

Chapter 363

E-Mini™ S&P Asia 50 Stock Price Index Futures

36300. SCOPE OF CHAPTER

This chapter is limited in application to futures trading in the E-Mini S&P Asia 50 Stock Index. The procedures for trading, clearing, settlement, and any other matters not specifically covered herein shall be governed by the rules of the Exchange.

36301. COMMODITY SPECIFICATIONS

Each futures contract shall be valued at \$25.00 times the S&P Asia 50 Stock Index. The S&P Asia 50 Stock Index is a market capitalization weighted Index of 50 stocks from major Asian markets, excluding Japan.

36302. FUTURES CALL

36302.A. Trading Schedule

Futures contracts shall be scheduled for trading during such hours and for delivery in such months as may be determined by the Board of Directors, subject to the requirement that all such determinations and other actions implementing such determinations be submitted to the Commodity Futures Trading Commission in accordance with the provisions of Section 5a(a)(12)(A) of the Commodity Exchange Act and all Commission regulations thereunder.

36302.B. Trading Unit

The unit of trading shall be \$25.00 times the S&P Asia 50 Stock Index.

36302.C. Price Increments

Bids and offers shall be quoted in terms of the E-Mini S&P Asia 50 Stock Index. The minimum fluctuation of the futures contract shall be 0.50 index points, equivalent to \$12.50 per contract.

36302.D. Position Limits

A person shall not own or control more than 25,000 contracts net long or net short in all contract months combined.

36302.E. Accumulation of Positions

For purposes of this rule, the positions of all accounts directly or indirectly owned or controlled by a person or persons, and the positions of all accounts of a person or persons acting pursuant to an expressed or implied agreement or understanding, and the positions of all accounts in which a person or persons have a proprietary or beneficial interest, shall be cumulated.

36302.F. Exemptions

The foregoing position limits shall not apply to bona fide hedge positions meeting the requirements of Regulation 1.3(z)(1) of the CFTC and the rules of the Exchange, and shall not apply to arbitrage positions and inter-commodity spread positions subject to Rule 559.

36302.G. Termination of Trading

Futures trading shall terminate at the close of trading on the business day immediately preceding the day of determination of the Final Settlement Price.

36302.H. Contract Modifications

Specifications shall be fixed as of the first day of trading of a contract. If any U.S. governmental agency or body issues an order, ruling, directive or law that conflicts with the requirements of these rules, such order, ruling, directive, or law shall be construed to take precedence and become part of these rules, and all open and new contracts shall be subject to such government orders.

36302.I. Price Limits, Trading Halts, and/or Trading Hours

There shall be no trading at a price more than the Daily Price Limit above or below the previous day's settlement price, except that there shall be no Daily Price Limit in a contract on its last day of trading.

The Daily Price Limit shall be announced prior to the opening of trading in each calendar month. The Daily Price Limit shall be determined from the following table, based on the settlement price of the lead month futures contract on the last business day of the preceding month:

Lead Month Settlement	Daily Limit (Index Points)
< 2,000	100
2,000 to <3,000	150
3,000 to < 4,000	200
4,000 +	250

36303. SETTLEMENT PROCEDURES

Final settlement of the E-Mini S&P Asia 50 Stock Index futures contract shall be by cash settlement.

36303.A. Final Settlement Price

The final settlement price shall be the special opening quotation of the S&P Asia 50 Stock Index calculated by S&P, rounded to the nearest 1/100th of an index point. This value shall be based on the opening prices of the stocks at their respective primary exchanges on the third Friday of the contract month. Opening prices shall be converted from local currency to U.S. Dollars based on the spot exchange rate provided by Reuters at 10:00 am Hong Kong time on the day of final settlement price calculation.

If a component stock in the index does not trade on the day scheduled for determination of the Final Settlement Price while the primary market for that stock is open for trading, the price of that stock shall be determined, for the purposes of calculating the Final Settlement Price, based on the most recent closing price of that stock.

If all primary exchanges are not scheduled to be open for trading, or the Standard & Poor's Asia 50 Stock Price Index is otherwise not scheduled to be published, on the third Friday of the contract month, the Final Settlement Price shall be determined on the first earlier day for which the Index is scheduled to be published. The spot exchange rate at 10:00 am Hong Kong time on the same day shall be used to convert prices from local currency to U.S. Dollars.

If one or more primary exchange(s) are scheduled to be open for trading while one or more primary exchange(s) are not scheduled to be open for trading on the day of final settlement calculation, the following method shall be employed for the purpose of determining the special opening quotation:

1. if the primary exchange of a component stock is scheduled to be open for trading on the day of Final Settlement Price calculation, the opening price of the stock at its primary exchange(s) shall be used. If the stock does not open for trading on the day scheduled for determination of the Final Settlement Price while the primary market for that stock is open for trading, the price of that stock shall be determined, for the purposes of calculating the Final Settlement Price, based on the most recent closing price of that stock. The most recent closing prices shall be converted using the spot exchange rate used for all other open stocks on that exchange on the day of Final Settlement; i.e. 10:00 am Hong Kong time on day of Final Settlement Price calculation.
2. if the primary exchange of a component stock is not scheduled to be open for trading on the day of Final Settlement Price calculation, the most recent available closing price of the stock at its primary exchange shall be used. The spot exchange rate at 10:00 am Hong Kong time on the day of Final Settlement calculation shall be used to convert prices from local currency to U.S. Dollars irrespective of the Exchanges different opening and closing times.

If the primary market for a component stock in the index does not open on the day scheduled for determination of the Final Settlement Price due to unforeseen circumstances, then the price of that stock shall be determined, for the purposes of calculating the Final Settlement Price, based on the opening price of that stock on the next day that its primary market is open for trading.

In event of an unscheduled close of one or more exchanges, the following actions will be taken:

1. Friday's opening quotes from the exchange(s) that are open shall be converted to U.S. Dollars using the 10:00 am Hong Kong time spot exchange rate on the day of Final Settlement;
2. The next available opening price for the closed exchange(s), shall be used. The spot exchange rate at 10:00 am Hong Kong time on the day these opening prices are recorded shall be used to convert prices from local currency to U.S. Dollars.

36303.B. Final Settlement

Clearing members holding open positions in an E-Mini S&P Asia 50 Stock Index futures contract at the time of termination of trading in that contract shall make payment to or receive payment from the Clearing House in accordance with normal variation performance bond procedures based on a settlement price equal to the final settlement price.

36304. ACTS OF GOVERNMENT, ACTS OF GOD AND OTHER EMERGENCIES

(Refer to Rule 701. – ACTS OF GOVERNMENT, ACTS OF GOD AND OTHER EMERGENCIES)

36305. - 06.[RESERVED]

(End Chapter 363)

**INTERPRETATIONS & SPECIAL NOTICES
RELATING TO CHAPTER 363**

Standard & Poor's, a division of the McGraw–Hill Companies, Inc. ("S&P"), licenses the Exchange to use various S&P stock indices ("S&P Stock Indices") in connection with the trading of futures contracts and options on futures contracts based upon such indices. S&P shall have no liability for damages, claims, losses or expenses caused by any errors or delays in calculating or disseminating the S&P Stock Indices.

Standard & Poor's, a division of the McGraw–Hill Companies, Inc. ("S&P"), does not guarantee the accuracy and/or completeness of the S&P Stock Indices or any data included therein. S&P makes no warranty, express or implied, as to the results to be obtained by any person or any entity from the use of the S&P Stock Indices or any data included therein in connection with the trading of futures contracts, options on futures contracts and any other use. S&P makes no express or implied warranties, and expressly disclaims all warranties of merchantability or fitness for a particular purpose or use with respect to the S&P Stock Indices or any data included therein. Without limiting any of the foregoing, in no event shall S&P have any liability for any special, punitive, indirect or consequential damages (including lost profits), even if notified of the possibility of such damages.
