EXPANSION OF SELECTED GRAIN AND OILSEED FUTURES CYCLE GUIDES

As reported in Special Executive Report S-4878, the listing cycles for grain and oilseed futures contracts were expanded beginning on June 8. The exchange expanded the Wheat, Corn, Soybean, Soybean Oil, and Soybean Meal listing cycle guides by filling in gaps in the cycle and adding one additional new crop expiration and its preceding July expiration for Corn and Soybeans and its preceding October and July expirations for Soybean Oil and Soybean Meal.

Attached is the expanded cycle guides implemented on June 8, 2009.

The column headings represent the first day of the month. The cells show the contract months authorized for trading as of the first day of the month. The **bold and underlined** contract months indicate futures contracts that have been added to the list of contracts authorized for trading in the prior month. New contracts are authorized for trading the day after a spot futures contract has expired.
