

RTS Realtime Systems

RTS (www.rtsgroup.net) delivers high-performance, end-to-end technology products and services across asset classes and continents to elite financial institutions. The firm is one of the world's leading providers of ultra-low latency, high frequency, robust algorithmic trading solutions, available with sophisticated pre- and post-execution risk management tools. Its innovative, advanced trading solutions reduce time to market and empower traders to realize their unique strategies.

RTS offers standardized low latency connectivity gateways, using FIX standard as well as proprietary messaging standard, for both orders and market data, to 120+ exchanges and execution venues worldwide. In addition, the firm provides proximity hosting and co-location services for high-speed, ultra-low latency access to 65+ venues via its global data center network.

Clients include exchanges, investment banks, proprietary trading firms, brokerage houses, introducing brokers, institutional investors, hedge funds and statistical arbitrage groups. RTS has offices in Amsterdam, Chicago, Frankfurt, London, New York, Singapore and Sydney.
