

CME Feeder Cattle Futures Final Settlement Procedure

Feeder Cattle (GF) futures are cash settled. Please note that the settlement price determined on the last day of trading is only a temporary settlement price, and the contract will be cash settled based upon the CME Feeder Cattle Index™ for the seven calendar days ending on the day on which trading terminates. The relevant index is released one business day subsequently. For example, the index for the seven calendar days ending on Thursday, April 25, 2013 was released on Friday, April 26, 2013.

Temporary Settlement Calculation for Expiring Contract

CME Group staff determines the settlement for the expiring Feeder Cattle (GF) future contract by incorporating both Floor-based and Globex-based trading activity between 11:58:30 and 12:00:00 Central Time (CT) – the last minute and a half of the contract's life.

Tier 1: The expiring contract settles to its volume-weighted average price (VWAP) of all trades that occur between 11:58:30 and 12:00:00 Central Time (CT) on the day of expiration, rounded to the nearest tradable tick. If the VWAP is equidistant between two ticks, then it's rounded to the nearest tradable tick that is closer to the prior-day's settlement price.

Tier 2: In the absence of any trade activity in the expiring contract between 11:58:30 and 12:00:00 Central Time (CT), the bid that is higher than the last trade or prior day's settlement price, or the offer that is lower than the last trade or prior day's settlement price in either trading venue from 11:58:30 and 12:00:00 Central Time (CT) will determine the final settlement price for that contract month.

Tier 3: If there is no market activity, then the contract settles to the prior-day settlement price.
