

# Harmonization of Closing Range Time Periods

## Dow Jones Index Futures

### Effective Monday, June 1, 2009

#### What Is Changing?

To further harmonize legacy CBOT and CME equity index products, on Monday, June 1, we will change the closing range time periods for the Dow Jones Index futures **from 60 seconds to 30 seconds**, consistent with the rest of our equity index futures offerings.

#### Which Contracts Are Affected?

This change affects all Dow Jones Index **futures** contracts – electronic and open outcry -- as listed in the following table for regular trading days / days with early closings due to holidays. Please note that closing ranges for options on futures will not be affected by this harmonization, nor will closing ranges for last trading dates, which will remain at 60 seconds.

CONTRACTS	CLOSING RANGE TIME PERIODS			
	CURRENT <i>Prior to June 1<sup>st</sup></i>		NEW <i>Effective June 1<sup>st</sup></i>	
	Regular	LTD	Regular	LTD
