

## Chapter 57A

### Options on Dry Whey Futures

#### 57A00. SCOPE OF CHAPTER

This chapter is limited in application to trading in put and call options on the Dry Whey futures contract. The procedures for trading, clearing, inspection, delivery and settlement and any other matters not specifically covered herein shall be governed by the rules of the Exchange.

#### 57A01. OPTION CHARACTERISTICS

##### 57A01.A. Contract Months and Trading Hours

Options contracts shall be listed for such contract months and scheduled for trading during such hours as may be determined by the Board of Directors.

##### 57A01B. Trading Unit

The trading unit shall be an option to buy, in the case of the call, or to sell, in the case of the put, one Dry Whey futures contract as specified in Chapter 57.

##### 57A01.C. Minimum Fluctuations

The price of an option shall be quoted in cents per pound. Minimum price fluctuations shall be in multiples of \$.00025 per pound (also known as one tick). A trade may also occur at a price of \$.000125 per pound (\$5.50, also known as one-half tick), whether or not it results in the liquidation of positions for both parties to the trade.

##### 57A01.D. Exercise Prices

The exercise prices shall be stated in terms of cents per pound. For all contract months, exercise prices shall be at intervals of 1 cent; e.g., 20 cents, 21 cents, etc. In addition, for the 2 nearest contract months, some exercise prices shall be at intervals of .50 cent; e.g., 20.50 cents, 21.50 cents, as described below.

At the commencement of option trading in a contract month, the Exchange shall list put and call options in a range of 5 cents above and below the previous day's settlement price of the underlying futures contract.

When a sale, bid, offer, or settlement price in the underlying futures contract occurs at, or passes through an exercise price, the Exchange shall list on the next trading day put and call option contracts at the next higher (or next lower) exercise price within a 5 cent range above (or below) the exercise price at which or through which the underlying futures sale, bid, offer, or settlement price occurred.

When a contract month becomes the second nearest contract month, the Exchange shall add exercise prices at .50 cent intervals at a range of 5 cents above and below the previous day's settlement price of the underlying futures contract. If the previous day's futures contract settlement price equals an eligible exercise price, then that exercise price shall also be listed, if not yet listed. Thereafter, when a sale, bid, offer, or settlement price in the underlying futures contract occurs at, or passes through, an exercise price within a 5 cent range above (or below) the exercise price at which or through which the underlying futures sale, bid, offer, or settlement price occurred, the Exchange shall list on the next trading day put and call options at the next higher (or next lower) exercise price within a 5 range above (or below) the exercise price at which or through which the underlying futures sale, bid, offer, or settlement price occurred.

New options may be listed for trading up to and including the termination of trading.

The Board may modify the provisions governing the establishment of exercise prices as it deems appropriate.

The Exchange may modify the procedure for the introduction of strike prices as it deems appropriate in order to respond to market conditions.

##### 57A01.E. Position Limits

No person shall own or control a combination of options and underlying futures that exceeds:

1. 1000 futures equivalent contracts net on the same side of the market in any contract month.
2. 200 futures equivalent contracts net on the same side of the market in the expiring

contract month as of the close of business on the business day immediately preceding the last 5 trading days in the expiring contract.

For the purpose of this rule, the futures equivalent of an option contract is 1 times the previous business day's IOM risk factor for the option series. Also for purposes of this rule, a long call option, a short put option, and a long underlying futures contract are on the same side of the market; similarly, a short call option, a long put option, and a short underlying futures contract are on the same side of the market.

#### **57A01.F. Accumulation of Positions**

The positions of all accounts owned or controlled by a person or persons acting in concert or in which such person or persons have a proprietary or beneficial interest, shall be cumulated. The Board may impose position limits for any such accounts as it deems appropriate.

#### **57A01.G. Exemptions**

The foregoing position limits shall not apply to commercially appropriate risk reducing option positions defined in accordance with Regulation 1.3(z)(1) of the CFTC and meeting the requirements of Rule 559 and shall not apply to other option positions exempted pursuant to Rule 559.

#### **57A01.H. Termination of Trading**

Options trading shall terminate on the same date and time as the underlying futures contract.

#### **57A01.I. Contract Modification**

Specifications shall be fixed as of the first day of trading of a contract except that all options must conform to government regulations in force at the time of exercise. If the U.S. government, an agency, or duly constituted body thereof issues an order, ruling, directive, or law inconsistent with these rules, such order, ruling, directive, or law shall be construed to become part of these rules and all open and new options contracts shall be subject to such government orders.

### **57A02. EXERCISE**

In addition to the applicable procedures and requirements of Chapter 7 the following shall apply to the exercise of Dry Whey options.

#### **57A02.A. Exercise of Option by Buyer**

An option may be exercised by the buyer on any business day the option is traded. Exercise of an option is accomplished by the clearing member representing the buyer presenting an Exercise Notice to the Clearing House by 7:00 p.m. on the day of exercise.

An option that is in the money and has not been liquidated or exercised prior to the termination of trading shall, in the absence of contrary instruction delivered to the Clearing House by 7:00 p.m. on the business day following the expiration by the clearing member representing the option buyer, be exercised automatically.

#### **57A02.B. Assignment**

Exercise Notices accepted by the Clearing House shall be assigned through a process of random selection to clearing members with open short positions in the same areas. A clearing member to which an Exercise Notice is assigned shall be notified thereof as soon as practicable after such notice is assigned by the Clearing House, but not later than 45 minutes prior to the opening of trading in the underlying futures contract on the following business day.

The clearing member assigned an Exercise Notice shall be assigned a short position in the underlying futures contract if a call was exercised or a long position if a put was exercised. The clearing member representing the option buyer shall be assigned a long position in the underlying futures contract if a call was exercised and a short position if a put was exercised.

All such futures positions shall be assigned at a price equal to the exercise price of the option and shall be marked to market in accordance with Rule 814 on the trading day following acceptance by the Clearing House of the Exercise Notice.

### **57A03. ACTS OF GOVERNMENT, ACTS OF GOD AND OTHER EMERGENCIES**

(Refer to Rule 701. – ACTS OF GOVERNMENT, ACTS OF GOD AND OTHER EMERGENCIES)

(End Chapter 57A)
