

 **CME Group** | Advisory Notice

TO: Clearing Member Firms
Back Office Managers
Service Providers

FROM: CME Clearing

ADVISORY #: 12-420

SUBJECT: **FEC+ Enhancement - Full Anonymity for ClearPort and ITP Trades**

DATE: September 28, 2012

Please be advised that effective **Monday, October 15th**, Production FEC+ will be enhanced to provide full anonymity for all ClearPort and ITP trades, including CDS and OTCFX trades.

Currently in FEC+, the Opposite Firm field will display as blank for ClearPort and ITP trades unless the CMF is on both sides of the trade. With the full anonymity enhancement, the Opposite Firm field will always display as blank.

This enhancement only applies to FEC+. Manually-entered transactions within FEC Classic, such as EFP/R/S, Blocks and Transfers will continue to display the opposite firm in all cases.

Testing in the New Release environment for this change will be available beginning **Thursday, October 4th**.

Please contact the CME Client Services Team with any questions.

For questions or further information please contact CME Clearing Services (CCS) at 312-207-2525 or ccs@cmegroup.com.
