

Chapter 11B Mini-Sized Soybean Futures

11B00. SCOPE OF CHAPTER

This chapter is limited in application to mini-sized soybean futures. The procedures for trading, clearing, inspection, delivery and settlement of mini-sized soybean futures, and any other matters not specifically covered herein or in Chapters 7 and 11 shall be governed by the rules of the Exchange.

11B01. CONTRACT SPECIFICATIONS

Each futures contract shall be for 1,000 bushels of No. 2 yellow soybeans at par, No. 1 yellow soybeans at 6 cents per bushel over contract price, or No. 3 yellow soybeans at 6 cents per bushel under contract price provided that all factors equal U.S. No. 2 or better except for foreign material (refer to Rule 11B04.). Every delivery of soybeans may be made up of the authorized grades for shipment from eligible regular facilities provided that no lot delivered shall contain less than 1,000 bushels of any one grade from any one shipping station.

11B02. TRADING SPECIFICATIONS

Trading in mini-sized soybean futures is regularly conducted in seven months – September, November, January, March, May, July and August. The number of months open for trading at a given time shall be determined by the Exchange.

11B02.A. Trading Schedule

The hours for trading of mini-sized soybean futures shall be determined by the Exchange.

On the last day of trading in an expiring future, the close of the expiring future shall begin at 12 o'clock noon and trading shall be permitted thereafter for a period not to exceed one minute. Quotations made during this one minute period shall constitute the close.

11B02.B. Trading Unit

The unit of trading shall be 1,000 bushels of soybeans.

11B02.C. Price Increments

The minimum fluctuation for mini-sized soybean futures shall be 1/8 cent per bushel (\$1.25 per contract), including spreads.

11B02.D. Daily Price Limits¹

There shall be no trading in mini-sized soybean futures at a price more than \$0.70 per bushel (\$700 per contract) above or below the previous day's settlement price. Should two or more soybean futures contract months within the first seven listed non-spot contracts (or the remaining contract month in a crop year) close at limit bid or limit offer, the daily price limits for all contract months shall increase to \$1.05 per bushel the next business day. Should two or more soybean futures contract months within the first seven listed non-spot contracts (or the remaining contract month in a crop year) close at limit bid or limit offer while price limits are \$1.05 per bushel, daily price limits for all contract months shall increase to \$1.60 per bushel the next business day. If price limits are \$1.60 per bushel and no soybean futures contract month closes limit bid or limit offer, daily price limits for all contract months shall revert back to \$1.05 per bushel the next business day. If price limits are \$1.05 per bushel and no soybean futures contract month closes limit bid or limit offer, daily price limits for all contract months shall revert back to \$0.70 per bushel the next business day. There shall be no price limits on the current month contract on or after the second business day preceding the first day of the delivery month.

11B02.E. Position Limits

For the purposes of this rule, one mini-sized soybean contract is equivalent to one-fifth of a corresponding full-sized soybean contract, and positions in soybeans and mini-sized soybeans will be aggregated for the purpose of determining compliance with the contracts' position limit.

In accordance with Rule 559., Position Limits and Exemptions, no person shall own or control positions in excess of:

¹ Revised March 2008.

1. 3,000 contracts net long or net short in the spot month.
2. 32,500 futures-equivalent contracts net long or net short in any single contract month excluding the spot month. Additional futures contracts may be held outside of the spot month as part of futures/futures spreads within a crop year provided that the total of such positions, when combined with outright positions, does not exceed the all months combined limit.
3. 50,000 futures-equivalent contracts net long or net short in all months combined.

Refer to Rule 559. for requirements concerning the aggregation of positions and allowable exemptions from the specified position limits.

11B02.F. Termination of Trading

No trades in mini-sized soybean futures deliverable in the current month shall be made after the business day preceding the 15th calendar day of that month. Any contracts remaining open after the last day of trading must be either:

- (a) Settled by delivery no later than the second business day following the last trading day (tender on business day prior to delivery).
- (b) Liquidated by means of a bona fide Exchange of Futures for Related Position, no later than the business day following the last trading day.

10B03. SETTLEMENT PRICES

Settlement prices of mini-sized soybean futures contracts shall be set equal to the settlement prices of the corresponding contracts in the primary market. Where a particular contract has opened on the Exchange for which the primary market has established no settlement price, the Clearing House shall set a settlement price consistent with the spread relationships of other contracts; provided, however, that if the contract is not subject to daily price fluctuation limits then the settlement prices shall be set at the fair market value of the contract at the close of trading.
