29A03. FINAL SETTLEMENT PRICE

The final settlement price shall be determined on the final settlement day. The final settlement price shall be based on the official settlement of the Dow Jones-UBS Commodity IndexSM ("Index"), subject to adjustment in accordance with the Market Disruption Event provisions as described below. Payment will be on the second business day following the date on which the official settlement of the Index is determined, unless postponed due to a Market Disruption Event.

Market Disruption Event

"Market Disruption Event" ("MDE") shall mean (a) a contract included in the Index remains at a "limit price", which means that the price for such contract for a day has increased or decreased from the previous day's settlement price by the maximum amount permitted under applicable trading facility rules, during the entire closing range, irrespective of whether that contract is settled by the applicable trading facility at the "limit price" or another price, (b) failure by the applicable trading facility or other price source to announce or publish the settlement price for any contract included in the Index, or (c) trading in any contract included in the Index is suspended or interrupted subsequent to the opening of trading and trading in such contract does not recommence at least ten (10) minutes prior to the regular scheduled close of trading in such contract on the relevant trading facility.

If a Market Disruption Event relating to one or more of the contracts underlying the Index (each an "index contract") occurs on any day relevant to calculating the settlement of the contract, the settlement of the contract will be calculated by using a price (i) for each index contract that is not affected by a Market Disruption Event on such date, the settlement price of such index contract on such date and (ii) for each index contract that is affected by a Market Disruption Event on such date, the settlement price of such index contract on the first succeeding trading day on which no Market Disruption Event is existing with respect to such index contract; provided that, if a Market Disruption Event occurs with respect to such index contract for eight trading days, the settlement price for such index contract shall be determined by the Exchange notwithstanding that a Market Disruption Event does or does not exist on such following Trading Day for such affected index contract.

Trading Day means a day when:

- 1) The Index Sponsor is open for business and the Index is calculated and published by the Index Sponsor;
- 2) All trading facilities on which contracts are traded for the commodities included in the Index are open for trading, provided however that upon a calculation pursuant to sub-clause (ii) of the second paragraph of the section headed "Market Disruption Event" above, only the trading facility on which the relevant index contract that is affected by a Market Disruption Event is traded is required to be open for trading.

Business Day means:

Any day, other than a Saturday or Sunday, that is neither a legal holiday nor a day on which banking institutions are authorized or required by law or regulation to close in the City of New York or London.
