415A02. SETTLEMENT

Settlement against S&P GSCI™ ER Swaps must be made through the Clearing House. Settlement under these rules shall be on the final settlement day (as described in Rule [415A05](#).) and shall be accomplished by cash settlement as hereinafter provided.

Clearing members holding open positions in an S&P GSCI™ ER Swaps contract at the time of termination of clearing shall make payment to and receive payment through the Clearing House in accordance with normal variation settlement procedures based on a settlement price equal to the final settlement price (as described in Rule [415A03](#).).

415A03. FINAL SETTLEMENT PRICE

Final settlement shall be based on the official settlement of the S&P GSCI™ ER Index , subject to adjustment in accordance with the Market Disruption Event provisions as described below. Payment will be on the second business day following the date on which the official settlement of the Index is determined, unless postponed due to a Market Disruption Event.

Market Disruption Event

"Market Disruption Event" ("MDE") shall mean (a) a contract included in the Index remains at a "limit price", which means that the price for such contract for a day has increased or decreased from the previous day's settlement price by the maximum amount permitted under applicable trading facility rules, during the entire closing range, irrespective of whether that contract is settled by the applicable trading facility at the "limit price" or another price, (b) failure by the applicable trading facility or other price source to announce or publish the settlement price for any contract included in the Index, or (c) trading in any contract included in the Index is suspended or interrupted subsequent to the opening of trading and trading in such contract does not recommence at least ten (10) minutes prior to, and such suspension or interruption continues until, the regular scheduled close of trading in such contract on the relevant trading facility.

If a Market Disruption Event relating to one or more of the contracts underlying the Index (each an "index contract") occurs on any day relevant to calculating the settlement of the contract, the settlement of the contract will be calculated by using a price (i) for each index contract that is not affected by a Market Disruption Event on such date, the settlement price of such index contract on such date and (ii) for each index contract that is affected by a Market Disruption Event on such date, the settlement price of such index contract on the first succeeding trading day on which no Market Disruption Event is existing with respect to such index contract; provided that, if a Market Disruption Event occurs with respect to such index contract for eight trading days, the settlement price for such index contract shall be determined by the Exchange notwithstanding that a Market Disruption Event does or does not exist on such following Trading Day for such affected index contract.

Trading Day means a day when:

- 1) The Index Sponsor is open for business and the Index is calculated and published by the Index Sponsor;
- 2) All trading facilities on which contracts are traded for the commodities included in the Index are open for trading, provided however that upon a calculation pursuant to sub-clause (ii) of the second paragraph of the section headed "Market Disruption Event" above, only the trading facility on which the relevant index contract that is affected by a Market Disruption Event is traded is required to be open for trading.

Business Day means:

Any day, other than a Saturday or Sunday, that is neither a legal holiday nor a day on which banking institutions are authorized or required by law or regulation to close in the City of New York or London.

415A04. RESERVED

415A05. FINAL SETTLEMENT DAY

The final settlement day shall be defined as the last business day of the contract month, or if the S&P GSCI™ ER Index is not published for that day, the first preceding business day for which the S&P GSCI™ ER Index was published.

415A06. DISPUTES

All disputes between interested parties may be settled by arbitration as provided in the Rules.

415A07. PAYMENT OF FEE

The Daily Fee for a cleared S&P GSCI™ ER Swaps contract must be paid on a daily basis in full to the Clearing House by each long and each short Clearing Member. On every business day, the holder of each long and short position in S&P GSCI™ ER Swaps will be charged one day's worth of an annual fee of 5 basis points. For every calendar day, each long and short position holder will be charged an embedded fee calculated using the following formula:

$$[\text{Number of Contracts}] \times \$100 \times [\text{S\&P GSCI}^{\text{TM}} \text{ ER Swaps Settlement Price}] \times [.0005/365] \times \text{Days}$$

where "Days" is calculated as the number of calendar days from the current S&P GSCI™ ER Swaps clearing date to the next S&P GSCI™ ER Swaps clearing date.
