

CME DataMine Customer Documentation

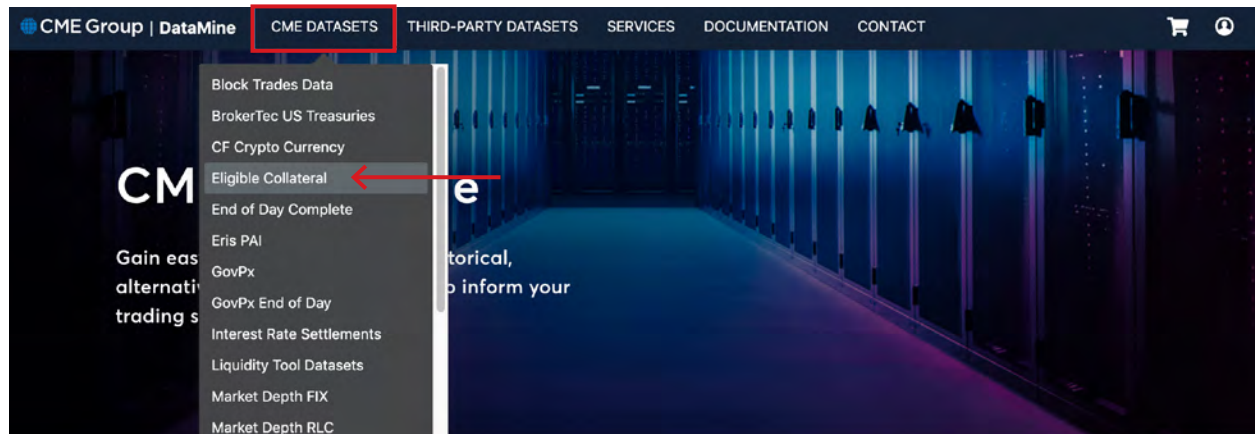

CME Clearing Acceptable Collateral Lists (Stock, ETF, and Corporate Bonds)

CME DataMine Landing Page

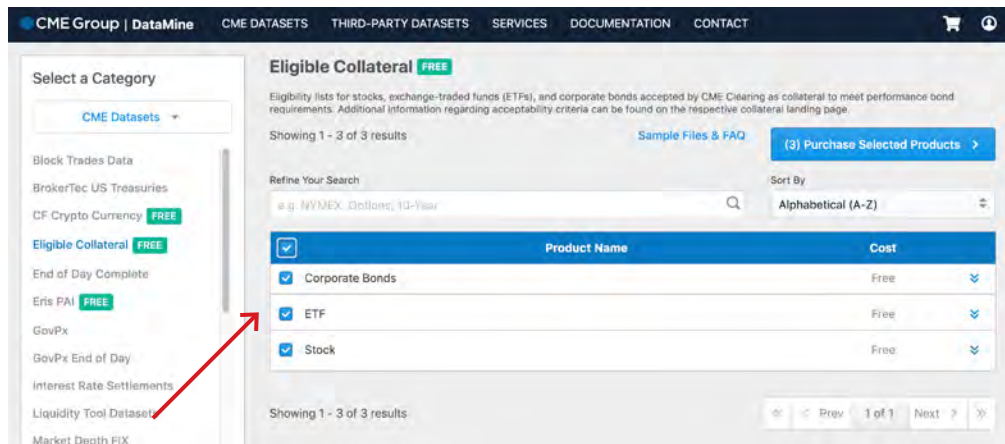

- 1) For customers to complete an order, a valid CME Group [Login](#) or [Login-Lite](#) is required. Customers will be prompted for credentials when adding a data product to their cart. Visit the CME DataMine landing page [here](#).

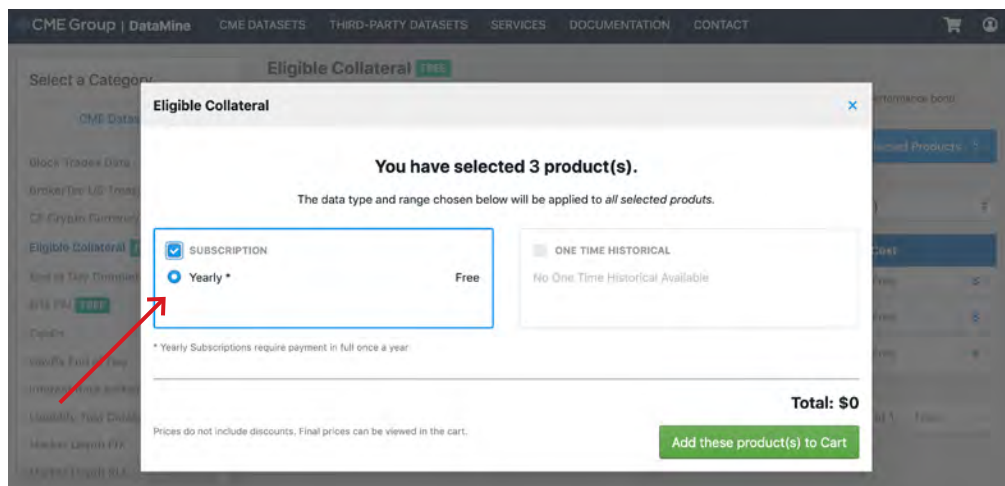

- 2) Choose "Eligible Collateral" from the CME Datasets dropdown menu.

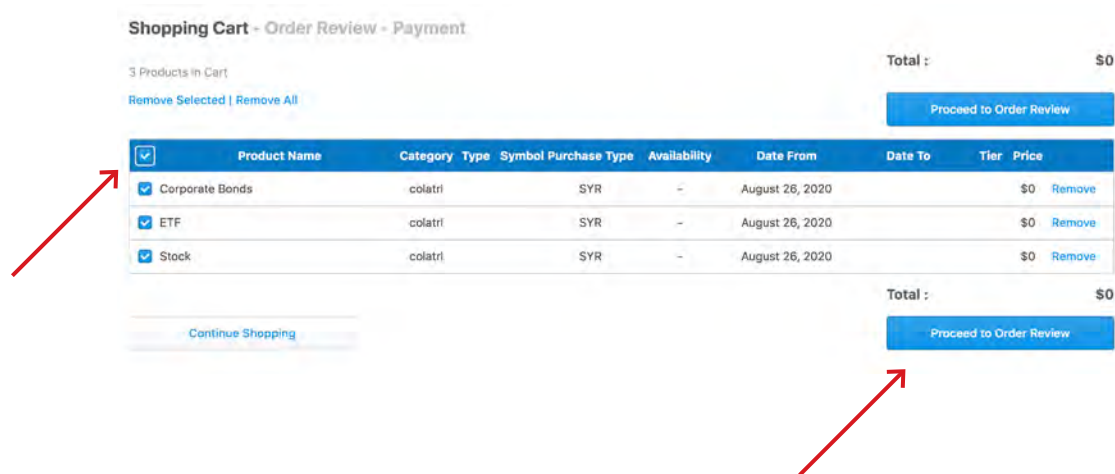

3) Select the desired dataset, then click purchase. There are no fees associated with the eligible collateral lists.

4) Select "Yearly Subscription", then add to cart. There is no historical data option for the eligible collateral lists.

5) Proceed to checkout. This is the final stage of the DataMine ordering process prior to the licensing and entitlement stages. After checkout, the customer will receive a confirmation email.

6) Questionnaire - Each customer will be prompted if they intend on:

- Data distribution?

Usage Details 1 Company Info 2 Review 3

Data Distribution

Will you be distributing the data to anyone outside of your own firm?

Yes
 No

Your license will cover use of the data by anyone in your firm. If your intention is to provide this data to your customers it qualifies as external redistribution.

Order #DATM-A573750

Fee	Amount
Collateral Stock Annual Subscription	USD 0.00 /year
Collateral Corporate Annual Subscription	USD 0.00 /year
Collateral ETF Annual Subscription	USD 0.00 /year

View Details

- Derived work?

Usage Details 1 Company Info 2 Review 3

The Creation of Derived Products

Will you be using the data in the creation of one or more Derived Products?

Yes
 No

A "derived product" is unique data created by making material calculations and / or changes to the licensed data, so that the licensed data cannot be substituted by, reverse engineered or otherwise identified from the unique data.

- 7) Identify the Licensee entity and add Personal/Business contact information.
- 8) Determine the agreement process:
 - Click-Through (preferred for Collateral users - automated licensing and documentation)
 - Manual licensing via DocuSign.

Customer ordering process is now complete. Please note:

- The licensing process includes an entitlement check by EASE that prevents bad actors in the system. Be aware that the entitlement process may take a few days.
- After EASE clears the license, a final order completion email will be sent to the customer with additional documentation.
- If there are issues with the ordering process, contact CMEDataSales@cmegroup.com
- If there are issues with Data Access after a completed order, contact gcc@cmegroup.com
- The licensing completion email provides all the documentation necessary. There are 4 different methods to retrieve your data using DataMine (File Brower, API, SFTP & S3 Transfer). Any and all methods are available. DataMine has documentation for each transfer method:

To access the dataset once the order is completed, see the File Browser:
