Weekdays shall be defined as Monday, Tuesday, Wednesday, Thursday and Friday.

<sup>1</sup> Revised June 1992; December 1998; February 2004; September 2004.

<sup>2</sup> Revised December 2001.

<sup>3</sup> Revised June 1992; February 2004.

<sup>4</sup> Revised November 2003; February 2004.

<sup>5</sup> Revised February 1987; March 1988; August 1993; November 1996, June 2008.

<sup>6</sup> Revised September 1988.

<sup>7</sup> Effective with November 1990 and all subsequent November contracts. Revised August 1999.

2. Any contract month in which a holiday falls on the last Thursday of the month or on any of the four weekdays prior to that Thursday shall terminate on the first prior Thursday that is not a holiday and is not so preceded by a holiday.

#### 10202.I. Contract Modifications

Specifications shall be fixed as of the first day of trading of a contract, except that if any federal governmental agency issues an order, ruling, directive or law that conflicts with the requirements of these rules, such order, ruling, directive or law shall be construed to take precedence and become part of these rules and all open and new contracts shall be subject to such government orders.

### 10203. SETTLEMENT PROCEDURES<sup>1</sup>

#### 10203.A. Final Settlement

There shall be no delivery of feeder cattle in settlement of this contract. All contracts open as of the termination of trading shall be cash settled based upon the CME Feeder Cattle Index™ for the seven calendar days ending on the day on which trading terminates.

##### 1. The Sample<sup>2</sup>

The CME Feeder Cattle Index™ is based upon a sample of transactions from these weight/frame score categories: 650 to 849 pound Medium and Large Frame #1 feeder steers, and 650 to 849 pound Medium and Large Frame #1-2 feeder steers.

The sample consists of all feeder cattle auction, direct trade, video sale, and Internet sale transactions within the 12-state region of Colorado, Iowa, Kansas, Missouri, Montana, Nebraska, New Mexico, North Dakota, Oklahoma, South Dakota, Texas and Wyoming for which the number of head, weighted average price and weighted average weight are reported by the Agricultural Marketing Service of the USDA (USDA-AMS).

All direct trade reports shall be considered to be Friday transactions.

Multiple day sales, for which separate weighted average reports are not issued for each day or it is not evident from the reports issued what cattle sold on which day, shall be included in the sample as if all transactions occurred the final day of the sale.

Saturday and Sunday sales shall be included in the sample as if all transactions occurred on Monday.

Reports that are designated as "preliminary" shall not be included in the sample, and no transactions from that location shall be used until a final report is issued.

Cattle identified in the report as being fancy, thin, fleshy, gaunt or full; having predominantly dairy, exotic or Brahma breeding; shall be excluded from the sample. Transactions for cattle that are reported by USDA-AMS as having an origin outside of the United States shall be excluded from the sample. Direct trade, video sale, and Internet sale transactions must be quoted on an FOB basis, 3% standing shrink or equivalent, with pickup within 14 days to be included in the sample.

##### 2. The Calculation

The procedure for calculating the CME Feeder Cattle Index™ is as follows:

- a. For each of the relevant weight/frame score categories in each report:
  - i. the number of head is multiplied by the corresponding weighted average weight to obtain the total pounds sold in that weight/frame score category for that report; and
  - ii. the number of head is multiplied by the corresponding weighted average weight, and the resulting product is then multiplied by the corresponding weighted average price, to obtain the total dollars sold in that weight/frame score category for that report.
- b. For each report:

<sup>1</sup> Revised June 1992; November 1998; February 2004; September 2004.

<sup>2</sup> Revised January 2008.

- i. the total pounds sold in the relevant weight/frame score categories (i.e., the results from 1.a., above) are aggregated to obtain the total pounds sold for that report; and
  - ii. the total dollars sold in the relevant weight/frame score categories (i.e., the results from 1.b., above) are aggregated to obtain the total dollars sold for that report.
- c. For all reports covering relevant transactions that occurred within the same seven calendar day period:
- i. the total pounds (i.e., the results from 2.a., above) are aggregated to obtain the total pounds sold within the 12-state region during that seven calendar day period; and
  - ii. the total dollars (i.e., the results from 2.b., above) are aggregated to obtain the total dollars sold within the 12-state region during that seven calendar day period.
- d. The total dollars sold within the 12-state region during that seven calendar day period (i.e., the result from 3.b., above) is divided by the total pounds sold within the 12-state region during that same seven calendar day period (i.e., the result from 3.a., above) to obtain the CME Feeder Cattle Index™.
