

## Special Executive Report

S-4765

September 26, 2008

### **IMPLEMENTATION OF DYNAMIC STRIKE PRICE LISTING CAPABILITY FOR GRAIN AND OILSEED OPTIONS SCHEDULED FOR SEPTEMBER 29**

Dynamic Strike Price listing capability in Corn, Wheat, Soybean, Soybean Oil, Soybean Meal, Oats, and Rough Rice options is scheduled for implementation on **September 29, 2008**. Dynamic Strike Price listing provides customers the ability to trade a particular strike price not previously listed. The previously unavailable strike is dynamically listed when it is traded on the floor. The dynamically listed strike must be in a legal strike integral and will be listed initially (the first day) in the open auction platform before being available the next business day on CME Globex®.
