movements, then decides which securities on this list to buy.

MAIN RISKS

There are several risk factors that could reduce the yield you get from the fund, cause the fund's performance to trail that of other investments, or cause you to lose money.

Money market fund risk. *An investment in the fund is not insured or guaranteed by the FDIC or any other government agency. Although the fund seeks to preserve the value of your investment at \$1.00 per share, this share price isn't guaranteed, and if it falls below \$1.00 you would lose money.* The Advisor is not obligated to take any action to maintain the \$1.00 share price. The share price could fall below \$1.00 as a result of the actions of one or more large investors in the fund. The credit quality of the fund's holdings can change rapidly in certain markets, and the default of a single holding could cause the fund's share price to fall below \$1.00, as could periods of high redemption pressures and/or illiquid markets.

Interest rate risk. Rising interest rates could cause the value of the fund's investments — and therefore its share price as well — to decline. Conversely, any decline in interest rates is likely to cause the fund's yield to decline,

and during periods of unusually low interest rates, the fund's yield may approach zero. A low interest rate environment may prevent the fund from providing a positive yield or paying fund expenses out of current income and, at times, could impair the fund's ability to maintain a stable \$1.00 share price. Over time, the total return of a money market fund may not keep pace with inflation, which could result in a net loss of purchasing power for long-term investors.

Security selection risk. Although short-term securities are relatively stable investments, it is possible that the securities in which the fund invests will not perform as expected. This could cause the fund's returns to lag behind those of similar money market funds and could result in a decline in share price.

Repurchase agreement risk. If the party that sells the securities to the fund defaults on its obligation to repurchase them at the agreed-upon time and price, the fund could lose money.

Counterparty risk. A financial institution or other counterparty with whom the fund does business, or that underwrites, distributes or guarantees any investments or contracts that the fund owns or is otherwise exposed to, may decline in financial health and become unable to honor its commitments. This could cause losses for the fund or could delay the return or delivery of collateral or other assets to the fund.

Credit risk. The fund's performance could be hurt and the fund's share price could fall below \$1.00 if an issuer of a money market instrument suffers an adverse change in financial condition that results in a payment default, security downgrade or inability to meet a financial obligation.

Some securities issued by US government agencies or instrumentalities are backed by the full faith and credit of the US government. Other securities that are supported only by the credit of the issuing agency or instrumentality are subject to greater credit risk than securities backed by the full faith and credit of the US government. This is because the US government might provide financial support, but has no obligation to do so, if there is a potential or actual loss of principal or failure to make interest payments.

Because of the rising US government debt burden, it is possible that the US government may not be able to meet its financial obligations or that securities issued by the US government may experience credit downgrades. Such a credit event may also adversely impact the financial markets.

Liquidity risk. The liquidity of portfolio securities can deteriorate rapidly due to credit events affecting issuers or guarantors or due to general market conditions and a lack of willing buyers. When there are no willing buyers and an instrument cannot be readily sold at a desired time or price, the fund may have to accept a lower price or may not be able to sell the instrument at all. An inability to sell

one or more portfolio securities can adversely affect the fund's ability to maintain a \$1.00 share price or prevent the fund from being able to take advantage of other investment opportunities.

Unusual market conditions, an unusually high volume of redemption requests or other similar conditions could cause the fund to be unable to pay redemption proceeds within a short period of time. If the fund is forced to sell securities at an unfavorable time and/or under unfavorable conditions, such sales may adversely affect the fund's ability to maintain a \$1.00 share price.

Prepayment and extension risk. When interest rates fall, issuers of high interest debt obligations may pay off the debts earlier than expected (prepayment risk), and the fund may have to reinvest the proceeds at lower yields. When interest rates rise, issuers of lower interest debt obligations may pay off the debts later than expected (extension risk), thus keeping the fund's assets tied up in lower interest debt obligations. Ultimately, any unexpected behavior in interest rates could increase the volatility of the fund's yield and could hurt fund performance. Prepayments could also create capital gains tax liability in some instances.

Regulatory risk. In June 2013, the SEC proposed money market fund reform intended to address perceived systemic risks associated with money market funds and to improve transparency for money market fund investors. The Financial Stability Oversight Council (FSOC), a board of U.S. regulators established by the Dodd-Frank Act, had also previously proposed similar recommendations for money market fund reform. If one or more of the SEC or FSOC proposals for money market fund reform were to be adopted in the future, such regulatory action may affect the fund's operations and/or return potential.

PAST PERFORMANCE

How a fund's returns vary from year to year can give an idea of its risk. Past performance may not indicate future results. All performance figures below assume that dividends were reinvested. The **7-day yield**, which is often referred to as the "current yield," is the income generated by the fund over a seven-day period. This amount is then annualized, which means that we assume the fund generates the same income every week for a year. For more recent performance figures and the current yield, go to www.dbadvisorsliquidity.com/US (the Web site does not form a part of this prospectus) or call the phone number included in this prospectus.

MANAGEMENT

Investment Advisor

Deutsche Investment Management Americas Inc.

PURCHASE AND SALE OF FUND SHARES

MINIMUM INITIAL INVESTMENT

The fund's minimum initial investment is \$1,000,000, and there is no minimum additional investment.

The minimum investment requirement may be waived or lowered for investments effected through banks and other institutions that have entered into special arrangements with DWS Investments Distributors, Inc. on behalf of the fund and for investments effected on a group basis by certain other entities and their employees, such as pursuant to a payroll deduction plan and for investments made in an Individual Retirement Account. The investment minimum may also be waived for certain other individuals such as trustees and officers of Cash Account Trust.

TO PLACE ORDERS

The fund is available only through a financial advisor, such as a broker or financial institution. You should contact a representative of your financial advisor for instructions on how to buy or sell fund shares.

Mail	New Accounts	DWS Investments, PO Box 219151 Kansas City, MO 64121-9151
	Additional Investments	DWS Investments, PO Box 219151 Kansas City, MO 64121-9151
	Exchanges and Redemptions	DWS Investments, PO Box 219151 Kansas City, MO 64121-9151
Expedited Mail		DWS Investments, 210 West 10th Street Kansas City, MO 64105-1614
Web Site		www.dbadvisorsliquidity.com/US
Telephone		(800) 730-1313, M – F 8 a.m. – 6 p.m. ET
TDD Line		(800) 972-3006, M – F 8 a.m. – 8 p.m. ET

Initial investments must be sent by mail. You can make additional investments or sell shares of the fund on any business day by visiting our web site, by mail, or by telephone. The fund is generally open on days when the New York Stock Exchange is open for regular trading.

TAX INFORMATION

The fund's distributions are generally taxable to you as ordinary income or capital gains, except when your investment is in an IRA, 401(k), or other tax-deferred investment plan.

PAYMENTS TO BROKER-DEALERS AND OTHER FINANCIAL INTERMEDIARIES

If you purchase the fund through a broker-dealer or other financial intermediary (such as a bank), the fund and its related companies may pay the intermediary for the sale of fund shares and related services. These payments may create a conflict of interest by influencing the broker-dealer or other intermediary and your salesperson to recommend the fund over another investment. Ask your salesperson or visit your financial intermediary's web site for more information.

Fund Details

ADDITIONAL INFORMATION ABOUT FUND STRATEGIES AND RISKS

INVESTMENT OBJECTIVE

The fund seeks to provide maximum current income consistent with stability of capital.

PRINCIPAL INVESTMENT STRATEGY

Main investments. The fund is managed in accordance with Rule 2a-7 under the Investment Company Act of 1940, as amended. The fund follows policies designed to maintain a stable share price:

- Fund securities are denominated in US dollars and, at the time of purchase, have remaining maturities of 397 days (about 13 months) or less, or have certain maturity shortening features (such as interest rate resets and demand features) that have the effect of reducing their maturities to 397 days or less.
- The fund maintains a dollar-weighted average maturity of (i) 60 days or less and (ii) 120 days or less determined without regard to interest rate resets.
- The fund maintains certain minimum liquidity standards such that:
 - the fund may not purchase a security other than a security offering daily liquidity if, immediately after purchase, the fund would have invested less than 10% of its total assets in securities offering daily liquidity (includes securities that mature or are subject to demand within one business day, cash or direct US government obligations);
 - the fund may not purchase a security other than a security offering weekly liquidity if, immediately after purchase, the fund would have invested less than 30% of its total assets in securities offering weekly liquidity (includes securities that mature or are subject to demand within five business days, cash, direct US government obligations and government agency discount notes with remaining maturities of 60 days or less); and

- the fund may not purchase an illiquid security if, immediately after purchase, the fund would have invested more than 5% of its total assets in illiquid securities (securities that cannot be sold or disposed of in the ordinary course of business within seven days at approximately the market value ascribed to them by the fund).

Although the fund seeks to maintain a stable \$1.00 share price, you could lose money by investing in the fund. All money market instruments can change in value when interest rates or an issuer's creditworthiness change.

The fund pursues its objective by investing exclusively in the following types of investments:

- US Treasury bills, notes, bonds and other obligations issued or guaranteed by the US government, its agencies or instrumentalities.
- Repurchase agreements backed by these securities. In a repurchase agreement, the fund buys securities at one price with a simultaneous agreement to sell back the securities at a future date at an agreed-upon price.

The fund may invest in floating and variable rate instruments (obligations that do not bear interest at fixed rates).

Management process. Working in consultation with portfolio management, a credit team screens potential securities and develops a list of those that the fund may buy. Portfolio management, looking for attractive yield and weighing considerations such as credit quality, economic outlooks and possible interest rate movements, then decides which securities on this list to buy.

Portfolio management may adjust the fund's exposure to interest rate risk, typically seeking to take advantage of possible rises in interest rates and to preserve yield when interest rates appear likely to fall.

MAIN RISKS

There are several risk factors that could reduce the yield you get from the fund, cause the fund's performance to trail that of other investments, or cause you to lose money.

Money market fund risk. *An investment in the fund is not insured or guaranteed by the FDIC or any other government agency. Although the fund seeks to preserve the value of your investment at \$1.00 per share, this share price isn't guaranteed, and if it falls below \$1.00 you would*

lose money. The Advisor is not obligated to take any action to maintain the \$1.00 share price. The share price could fall below \$1.00 as a result of the actions of one or more large investors in the fund. The credit quality of the fund's holdings can change rapidly in certain markets, and the default of a single holding could cause the fund's share price to fall below \$1.00, as could periods of high redemption pressures and/or illiquid markets.

Interest rate risk. Rising interest rates could cause the value of the fund's investments — and therefore its share price as well — to decline. Conversely, any decline in interest rates is likely to cause the fund's yield to decline, and during periods of unusually low interest rates, the fund's yield may approach zero. A low interest rate environment may prevent the fund from providing a positive yield or paying fund expenses out of current income and, at times, could impair the fund's ability to maintain a stable \$1.00 share price. Over time, the total return of a money market fund may not keep pace with inflation, which could result in a net loss of purchasing power for long-term investors.

Security selection risk. Although short-term securities are relatively stable investments, it is possible that the securities in which the fund invests will not perform as expected. This could cause the fund's returns to lag behind those of similar money market funds and could result in a decline in share price.

Repurchase agreement risk. If the party that sells the securities to the fund defaults on its obligation to repurchase them at the agreed-upon time and price, the fund could lose money.

Counterparty risk. A financial institution or other counterparty with whom the fund does business, or that underwrites, distributes or guarantees any investments or contracts that the fund owns or is otherwise exposed to, may decline in financial health and become unable to honor its commitments. This could cause losses for the fund or could delay the return or delivery of collateral or other assets to the fund.

Credit risk. The fund's performance could be hurt and the fund's share price could fall below \$1.00 if an issuer of a money market instrument suffers an adverse change in financial condition that results in a payment default, security downgrade or inability to meet a financial obligation.

Some securities issued by US government agencies or instrumentalities are backed by the full faith and credit of the US government. Other securities that are supported only by the credit of the issuing agency or instrumentality are subject to greater credit risk than securities backed by the full faith and credit of the US government. This is because the US government might provide financial support, but has no obligation to do so, if there is a potential or actual loss of principal or failure to make interest payments.

Because of the rising US government debt burden, it is possible that the US government may not be able to meet its financial obligations or that securities issued by the US government may experience credit downgrades. Such a credit event may also adversely impact the financial markets.

Liquidity risk. The liquidity of portfolio securities can deteriorate rapidly due to credit events affecting issuers or guarantors or due to general market conditions and a lack of willing buyers. When there are no willing buyers and an instrument cannot be readily sold at a desired time or price, the fund may have to accept a lower price or may not be able to sell the instrument at all. An inability to sell one or more portfolio securities can adversely affect the fund's ability to maintain a \$1.00 share price or prevent the fund from being able to take advantage of other investment opportunities.

Unusual market conditions, an unusually high volume of redemption requests or other similar conditions could cause the fund to be unable to pay redemption proceeds within a short period of time. If the fund is forced to sell securities at an unfavorable time and/or under unfavorable conditions, such sales may adversely affect the fund's ability to maintain a \$1.00 share price.

Certain shareholders, including clients or affiliates of the Advisor, may from time to time own or control a significant percentage of the fund's shares. These shareholders may include, for example, institutional investors and other shareholders whose buy-sell decisions are controlled by a single decision maker. Redemptions by these shareholders, or a high volume of redemption requests generally, may further increase the fund's liquidity risk and may impact the fund's ability to maintain a \$1.00 share price.

Prepayment and extension risk. When interest rates fall, issuers of high interest debt obligations may pay off the debts earlier than expected (prepayment risk), and the fund may have to reinvest the proceeds at lower yields. When interest rates rise, issuers of lower interest debt obligations may pay off the debts later than expected (extension risk), thus keeping the fund's assets tied up in lower interest debt obligations. Ultimately, any unexpected behavior in interest rates could increase the volatility of the fund's yield and could hurt fund performance. Prepayments could also create capital gains tax liability in some instances.

Regulatory risk. In June 2013, the SEC proposed money market fund reform intended to address perceived systemic risks associated with money market funds and to improve transparency for money market fund investors. The Financial Stability Oversight Council (FSOC), a board of U.S. regulators established by the Dodd-Frank Act, had also previously proposed similar recommendations for money market fund reform. If one or more of the SEC or FSOC proposals for money market fund reform were to be adopted in the future, such regulatory action may affect the fund's operations and/or return potential.

OTHER POLICIES

Although major changes tend to be infrequent, the fund's Board could change the fund's investment objective without shareholder approval. The Board will provide shareholders with at least 60 days' notice prior to making any changes to the fund's policy of investing exclusively in US Treasury bills, notes, bonds and other obligations issued or guaranteed by the US government, its agencies or instrumentalities and repurchase agreements backed by these securities.

For More Information

This prospectus doesn't tell you about every policy or risk of investing in the fund.

If you want more information on the fund's allowable securities and investment practices and the characteristics and risks of each one, you may want to request a copy of the Statement of Additional Information (the back cover tells you how to do this).

Keep in mind that there is no assurance that the fund will achieve its objective.

A schedule of the fund's portfolio holdings, including information required by applicable regulations, is posted once each month on www.dbadvisorsliquidity.com/US (the Web site does not form a part of this prospectus). Portfolio holdings as of each month-end are posted to the Web site within five business days of the date of the applicable portfolio holdings information. More frequent posting of portfolio holdings information may be made from time to time on www.dbadvisorsliquidity.com/US. The posted portfolio holdings information is available by fund and generally remains accessible for a period of not less than six months. The fund also may post on the Web site, on the same or a more frequent basis, various depictions of portfolio characteristics such as the allocation of the portfolio across various security types, market sectors and sub-sectors and maturities and risk characteristics of the portfolio. The fund's Statement of Additional Information includes a description of the fund's policies and procedures with respect to the disclosure of the fund's portfolio holdings.

WHO MANAGES AND OVERSEES THE FUND

The Investment Advisor

Deutsche Investment Management Americas Inc. ("DIMA" or the "Advisor"), with headquarters at 345 Park Avenue, New York, NY 10154, is the investment advisor for the fund. Under the oversight of the Board, the Advisor makes investment decisions, buys and sells securities for the fund and conducts research that leads to these purchase and sale decisions. The Advisor is an indirect, wholly owned subsidiary of Deutsche Bank AG. Deutsche Bank AG is a major global banking institution that is engaged in a wide range of financial services, including investment management, mutual funds, retail, private and commercial banking, investment banking and insurance. The Advisor

and its predecessors have more than 80 years of experience managing mutual funds and provide a full range of global investment advisory services to institutional and retail clients.

DWS Investments is part of the Deutsche Asset & Wealth Management division of Deutsche Bank AG. DWS Investments is a global asset management organization that offers a wide range of investing expertise and resources, including hundreds of portfolio managers and analysts and an office network that reaches the world's major investment centers. This well-resourced global investment platform brings together a wide variety of experience and investment insight across industries, regions, asset classes and investing styles.

Management Fee. The Advisor receives a management fee from the fund. Below is the actual rate paid by the fund for the most recent fiscal year, as a percentage of the fund's average daily net assets.

Fund Name	Fee Paid
Government & Agency Securities Portfolio	0.02% *

* Reflecting the effect of expense limitations and/or fee waivers then in effect.

The management fee for the fund is computed based on the combined average daily net assets of Government & Agency Securities Portfolio, Money Market Portfolio and Tax-Exempt Portfolio, each a series of Cash Account Trust, and allocated to the fund based upon the fund's relative net assets.

The Advisor has contractually agreed through September 30, 2013 to waive its fees and/or reimburse certain operating expenses of the DWS Government Cash Institutional Shares of the Government & Agency Securities Portfolio to the extent necessary to maintain the total annual operating expenses (excluding certain expenses such as extraordinary expenses, taxes, brokerage and interest expenses) at 0.23%. The agreement may only be terminated with the consent of the fund's Board.

The Advisor has contractually agreed to reduce its management fee such that after allocation of the fee to each series of Cash Account Trust, the amount payable by Cash Account Trust — Government & Agency Securities Portfolio will be limited to 0.05% of the average daily net assets of Cash Account Trust — Government & Agency Securities Portfolio.

The Advisor and its affiliates may voluntarily waive a portion of their fees and/or reimburse certain expenses to the extent necessary to assist the fund in attempting to avoid a negative yield. There is no guarantee that the fund will avoid a negative yield. These voluntary waivers and/or reimbursements may be amended or terminated at any time by the Advisor. These voluntary waivers and/or reimbursements are in addition to existing contractual expense limitations.

A discussion regarding the basis for the Board's approval of the fund's investment management agreement is contained in the most recent shareholder report for the semi-annual period ended October 31 (see "Shareholder reports" on the back cover).

Under a separate administrative services agreement between the fund and the Advisor, the fund pays the Advisor a fee of 0.10% for providing most of the fund's administrative services. The administrative services fee discussed above is included in the fees and expenses table under "Other expenses."

Multi-Manager Structure. The Advisor, subject to the approval of the Board, has ultimate responsibility to oversee any subadvisor to the fund and to recommend the hiring, termination and replacement of subadvisors. The fund and the Advisor have received an order from the SEC that permits the Advisor to appoint or replace certain subadvisors, to manage all or a portion of the fund's assets and enter into, amend or terminate a subadvisory agreement with certain subadvisors, in each case subject to the approval of the fund's Board but without obtaining shareholder approval ("multi-manager structure"). The multi-manager structure applies to subadvisors that are not affiliated with the fund or the Advisor ("nonaffiliated subadvisors"), as well as subadvisors that are indirect or direct, wholly owned subsidiaries of the Advisor or Deutsche Bank AG ("wholly owned subadvisors"). Pursuant to the SEC order, the Advisor, with the approval of the fund's Board, has the discretion to terminate any subadvisor and allocate and reallocate the fund's assets among any other nonaffiliated subadvisors or wholly owned subadvisors (including terminating a nonaffiliated subadvisor and replacing it with a wholly owned subadvisor). The fund and the Advisor are subject to the conditions imposed by the SEC order, including the condition that within 90 days of hiring of a new subadvisor pursuant to the multi-manager structure, the fund will provide shareholders with an information statement containing information about the new subadvisor. The shareholders of the fund have approved the multi-manager structure described herein.

MANAGEMENT

A group of investment professionals is responsible for the day-to-day management of the fund. These investment professionals have a broad range of experience managing money market funds.

Investing in the Fund

The following pages describe the main policies associated with buying and selling shares of the fund. There is also information on dividends and taxes and other matters that may affect you as the shareholder.

Because the fund is available only through a financial advisor, such as a broker or financial institution, you should contact a representative of your financial advisor for instructions on how to buy or sell fund shares. For an analysis of the fees associated with an investment in the fund or similar funds, please refer to <http://apps.finra.org/fundalyzer/1/fa.aspx> (this Web site does not form a part of this prospectus).

HOW TO BUY SHARES

MINIMUM INITIAL INVESTMENT

The fund's minimum initial investment is \$1,000,000, and there is no minimum additional investment.

The minimum investment requirement may be waived or lowered for investments effected through banks and other institutions that have entered into special arrangements with DWS Investments Distributors, Inc. on behalf of the fund and for investments effected on a group basis by certain other entities and their employees, such as pursuant to a payroll deduction plan and for investments made in an Individual Retirement Account. The investment minimum may also be waived for certain other individuals such as trustees and officers of Cash Account Trust.

Through a Financial Advisor

Contact your financial advisor to obtain a new account application or for instructions about how to set up a new account. Your advisor can also assist with making additional investments into an existing account.

By Mail or Expedited Mail

To establish an account, simply complete the appropriate application and mail it to the address provided on the form. With your application, include your check made payable to "DWS Investments" for the required initial minimum investment.

Once your account is established, to make additional investments, send a check made payable to "DWS Investments" and an investment slip to the appropriate address. If you do not have an investment slip, include a letter with your name, account number, the full fund name and share class, and your investment instructions. If your check fails to clear, the fund has the right to cancel your order, hold you liable or charge you or your account for any losses or fees the fund or its agents have incurred.

Other Ways to Buy Shares

The following privileges must be established on your account before an investment request is made. This can either be done by completing the applicable section(s) on the new account application or by contacting a customer service representative for instructions and any required paperwork.

On the Internet (for additional investments only).

Register at www.dbadvisorsliquidity.com/US to set up on-line access to your account(s). Or, log in to the website if you have previously registered. Follow the instructions

on the website to request a purchase with money from the bank account you have established on your DWS account(s).

By Wire (for additional investments only). You may buy shares by wire only if your account is authorized to do so. Please note that you or your financial advisor must call us in advance of a wire transfer purchase. After you inform us of the amount of your purchase, you will receive a trade confirmation number. Instruct your bank to send payment by wire using the wire instructions noted below.

WIRE DETAILS

Bank name	State Street Bank Boston
Routing Number	011000028
Attention	DWS Investments
DDA Number	9902-8102
FBO	(Account name) (Account number)
Credit	(Fund name, Fund number and, if applicable, class name)

Refer to your account statement for the account name and number. Wire transfers normally take two or more hours to complete. Wire transfers may be restricted on holidays and at certain other times.

HOW TO SELL SHARES

In addition to what is detailed below, your financial advisor can assist you with selling shares. Please contact your financial advisor using the method that is most convenient for you.

By Phone

Call DWS Investments using the appropriate telephone number for your share class. You may use our automated system or you may choose to be transferred to a customer service representative to complete your request. You may request a check for the redemption amount sent to the address on the account.

Other Ways to Sell Shares

The following privileges must be established on your account before a redemption request is made. This can either be done by completing the applicable section(s) on the new account application when you establish your account or by contacting a customer service representative for instructions and any required paperwork to add them to an existing account. Depending on the method you choose to request these redemptions, different transaction maximums may apply.

On the Internet. Register at www.dbadvisorsliquidity.com/US to set up on-line access to your account(s). Or, log in to the website if you have previously registered. Follow the instructions on the website to request a redemption from your account using the desired method from your available options.

By Mail or Expedited Mail. Write a letter that includes the following information: the name(s) of all owners and address as they appear on your account, the fund name, share class, and account number from which you want to sell shares, the dollar amount or number of shares you wish to sell, and a daytime telephone number if we have questions. All owners should sign the letter and it should be mailed to the appropriate address.

Some redemptions can only be ordered in writing with a signature guarantee. For more information, please contact DWS Investments using the appropriate telephone number for your share class.

FINANCIAL INTERMEDIARY SUPPORT PAYMENTS

The Advisor, DWS Investments Distributors, Inc. (the "Distributor") and/or their affiliates may pay additional compensation, out of their own assets and not as an additional charge to the fund, to selected affiliated and unaffiliated brokers, dealers, participating insurance companies or other financial intermediaries ("financial advisors") in connection with the sale and/or distribution of fund shares or the retention and/or servicing of fund investors and fund shares ("revenue sharing"). Such revenue sharing payments are in addition to any distribution or service fees payable under any Rule 12b-1 or service plan of the fund, any record keeping/sub-transfer agency/networking fees payable by the fund (generally through the Distributor or an affiliate) and/or the Distributor or Advisor to certain financial advisors for performing such services and any sales charge, commissions, non-cash compensation arrangements expressly permitted under applicable rules of the Financial Industry Regulatory Authority or other concessions described in the fee table or elsewhere in this prospectus or the Statement of Additional Information as payable to all financial advisors. For example, the Advisor, the Distributor and/or their affiliates may compensate financial advisors for providing the fund with "shelf space" or access to a third party platform or fund offering list or other marketing programs, including, without limitation, inclusion of the fund on preferred or recommended sales lists, mutual fund "supermarket" platforms and other formal sales programs; granting the Distributor access to the financial advisor's sales force; granting the Distributor access to the financial advisor's conferences and meetings; assistance in training and educating the financial advisor's personnel; and obtaining other forms of marketing support.

The level of revenue sharing payments made to financial advisors may be a fixed fee or based upon one or more of the following factors: gross sales, current assets and/or number of accounts of the fund attributable to the financial advisor, the particular fund or fund type or other measures as agreed to by the Advisor, the Distributor and/or their affiliates and the financial advisors or any combination thereof. The amount of these revenue sharing payments is

determined at the discretion of the Advisor, the Distributor and/or their affiliates from time to time, may be substantial, and may be different for different financial advisors based on, for example, the nature of the services provided by the financial advisor.

The Advisor, the Distributor and/or their affiliates currently make revenue sharing payments from their own assets in connection with the sale and/or distribution of DWS fund shares or the retention and/or servicing of investors and DWS fund shares to financial advisors in amounts that generally range from 0.01% up to 0.51% of assets of the fund serviced and maintained by the financial advisor, 0.05% to 0.25% of sales of the fund attributable to the financial advisor, a flat fee of up to \$60,000, or any combination thereof. These amounts are subject to change at the discretion of the Advisor, the Distributor and/or their affiliates. Receipt of, or the prospect of receiving, this additional compensation may influence your financial advisor's recommendation of the fund or of any particular share class of the fund. You should review your financial advisor's compensation disclosure and/or talk to your financial advisor to obtain more information on how this compensation may have influenced your financial advisor's recommendation of the fund. Additional information regarding these revenue sharing payments is included in the fund's Statement of Additional Information, which is available to you on request at no charge (see the back cover of this prospectus for more information on how to request a copy of the Statement of Additional Information).

The Advisor, the Distributor and/or their affiliates may also make such revenue sharing payments to financial advisors under the terms discussed above in connection with the distribution of both DWS funds and non-DWS funds by financial advisors to retirement plans that obtain record keeping services from ADP, Inc. or ExpertPlan Inc. on the DWS Investments branded retirement plan platform (the "Platform") with the level of revenue sharing payments being based upon sales of both the DWS funds and the non-DWS funds by the financial advisor on the Platform or current assets of both the DWS funds and the non-DWS funds serviced and maintained by the financial advisor on the Platform.

It is likely that broker-dealers that execute portfolio transactions for the fund will include firms that also sell shares of the DWS funds to their customers. However, the Advisor will not consider sales of DWS fund shares as a factor in the selection of broker-dealers to execute portfolio transactions for the DWS funds. Accordingly, the Advisor has implemented policies and procedures reasonably designed to prevent its traders from considering sales of DWS fund shares as a factor in the selection of broker-dealers to execute portfolio transactions for the fund. In addition, the Advisor, the Distributor and/or their affiliates will not use fund brokerage to pay for their obligation to provide additional compensation to financial advisors as described above.

POLICIES YOU SHOULD KNOW ABOUT

Along with the information on the previous pages, the policies below may affect you as a shareholder. Some of this information, such as the section on distributions and taxes, applies to all investors, including those investing through a financial advisor.

If you are investing through a financial advisor or through a retirement plan, check the materials you received from them about how to buy and sell shares because particular financial advisors or other intermediaries may adopt policies, procedures or limitations that are separate from those described in this prospectus. Please note that a financial advisor may charge fees separate from those charged by the fund and may be compensated by the fund.

Keep in mind that the information in this prospectus applies only to the shares offered herein. Other share classes are described in separate prospectuses and have different fees, requirements and services.

POLICIES ABOUT TRANSACTIONS

To help the government fight the funding of terrorism and money laundering activities, federal law requires all financial institutions to obtain, verify and record information that identifies each person who opens an account. When you open an account, we will ask for your name, address, date of birth and other information that will allow us to identify you. Some or all of this information will be used to verify the identity of all persons opening an account.

We might request additional information about you (which may include certain documents, such as articles of incorporation for companies) to help us verify your identity and, in some cases, more information and/or documents may be required to conduct the verification. The information and documents will be used solely to verify your identity.

We will attempt to collect any missing required and requested information by contacting you or your financial advisor. If we are unable to obtain this information within the time frames established by the fund, then we may reject your application and order.

The fund will not invest your purchase until all required and requested identification information has been provided and your application has been submitted in "good order." After we receive all the information, your application is deemed to be in good order and we accept your purchase, you will receive the share price next calculated.

If we are unable to verify your identity within time frames established by the fund, after a reasonable effort to do so, you will receive written notification.

With certain limited exceptions, only US residents may invest in the fund.

Because orders placed through a financial advisor must be forwarded to the transfer agent before they can be processed, you'll need to allow extra time. Your financial advisor should be able to tell you approximately when your

order will be processed. It is the responsibility of your financial advisor to forward your order to the transfer agent in a timely manner.

Transaction Processing. Except as provided below, purchase, redemption and exchange orders must be received in good order by 4:00 p.m. Eastern time (or prior to the close of the fund, if the New York Stock Exchange closes early on such date) on a business day on which the fund is open in order to be effective on that day; otherwise such orders will be effective on the next business day. However, on a normal business day that the fund calculates its share price at 5:00 p.m. Eastern time as provided below, purchase orders with payment sent by wire and redemption orders with proceeds to be sent by wire, ACH or by check that are communicated by telephone (but not by the Automated Information Line) and are received in good order by 5:00 p.m. Eastern time on a business day will be effective on that business day.

Orders for the purchase of shares by wire transfer will normally be effective at the share price next computed after receipt of the wire transfer of the amount to be invested. If a wire transfer purchase order is received in good order before 5:00 p.m. Eastern time, it will normally receive the dividend for that day.

Shareholders known to the fund may notify the transfer agent in advance of their wire transfer purchase by calling the transfer agent prior to the 5:00 p.m. Eastern time cut-off time and providing the amount of the order. The investor will receive a confirmation number for the trade. If the fund receives the wire transfer before the close of the Federal Funds wire system, the trade will be entitled to that day's dividend. If the fund does not receive the wire transfer by the close of the Federal Funds wire system, the trade may not receive the dividend for that day and, depending upon the circumstances, the trade may receive the dividend for the following business day or may be canceled or rejected and, in any case, the investor may be charged for any losses or fees that result, which may be paid by deductions from their account or otherwise. The fund's Distributor may refuse to allow any investor to trade with the fund in this manner and may require that the wire transfer of purchase proceeds be received before the trade is considered in good order.

Investments by check will be effective on the business day following receipt and will earn dividends the following business day.

Please contact your financial advisor for wire instructions and purchase orders.

Orders processed through dealers or other financial services firms via Fund/SERV will be effected at the share price calculated on the trade day (normally the date the order is received). Purchases processed via Fund/SERV will begin earning dividends on the day the fund receives the payment (typically the next business day). For redemptions

processed via Fund/SERV, you generally will receive dividends accrued up to, but not including, the business day that payment for your shares is made.

When selling shares, shareholders generally receive dividends up to, but not including, the business day following the day on which the shares were sold. To sell shares, you must state whether you would like to receive the proceeds by wire or check.

In order to receive proceeds by wire, contact the transfer agent before 5:00 p.m. Eastern time. After you inform the transfer agent of the amount of your redemption, you will receive a trade confirmation number. If the fund receives a sell request before 5:00 p.m. Eastern time and the request calls for proceeds to be sent out by wire, the proceeds will normally be wired on the same day. However, the shares sold will not earn that day's dividend.

As noted below, proceeds of a redemption may be delayed. The ability to receive "same day" wire redemption proceeds can be affected by a variety of circumstances including the time that the request is made, the level of redemption requests and purchase orders and general market conditions. A request for a same day wire that is received earlier in the day will be given priority over a request received later in the day in the event that it is necessary to limit the amount of same day wire redemptions.

Sub-Minimum Balances. The portfolio may close your account and send you the proceeds if your balance falls below \$1,000,000; we will give you 60 days' notice so you can either increase your balance or close your account (this policy doesn't apply to most retirement accounts).

Expedited Redemptions. Expedited Redemption Service allows you to have proceeds from your sales of fund shares wired directly to a bank account. To use this service, you'll need to designate the bank account in advance. Follow the instructions on your application.

Checkwriting enables you to sell shares of the fund by writing a check. Your investment keeps earning dividends until your check clears. Please note that we will not accept checks for less than \$1,000. Please note that you should not write checks for more than \$5,000,000. Note as well that we can't honor any check larger than your balance at the time the check is presented to us. A \$10 service charge will be assessed for checks that are written for less than \$1,000. It is not a good idea to close out an account using a check because the account balance could change between the time you write the check and the time it is processed. Please keep in mind that if you make a purchase by check and that check has not yet cleared, those funds will not be available for immediate redemption.

The fund accepts Automated Clearing House ("ACH") debit entries for accounts that have elected the checkwriting redemption privilege. Upon receipt of an ACH

debit entry referencing your account number you authorize us to redeem shares in your account to pay the entry to the third party originating the debit. Your fund account statement will show all ACH debit entries in your account. **In case of errors or questions about your transactions or pre-authorized transfers** please contact your financial advisor as soon as possible if you believe your statement reflects an improper charge or if you need more information about an ACH debit entry transaction. Your financial advisor must contact the Shareholder Service Agent within sixty (60) days of the fund sending you the first fund account statement on which an improper charge appears.

The fund does not issue share certificates.

The fund accepts payment for shares only in US dollars by a check drawn on a US bank, a bank or Federal Funds wire transfer or an electronic bank transfer. The fund does not accept third party checks. A third party check is a check made payable to one or more parties and offered as payment to one or more other parties (e.g., a check made payable to you that you offer as payment to someone else). Checks should normally be payable to DWS Investments and drawn by you or a financial institution on your behalf with your name or account number included with the check. If you pay for shares by check and the check fails to clear, we have the right to cancel your order, hold you liable or charge you or your account for any losses or fees the fund or its agents have incurred.

Signature Guarantee. When you want to sell more than \$100,000 worth of shares or send proceeds to a third party or to a new address, you'll usually need to place your order in writing and have your signature guaranteed. However, if you want money transferred electronically to a bank account that is already on file with us, you don't need a signature guarantee. Also, generally you don't need a signature guarantee for an exchange, although we may require one in certain other circumstances.

A signature guarantee is simply a certification of your signature — a valuable safeguard against fraud. DWS accepts Medallion Signature Guarantees, which can be obtained from an eligible guarantor. Eligible guarantor institutions include commercial banks, savings and loans, trust companies, credit unions, member firms of a national stock exchange or any member or participant of an approved signature guarantor program. A notarized document cannot be accepted in lieu of a signature guarantee.

Money from shares you sell is sent out within one business day of the business day that your redemption order is effective except as discussed below. It could be longer when you are selling shares you bought recently by check or ACH (the funds will be placed under a 10 calendar day hold to ensure good funds) or when unusual circumstances prompt the SEC to allow further delays. Certain expedited redemption processes (e.g., redemption proceeds by wire) may also be delayed or unavailable when you are selling shares recently purchased or in the event of the closing of the Federal Reserve wire payment

system. The fund reserves the right to suspend or postpone redemptions as permitted pursuant to Section 22(e) of the 1940 Act. Those circumstances are when 1) the New York Stock Exchange is closed other than customary weekend or holiday closings; 2) the SEC determines that trading on the New York Stock Exchange is restricted; 3) the SEC determines that an emergency exists which makes the disposal of securities owned by the fund or the fair determination of the value of the fund's net assets not reasonably practicable; or 4) the SEC, by order or rule, permits the suspension of the right of redemption. Redemption payments by wire may also be delayed in the event of a non-routine closure of the Federal Reserve wire payment system. For additional rights reserved by the fund, please see "Other Rights We Reserve."

Short-Term Trading. Since money market funds hold short-term instruments and are intended to provide liquidity to shareholders, the Advisor does not monitor or limit short-term or excessive trading activity in the fund and, accordingly, the Board of the fund has not approved any policies and procedures designed to limit this activity. However, the fund reserves the right to and may reject or cancel a purchase or exchange order into the fund for any reason, including if, in the opinion of the Advisor, there appears to be a pattern of short-term or excessive trading by an investor in another DWS fund.

HOW THE FUND CALCULATES SHARE PRICE

To calculate net asset value, or NAV, each share class uses the following equation:

$$\left(\frac{\text{Total Assets} - \text{Total Liabilities}}{\text{Total Number of Shares Outstanding}} \right) = \text{NAV}$$

The price at which you buy and sell shares is based on the NAV per share next calculated after the order is received and accepted by the transfer agent.

In valuing securities, we typically use amortized cost (the method used by most money market funds) to account for any premiums or discounts above or below the face value of any securities the fund buys, and round the per share NAV to the nearest whole cent.

The fund is open for business each day the New York Stock Exchange (the "Exchange") is open. Normally, the fund calculates its share price once every business day at 5:00 p.m. Eastern time. The close of regular trading on the Exchange is typically 4:00 p.m. Eastern time, but sometimes earlier, as in the case of scheduled half-day trading or unscheduled suspensions of trading. In the event of scheduled partial day trading or unscheduled suspensions of trading on the Exchange, the calculation of share price shall be as of the close of trading on the Exchange. In such instances, the latest time for receipt of wire purchase transactions entitled to receive same day dividend treatment and for receipt of redemption orders for same day wire

transfer of proceeds will be the earlier of: (a) 5:00 p.m. Eastern time or (b) the early closing time of the Exchange. The fund seeks to maintain a stable \$1.00 share price.

The fund may, but is not required to, accept certain types of purchase and redemption orders (not including exchanges) on days that the Exchange is closed, or beyond an Exchange early closing time (referred to as a "Limited Trading Period") if: (a) the Federal Reserve system is open, (b) the primary trading markets for the fund's portfolio instruments are open and (c) the Advisor believes there will be adequate liquidity in the short-term markets. During any such Limited Trading Period, the fund will only accept purchase orders by wire with advance telephone notification and telephone redemption orders with proceeds to be sent by wire, ACH or check and will not accept orders by any other means. (Automated Telephone Line orders are not permitted.) If redemption proceeds are requested by ACH or check, the transmission of the ACH payment or the mailing of the check, as the case may be, will be delayed by at least one business day in comparison to normal trading periods. Orders submitted by other means will be processed on the next day that the Exchange is open. The calculation of share price will be as set forth in the prospectus for normal trading days. Orders must be submitted by the cut-off times for receipt of wire purchases entitled to that day's dividend and for receipt of telephone redemption orders for same day wire transfer, which will be the earlier of: (a) the times set forth in the prospectus for normal trading days or (b) such earlier times that the fund determines based on the criteria described above. If redemption proceeds are requested by ACH or check, orders must be received prior to the calculation of share price. Please call (877) 237-1131 or visit our Web site at www.dbadvisorsliquidity.com/US for additional information about whether the fund will be open for business on a particular day. Information concerning the intention of the fund to be open for a Limited Trading Period will be available at least one business day prior to the applicable day that the Exchange is closed or is closing early in the case of scheduled closings and as soon as practical in the case of unscheduled closings.

OTHER RIGHTS WE RESERVE

You should be aware that we may do any of the following:

- withdraw or suspend the offering of shares at any time
- withhold a portion of your distributions and redemption proceeds if we have been notified by the IRS that you are subject to backup withholding or if you fail to provide us with the correct taxpayer ID number and certain certifications, including certification that you are not subject to backup withholding
- reject a new account application if you don't provide any required or requested identifying information, or for any other reason

- refuse, cancel, limit or rescind any purchase order, without prior notice; freeze any account (meaning you will not be able to purchase fund shares in your account); suspend account services; and/or involuntarily redeem your account if we think that the account is being used for fraudulent or illegal purposes; one or more of these actions will be taken when, at our sole discretion, they are deemed to be in the fund's best interests or when the fund is requested or compelled to do so by governmental authority or by applicable law
- close and liquidate your account if we are unable to verify your identity, or for other reasons; if we decide to close your account, your fund shares will be redeemed at the net asset value per share next calculated after we determine to close your account (less applicable redemption fee, if any); you may recognize a gain or loss on the redemption of your fund shares and you may incur a tax liability
- change, add or withdraw various services, fees and account policies (for example, we may adjust the fund's investment minimums at any time). All orders to purchase shares of the fund are subject to acceptance and are not binding until confirmed or accepted in writing

UNDERSTANDING DISTRIBUTIONS AND TAXES

The fund intends to distribute to its shareholders virtually all of its net earnings. The fund can earn money in two ways: by receiving interest, dividends or other income from securities it holds and by selling securities for more than it paid for them. (The fund's earnings are separate from any gains or losses stemming from your own purchase and sale of shares.) The fund may not always pay a dividend or distribution for a given period.

The fund's income dividends are declared daily and paid monthly to shareholders. The fund may take into account capital gains and losses in its daily dividend declarations. The fund may make additional distributions for tax purposes if necessary.

Dividends or distributions declared and payable to shareholders of record in the last quarter of a given calendar year are treated for federal income tax purposes as if they were received on December 31 of that year, if such dividends or distributions are actually paid in January of the following year.

You can choose how to receive your dividends and distributions. You can have them all automatically reinvested in fund shares (at NAV), all deposited directly to your bank account or all sent to you by check, have one type reinvested and the other sent to you by check or have them invested in a different fund. Tell us your preference on your application. If you don't indicate a preference, your dividends and distributions will all be reinvested.

Distributions are treated the same for federal income tax purposes whether you receive them in cash or reinvest them in additional shares. For federal income tax purposes, an exchange is treated the same as a sale.

Because the fund seeks to maintain a stable share price, you are unlikely to have capital gains or losses when you sell fund shares.

For federal income tax purposes, distributions of net investment income are taxable as ordinary income. The fund does not expect to make distributions that are eligible for taxation as long-term capital gains or as qualified dividend income.

For most shareholders, a portion of the dividends from the fund is generally exempt from state and local income taxes. However, a portion of the fund's dividends may be taxable as ordinary income if it came from investments in taxable securities, tax-exempt market discount bonds, or as the result of short or long-term capital gains.

Your fund will send you detailed federal income tax information early each year. These statements tell you the amount and the federal income tax classification of any dividends or distributions you received.

If the fund's distributions exceed its current and accumulated earnings and profits, the excess will be treated for federal income tax purposes as a return of capital to the extent of your basis in your shares and thereafter as a capital gain. A return of capital distribution reduces the basis of your shares. As a result, even though the fund seeks to maintain a stable share price, you may recognize a capital gain when you sell your shares if you have received a return of capital distribution.

The above discussion summarizes certain federal income tax consequences for shareholders who are US persons. If you are a non-US person, please consult your own tax advisor with respect to the US tax consequences to you of an investment in the fund. For more information, see "Taxes" in the Statement of Additional Information.

Financial Highlights

The financial highlights are designed to help you understand recent financial performance. The figures in the first part of the tables are for a single share. The total return figures represent the percentage that an investor in the fund would have earned (or lost), assuming all dividends

and distributions were reinvested. This information has been audited by Ernst & Young LLP, independent registered public accounting firm, whose report, along with the fund's financial statements, is included in the fund's annual report (see "Shareholder reports" on the back cover).

Ratio of expenses before expense reductions (%)	.20	.19	.19	.19	.21
Ratio of expenses after expense reductions (%)	.15	.08	.16	.18	.20
Ratio of net investment income (%)	.03	.04	.07	.14	.94 ^b

^a Total return would have been lower had certain expenses not been reduced.

^b Due to the timing of the subscriptions and redemptions, the amount shown does not correspond to the total return during the period.

* Amount is less than \$.0005.

Appendix

HYPOTHETICAL EXPENSE SUMMARY

Using the annual fund operating expense ratios presented in the fee tables in the fund prospectus, the Hypothetical Expense Summary shows the estimated fees and expenses, in actual dollars, that would be charged on a hypothetical investment of \$10,000 in the fund held for the next 10 years and the impact of such fees and expenses on fund returns for each year and cumulatively, assuming a 5% return for each year. The historical rate of return for the fund may be higher or lower than 5% and, for money market funds, is typically less than 5%. The tables also assume that all dividends and distributions are reinvested and that, where applicable, Class B shares convert to Class A shares after six years. The annual fund expense ratios shown are net of any contractual fee waivers or expense reimbursements, if any, for the period of the contractual commitment. The tables reflect the maximum initial sales

charge, if any, but do not reflect any contingent deferred sales charge or redemption fees, if any, which may be payable upon redemption. If contingent deferred sales charges or redemption fees were shown, the "Hypothetical Year-End Balance After Fees and Expenses" amounts shown would be lower and the "Annual Fees and Expenses" amounts shown would be higher. Also, please note that if you are investing through a third party provider, that provider may have fees and expenses separate from those of the fund that are not reflected here. Mutual fund fees and expenses fluctuate over time and actual expenses may be higher or lower than those shown.

The Hypothetical Expense Summary should not be used or construed as an offer to sell, a solicitation of an offer to buy or a recommendation or endorsement of any specific mutual fund. You should carefully review the fund's prospectus to consider the investment objectives, risks, expenses and charges of the fund prior to investing.
