## Introduction & Overview

The objective of this mock trading session is to ensure customers can receive and process the new Price Precision Extension MDP 3.0 SBE schema in the CME Globex production environment prior to the launches scheduled for **August 12, 2018** and **August 26, 2018**.

For this mock trading session, Simple Binary Encoding (SBE) MDP 3.0 market data messages will be broadcast on the following channels:

Channel Number	Name	Market Segment
340	CBOT Globex Commodity Futures	<b>70</b>
346	CBOT Globex Commodity Futures II	<b>72</b>
341	CBOT Globex Commodity Options	<b>60</b>
460	MGEX Globex Futures	<b>70</b>
461	MGEX Globex Options	<b>60</b>
342	CBOT Globex Equity Index Futures	<b>68</b>
343	CBOT Globex Equity Index Options	<b>54</b>
344	CBOT Globex Interest Rate Futures	<b>84</b>
345	CBOT Globex Interest Rate Options	<b>58</b>
348	CBOT Globex Interest Rate Futures II	<b>82</b>

During this mock trading session, customers may test MDP 3.0 Market Data.

Customers must register with their [Global Account Manager \(GAM\)](#) for this session in advance.

This mock trading session only supports Market Data testing. Ilink testing will not be available and only 7-digit decimal instrument prices will be sent on the market data feeds. End-to-end testing through Clearing will not be available.

## Conference Bridge

There will be a conference bridge line open during the testing. Customers are encouraged to join the call for real-time information related to the mock trading session.

Conference bridge numbers:

US toll free: 1.877.979.3898  
International: 011.404.410.4584  
Passcode: 6485475

## Timeline

The mock session will follow the timeline reflected in the table below:
