

## Special Executive Report

**S-4839**

**April 6, 2009**

### **CME Group to List Additional Yen Denominated Nikkei 225 Index Futures Contract**

Effective Monday, April 6, 2009, CME Group will expand the listings of Yen denominated Nikkei 225 Index futures by adding seven (7) more quarterly contract months, resulting in the listing of twelve (12) quarterly and three (3) serial contract months at a time. This change will make the contract listings at CME Group consistent with the expanded contract listings recently announced at the Singapore Exchange (SGX), thereby preserving customers' ability to capitalize on the Mutual Offset System (MOS) agreement between CME Group and SGX.
