

TO: Clearing Member Firms; Back Office Managers; Service Providers
FROM: CME Clearing
ADVISORY #: 16-150
SUBJECT: **Introducing CME ClearView**
DATE: April 7, 2016

CME Clearing is happy to announce the launch of a new, innovative application called **CME ClearView**.

ClearView is designed to give our customers better insight into the delivery status of intraday and end of day files we produce. You can think of it like a train schedule – ClearView will show you the list of files (SPAN files, Trade Registers, Margin Reports, etc.), the estimated time of arrival, whether the file is delayed (compared to our average publishing times), and whether CME Clearing has already published the file. ClearView will also allow you to opt-in to email alerts, which conveniently and proactively inform you anytime CME publishes an alert on a file. We believe that this application will be very useful to any customer that consumes our files, particularly CME Clearing Member Firms of both CME Clearing US and CME Clearing Europe, their clients and back-office service providers.

ClearView includes the following categories:

CDS - Credit Default Swaps: prices, trades/positions, margins	IRS - Interest Rate Swaps reports: trades/positions, prices, margins
CMECE - CME Clearing Europe reports	Prices - Settlement price files for futures
Fees - Fee reports by asset class	SPAN - SPAN risk parameter files
Futures - Futures & Options reports: exercise/assignments, positions, deliveriesreports: exercise/assignments, positions, deliveries	Settlement - Settlement variation/margin and asset numbers
Intraday - Intraday-specific reports for CME Europe & US	

In order to get access to ClearView, all that we ask require is that your firm send our team an email with the list of SmartClick IDs that require access to the application. If you don't have a SmartClick ID, creating one is easy – just follow the steps available at <https://login.cmegroup.com/sso/register/>

Once you have access to ClearView, you will be able to see the application in the under the “Post Trade” menu in the CME Group customer application portal at <https://login.cmegroup.com/>

For more summary-level information about how to use ClearView, feel free to read our user guide available at <http://www.cmegroup.com/tools-information/webhelp/clearview/Default.html>

Please let us know by email if you have any questions about ClearView. Our team's email address is ccs@cmegroup.com
