STATE STREET _____
GLOBAL ADVISORS®

Beginning on January 1, 2021, as permitted by regulations adopted by the U.S. Securities and Exchange Commission, paper copies of a Fund's annual and semi- annual shareholder reports will no longer be sent by mail, unless you specifically request paper copies of the reports from the Fund (or from your financial intermediary, such as a broker-dealer or bank). Instead, the reports will be made available on a Fund's website (www.ssga.com/cash), and you will be notified by mail each time a report is posted, and provided with a website link to access the report.

Beginning on January 1, 2019, you may elect to receive all future reports in paper free of charge. If you invest through a financial intermediary, you can contact your financial intermediary to request that you continue to receive paper copies of your shareholder reports. Your election to receive reports in paper will apply to all funds held in your account, if you invest through your financial intermediary or all funds held with the fund complex if you invest directly with a Fund.

1. Organization

State Street Institutional Investment Trust (the “Trust”), a Massachusetts business trust registered under the Investment Company Act of 1940, as amended (“1940 Act”), is an open-end management investment company.

As of December 31, 2018, the Trust consists of twenty-eight (28) series (and corresponding classes, each of which have the same rights and privileges, including voting rights), each of which represents a separate series of beneficial interest in the Trust. The Declaration of Trust permits the Board of Trustees of the Trust (the “Board”) to authorize the issuance of an unlimited number of shares of beneficial interest with no par value. The financial statements herein relate only to the following series (the “Fund”):

Fund	Classes	Commencement of Operations	Diversification Classification
State Street Institutional Liquid Reserves Fund	Premier Class Institutional Class Investment Class Administration Class Investor Class Service Class Trust Class	August 12, 2004 July 6, 2018 October 15, 2007 August 29, 2016 July 13, 2017 Not commenced August 29, 2016	Diversified

The Fund is part of a master-feeder structure and invests substantially all of its assets in the State Street Money Market Portfolio (the “Portfolio”), a separate series of State Street Master Funds. The value of the Fund’s investment in the Portfolio reflects the Fund’s proportionate interest in net assets of the Portfolio (100.00% at December 31, 2018). The performance of the Fund is directly affected by the performance of the Portfolio. The financial statements of the Portfolio, including its Schedule of Investments, are attached to this report and should be read in conjunction with the Fund’s financial statements.

The Fund operates as a floating net asset value (“NAV”) money market fund. As a floating NAV money market fund, the Fund (1) will utilize current market-based prices (except as otherwise generally permitted to value individual portfolio securities with remaining maturities of 60 days or less at amortized cost in accordance with Securities and Exchange Commission (“SEC”) guidance) to value its portfolio securities and transact at a floating NAV calculated to four decimal places; and (2) has adopted policies and procedures to impose liquidity fees on redemptions and/or temporary redemption gates in the event that the Fund’s weekly liquid assets fall below a designated threshold.

The NAV of the Fund is calculated multiple times each day the Fund accepts purchase orders and redemption requests. Effective October 12, 2016, the Board has permitted the Fund to impose a liquidity fee of no more than 2% on the value redeemed and/or temporarily suspend redemptions for up to 10 business days in a 90 day period, in the event that the Fund’s liquid assets fall below certain thresholds. The Fund will pass through to its investors any liquidity fee or suspension of redemptions imposed by the Portfolio on the same terms and conditions as imposed by the Portfolio on the Fund.

Under the Trust’s organizational documents, its officers and trustees are indemnified against certain liabilities arising out of the performance of their duties to the Trust. Additionally, in the normal course of business, the Trust enters into contracts with service providers that contain general indemnification clauses. The Trust’s maximum exposure under these arrangements is unknown as this would involve future claims that may be made against the Trust that have not yet occurred.

2. Summary of Significant Accounting Policies

The following is a summary of significant accounting policies followed by the Trust in the preparation of its financial statements:

The preparation of financial statements in accordance with U.S. generally accepted accounting principles (“U.S. GAAP”) requires management to make estimates and assumptions that affect the reported amounts and disclosures in the financial statements. Actual results could differ from those estimates. The Fund is an investment company under U.S. GAAP and follows the accounting and reporting guidance applicable to investment companies.

Security Valuation

The Fund records its investments in the Portfolio at fair value (net asset value) each business day. The valuation policy of the Portfolio is discussed in Note 2 of the Portfolio's Notes to Financial Statements, which are attached to this report.

The Portfolio's investments are valued at fair value each day that the New York Stock Exchange ("NYSE") is open and, for financial reporting purposes, as of the report date should the reporting period end on a day that the NYSE is not open. Fair value is generally defined as the price a fund would receive to sell an asset or pay to transfer a liability in an orderly transaction between market participants at the measurement date. By its nature, a fair value price is a good faith estimate of the valuation in a current sale and may not reflect an actual market price. The investments of the Portfolio are valued pursuant to the policy and procedures developed by the Oversight Committee (the "Committee") and approved by the Board. The Committee provides oversight of the valuation of investments for the Portfolio. The Board has responsibility for overseeing the determination of the fair value of investments.

The summary of the inputs used for the Portfolio, as of December 31, 2018, in valuing the Portfolio's securities carried at fair value are discussed in Note 2 of the Portfolio's Notes to Financial Statements.

Investment Transactions and Income Recognition

Investment transactions are accounted for on the trade date for financial reporting purposes. Realized gains and losses from security transactions consist of the Fund's pro-rata share of its Portfolio's realized gains and losses. Net investment income consists of the Fund's pro-rata share of the net investment income of its Portfolio less expenses of the Fund.

Expenses

Certain expenses, which are directly identifiable to a specific Fund, are applied to that Fund within the Trust. Other expenses which cannot be attributed to a specific Fund are allocated in such a manner as deemed equitable, taking into consideration the nature and type of expense and the relative net assets of the Funds within the Trust. The Fund is allocated a pro-rata share of the expense of its Portfolio. Class specific expenses are borne by each class.

Distributions

Distributions from net investment income, if any, are declared daily and are payable as of the last business day of each month. Net realized capital gains, if any, are distributed annually, unless additional distributions are required for compliance with applicable tax regulations. The amount and character of income and capital gains to be distributed are determined in accordance with applicable tax regulations which may differ from net investment income and realized gains recognized for U.S. GAAP purposes.

3. Fees and Transactions with Affiliates

Advisory Fee

The Fund pays no advisory fee directly to SSGA Funds Management, Inc. (the "Adviser" or "SSGA FM"), for so long as assets of the Fund are invested in the Portfolio. The Portfolio retained SSGA FM, a subsidiary of State Street Corporation and an affiliate of State Street Bank and Trust Company ("State Street"), as its investment adviser. The Portfolio has entered into an investment advisory agreement with the Adviser, under which the Adviser directs the investments of the Portfolio in accordance with its investment objectives, policies, and limitations. In compensation for the Adviser's services as investment adviser, the Portfolio pays the Adviser a management fee at an annual rate of 0.05% of its average daily net assets.

The Adviser is contractually obligated until April 30, 2019, to waive up to the full amount of the advisory fee payable by the Fund and/or to reimburse the Fund for expenses to the extent that total annual fund operating expenses (exclusive of non-recurring account fees, extraordinary expenses, acquired fund fees and any class – specific expenses such as distribution, shareholder servicing, administration and sub-transfer agency fees) exceed 0.07% of average daily net assets on an annual basis. This waiver and/or reimbursement may not be terminated prior to April 30, 2019 except with approval of the Board. For the period ended December 31, 2018, the Adviser waived fees in the amount of \$205,214.

Administrator, Sub-Administrator and Custodian Fees

SSGA FM serves as administrator and State Street serves as custodian and sub-administrator. For its administrative services, the Fund pays a fee at an annual rate of 0.05% of its average daily net assets to SSGA FM. The fees are accrued daily and paid monthly. The Fund pays State Street an annual fee for custody services for the Fund. SSGA FM pays an annual fee to State Street for sub-administration services provided for the Fund.

Distribution Fees

State Street Global Advisors Funds Distributors, LLC (“SSGA FD” or the “Distributor”), an affiliate of the Adviser, serves as the Distributor of the Fund.

The Fund has adopted a distribution plan pursuant to Rule 12b-1 under the 1940 Act, under which the Fund may compensate the Distributor (or others) for services in connection with the distribution of the Fund’s shares and for services provided to Fund shareholders (the “Plan”). The Plan calls for payments at an annual rate (based on average daily net assets) of 0.05% and 0.10%, of the Fund’s net assets attributable to its Administration Class shares and Investment Class shares, respectively. In addition to payments under the Plan, the Fund may reimburse the Distributor or its affiliates for payments it makes to financial intermediaries that provide certain administrative, recordkeeping, and account maintenance services. The amount of the reimbursement and the manner in which it is calculated are reviewed by the Trustees periodically.

During the period ended December 31, 2018, the Fund’s Administration Class shares and Investment Class shares paid \$484,000 and \$1,052, respectively, to SSGA FD under the Plan.

Under the Fund’s Shareholder Servicing Plan (and other shareholder servicing arrangements), the Fund compensates financial intermediaries for providing certain services to shareholders and for maintaining shareholder accounts. The Fund’s Institutional Class shares, Investment Class shares, Administration Class shares, Investor Class shares and Trust Class shares made payments for these services at an annual rate up to 0.03%, 0.25%, 0.20%, 0.08% and 0.058%, respectively, of the eligible average daily net assets of Investment Class shares, Administration Class shares, Investor Class shares and Trust Class shares, respectively. During the period ended December 31, 2018, the Fund’s Institutional Class shares, Investment Class shares, Administration Class shares, Investor Class shares and Trust Class shares paid SSGA FD \$8, \$2,631, \$1,935,998, \$53,427 and \$389,600, respectively, for these services which SSGA FD subsequently paid in part to financial intermediaries.

4. Trustees’ Fees

The fees and expenses of the Trust’s trustees, who are not “interested persons” of the Trust, as defined in the 1940 Act (“Independent Trustees”), are paid directly by the Fund. The Independent Trustees are reimbursed for travel and other out-of-pocket expenses in connection with meeting attendance and industry seminars.

5. Income Tax Information

The Fund has qualified and intends to continue to qualify as a regulated investment company under Subchapter M of the Internal Revenue Code of 1986, as amended. The Fund will not be subject to federal income taxes to the extent it distributes its taxable income, including any net realized capital gains, for each fiscal year. Therefore, no provision for federal income tax is required.

The Fund files federal and various state and local tax returns as required. No income tax returns are currently under examination. Generally, the federal returns are subject to examination by the Internal Revenue Service for a period of three years from date of filing, while the state returns may remain open for an additional year depending upon jurisdiction. SSGA FM has analyzed the Fund’s tax positions taken on tax returns for all open years and does not believe there are any uncertain tax positions that would require recognition of a tax liability.

Distributions to shareholders are recorded on ex-dividend date. Income dividends and gain distributions are determined in accordance with income tax rules and regulations, which may differ from generally accepted accounting principles.

Certain capital accounts in the financial statements have been adjusted for permanent book-tax differences. These adjustments have no impact on net asset values or results of operations. Temporary book-tax differences will reverse in the future.

State Street Institutional Liquid Reserves Fund	\$11,196,517,010	\$—	\$134,246	\$(134,246)

6. Risks

Concentration Risk

As a result of the Fund’s ability to invest a large percentage of its assets in obligations of issuers within the same country, state, region, currency or economic sector, an adverse economic, business or political development may affect the value of the Fund’s investments more than if the Fund was more broadly diversified.

Market, Credit and Counterparty Risk

In the normal course of business, the Fund trades securities and enters into financial transactions where risk of potential loss exists due to changes in global economic conditions and fluctuations of the market (market risk). Additionally, the Fund may also be exposed to counterparty risk in the event that an issuer or guarantor fails to perform or that an institution or entity with which the Fund has unsettled or open transactions defaults. The value of securities held by the Fund may decline in response to certain events, including those directly involving the companies whose securities are owned by the Fund; conditions affecting the general economy; overall market changes; local, regional or global political, social or economic instability; and currency and interest rate and price fluctuations (credit risk).

Financial assets, which potentially expose the Fund to market, credit and counterparty risks, consist principally of investments and cash due from counterparties. The extent of the Fund’s exposure to market, credit and counterparty risks in respect to these financial assets approximates their value as recorded in the Fund’s Statement of Assets and Liabilities, less any collateral held by the Fund.

7. New Accounting Pronouncements

In August 2018, the U.S. Securities and Exchange Commission (the “SEC”) released its Final Rule on Disclosure Update and Simplification (the “Final Rule”) which is intended to simplify an issuer’s disclosure compliance efforts by removing redundant or outdated disclosure requirements without significantly altering the mix of information provided to investors. The

Fund has adopted the Final Rule for the current period with the most notable impacts being that the Fund is no longer required to present components of distributable earnings on the Statement of Assets and Liabilities or the sources of distributions to shareholders and the amount of undistributed net investment income on the Statements of Changes in Net Assets.

For the period ended December 31, 2017, distributions to shareholders and undistributed (distributions in excess of) net investment income were as follows:

	<u>Net Investment Income</u>	<u>Net Realized Capital Gains</u>	<u>Total Distributions</u>
State Street Institutional Liquid Reserves Fund

Trust Class	9,868,689	20,291	9,888,980
Undistributed Net Investment Income (Loss)			\$ 97,464

8. Subsequent Events

Management has evaluated the impact of all subsequent events on the Fund through the date the financial statements were issued and has determined that there were no subsequent events requiring adjustment or disclosure in the financial statements.

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM**

Report of Independent Registered Public Accounting Firm

To the Shareholders and the Board of Trustees of State Street Institutional Liquid Reserves Fund

Opinion on the Financial Statements

We have audited the accompanying statement of assets and liabilities of State Street Institutional Liquid Reserves Fund (the “Fund”) (one of the funds constituting State Street Institutional Investment Trust (the “Trust”)), as of December 31, 2018, and the related statement of operations for the year then ended, the statements of changes in net assets for each of the two years in the period then ended, the financial highlights for each of the five years in the period then ended and the related notes (collectively referred to as the “financial statements”). In our opinion, the financial statements present fairly, in all material respects, the financial position of the Fund (one of the funds constituting State Street Institutional Investment Trust) at December 31, 2018, the results of its operations for the year then ended, the changes in its net assets for each of the two years in the period then ended and its financial highlights for each of the five years in the period then ended, in conformity with U.S. generally accepted accounting principles.

Basis for Opinion

These financial statements are the responsibility of the Trust’s management. Our responsibility is to express an opinion on the Fund’s financial statements based on our audits. We are a public accounting firm registered with the Public Company Accounting Oversight Board (United States) (“PCAOB”) and are required to be independent with respect to the Trust in accordance with the U.S. federal securities laws and the applicable rules and regulations of the Securities and Exchange Commission and the PCAOB.

We conducted our audits in accordance with the standards of the PCAOB. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement, whether due to error or fraud. The Trust is not required to have, nor were we engaged to perform, an audit of the Trust’s internal control over financial reporting. As part of our audits we are required to obtain an understanding of internal control over financial reporting, but not for the purpose of expressing an opinion on the effectiveness of the Trust’s internal control over financial reporting. Accordingly, we express no such opinion.

Our audits included performing procedures to assess the risks of material misstatement of the financial statements, whether due to error or fraud, and performing procedures that respond to those risks. Such procedures included examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements. Our audits also included evaluating the accounting principles used and significant estimates made by management, as well as evaluating the overall presentation of the financial statements. We believe that our audits provide a reasonable basis for our opinion.

Expense Example

As a shareholder of the Fund, you incur two types of costs: (1) transaction costs, including sales charges (loads), if applicable, on purchase payments, reinvested dividends, or other distributions and (2) ongoing costs, including advisory fees and to the extent applicable, distribution(12b-1) and/or service fees; and other Fund expenses. This example is intended to help you understand your ongoing costs (in dollars) of investing in the Fund and to compare these costs with the ongoing costs of investing in other mutual funds. It is based on an investment of \$1,000 made at the beginning of the period shown and held for the entire period from July 1, 2018 to December 31, 2018.

The table below illustrates your Fund’s cost in two ways:

Based on actual fund return —This section helps you to estimate the actual expenses that you paid over the period. The “Ending Account Value” shown is derived from the Fund’s actual return, and the third column shows the dollar amount that would have been paid by an investor who started with \$1,000 in the Fund. You may use the information here, together with the amount you invested, to estimate the expenses that you paid over the period. To do so, simply divide your account value by \$1,000 (for example, an \$8,600 account value divided by \$1,000 = 8.6), then multiply the result by the number given for the Fund under the heading “Expenses Paid During Period”.

Based on hypothetical 5% return —This section is intended to help you compare your Fund’s costs with those of other mutual funds. It assumes that the Fund had a yearly return of 5% before expenses, but that the expense ratio is unchanged. In this case, because the return used is not the Fund’s actual return, the results do not apply to your investment. The example is useful in making comparisons because the SEC requires all mutual funds to calculate expenses based on a 5% return. You can assess your Fund’s costs by comparing this hypothetical example with the hypothetical examples that appear in shareholder reports of other funds.

Please note that the expenses shown in the table are meant to highlight your ongoing costs only and do not reflect any transaction costs, such as sales load charges (loads). Therefore, the hypothetical 5% return section of the table is useful in comparing ongoing costs only, and will not help you determine the relative total costs of owning different funds. In addition, if these transaction costs were included, your costs would have been higher.

	Annualized Expense Ratio	Actual		Hypothetical (assuming a 5% return before expenses)	
		Ending Account Value	Expenses Paid During Period	Ending Account Value	Expenses Paid During Period(a)
State Street Institutional Liquid Reserves Fund					
Administration Class	0.37%	\$1,009.80	\$1.87(a)	\$1,023.30	\$1.89
Institutional Class	0.15	1,010.80	0.74(b)	1,024.40	0.77
Investment Class	0.47	1,009.40	2.38(a)	1,022.80	2.40
Investor Class	0.20	1,010.70	1.01(a)	1,024.20	1.02
Premier Class	0.12	1,011.10	0.61(a)	1,024.60	0.61
Trust Class	0.18	1,010.80	0.91(a)	1,024.30	0.92

(a) Expenses are equal to the Fund’s annualized net expense ratio, which includes the Fund’s proportionate share of the expenses of the Portfolio, multiplied by the average account value of the period, multiplied by 184, then divided by 365.
(b) Actual period is from commencement of operations on July 6, 2018.

STATE STREET MASTER FUNDS
STATE STREET MONEY MARKET PORTFOLIO
NOTES TO FINANCIAL STATEMENTS
December 31, 2018

1. Organization

State Street Master Funds (the “Trust”), a Massachusetts business trust registered under the Investment Company Act of 1940, as amended (“1940 Act”), is an open-end management investment company.

As of December 31, 2018, the Trust consists of six (6) series each of which represents a separate series of beneficial interest in the Trust. The State Street Money Market Portfolio (the “Portfolio”) is authorized to issue an unlimited number of shares of beneficial interests with no par value. The financial statements herein relate only to the Portfolio.

The Portfolio operates as a floating net asset value (“NAV”) money market fund. As a floating NAV money market fund, the Portfolio (1) will utilize current market-based prices (except as otherwise generally permitted to value individual portfolio securities with remaining maturities of 60 days or less at amortized cost in accordance with Securities and Exchange Commission (“SEC”) guidance) to value its portfolio securities and transact at a floating NAV calculated to four decimal places; and (2) has adopted policies and procedures to impose liquidity fees on redemptions and/or temporary redemption gates in the event that the Portfolio’s weekly liquid assets fall below a designated threshold.

Under the Trust’s organizational documents, its officers and trustees are indemnified against certain liabilities arising out of the performance of their duties to the Trust. Additionally, in the normal course of business, the Trust enters into contracts with service providers that contain general indemnification clauses. The Trust’s maximum exposure under these arrangements is unknown as this would involve future claims that may be made against the Trust that have not yet occurred.

2. Summary of Significant Accounting Policies

The following is a summary of significant accounting policies followed by the Trust in the preparation of its financial statements:

The preparation of financial statements in accordance with U.S. generally accepted accounting principles (“U.S. GAAP”) requires management to make estimates and assumptions that affect the reported amounts and disclosures in the financial statements. Actual results could differ from those estimates. The Portfolio is an investment company under U.S. GAAP and follows the accounting and reporting guidance applicable to investment companies.

Security Valuation

The Portfolio’s investments are valued at fair value each day that the New York Stock Exchange (“NYSE”) is open and, for financial reporting purposes, as of the report date should the reporting period end on a day that the NYSE is not open. Fair value is generally defined as the price a fund would receive to sell an asset or pay to transfer a liability in an orderly transaction between market participants at the measurement date. By its nature, a fair value price is a good faith estimate of the valuation in a current sale and may not reflect an actual market price. The investments of the Portfolio are valued pursuant to the policy and procedures developed by the Oversight Committee (the “Committee”) and approved by the Board. The Committee provides oversight of the valuation of investments for the Portfolio. The Board has responsibility for overseeing the determination of the fair value of investments.

Valuation techniques used to value the Portfolio’s investments by major category are as follows:

- Government and municipal fixed income securities are generally valued using quotations from independent pricing services or brokers.
- Debt obligations (including short term investments) are valued using quotations from independent pricing services or brokers or are generally valued at the last reported evaluated prices.
- Repurchase agreements are valued at the repurchase price as of valuation date.

In the event prices or quotations are not readily available or that the application of these valuation methods results in a price for an investment that is deemed to be not representative of the fair value of such investment, fair value will be determined in good faith by the Committee, in accordance with the valuation policy and procedures approved by the Board.

Various inputs are used in determining the value of the Portfolio’s investments.

STATE STREET MASTER FUNDS
STATE STREET MONEY MARKET PORTFOLIO
NOTES TO FINANCIAL STATEMENTS (continued)
December 31, 2018

The Portfolio values its assets and liabilities at fair value using a fair value hierarchy consisting of three broad levels that prioritize the inputs to valuation techniques giving the highest priority to readily available unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements) when market prices are not readily available or reliable. The categorization of a value determined for an investment within the hierarchy is based upon the pricing transparency of the investment and is not necessarily an indication of the risk associated with investing in it.

The three levels of the fair value hierarchy are as follows:

- Level 1 – Unadjusted quoted prices in active markets for an identical asset or liability;
- Level 2 – Inputs other than quoted prices included within Level 1 that are observable for the asset or liability either directly or indirectly, including quoted prices for similar assets or liabilities in active markets, quoted prices for identical or similar assets or liabilities in markets that are not considered to be active, inputs other than quoted prices that are observable for the asset or liability (such as exchange rates, financing terms, interest rates, yield curves, volatilities, prepayment speeds, loss severities, credit risks and default rates) or other market-corroborated inputs; and
- Level 3 – Unobservable inputs for the asset or liability, including the Committee's assumptions used in determining the fair value of investments.

Investment Transactions and Income Recognition

Investment transactions are accounted for on trade date for financial reporting purposes. Realized gains and losses from the sale or disposition of investments are determined using the identified cost method. Interest income is recorded daily on an accrual basis. All premiums and discounts are amortized/accreted for financial reporting purposes.

All of the net investment income and realized and unrealized gains and losses from the security transactions of the Portfolio are allocated pro rata among the partners in the Portfolio on a daily basis based on each partner's daily ownership percentage.

Expenses

Certain expenses, which are directly identifiable to a specific Portfolio, are applied to that Portfolio within the Trust. Other expenses which cannot be attributed to a specific Portfolio are allocated in such a manner as deemed equitable, taking into consideration the nature and type of expense and the relative net assets of the Portfolio within the Trust.

3. Securities and Other Investments

Repurchase Agreements

The Portfolio may enter into repurchase agreements under the terms of a Master Repurchase Agreement. A repurchase agreement customarily obligates the seller at the time it sells securities to the Portfolio to repurchase the securities at a mutually agreed upon price and time. During the term of a repurchase agreement, the value of the underlying securities held as collateral on behalf of the Portfolio including accrued interest, is required to exceed the value of the repurchase agreement, including accrued interest.

The Portfolio monitors, on a daily basis, the value of the collateral to ensure it is at least equal to the Portfolio's principal amount of the repurchase agreement (including accrued interest). The underlying securities are ordinarily United States Government or Government Agency securities, but may consist of other securities. The use of repurchase agreements involves certain risks including counterparty risks. In the event of a default by the counterparty, realization of the collateral proceeds could be delayed, during which the value of the collateral may decline.

As of December 31, 2018, the Portfolio had invested in repurchase agreements with the gross values of \$1,791,700,000 and associated collateral equal to \$1,883,586,918.

4. Fees and Transactions with Affiliates

Advisory and Administrator Fee

The Trust has entered into an investment advisory agreement with SSGA Funds Management, Inc. (the “Adviser” or “SSGA FM”), a subsidiary of State Street Corporation and an affiliate of State Street Bank and Trust Company (“State Street”), under which the Adviser directs the investments of the Portfolio in accordance with its investment objective, policies, and limitations. In compensation for the Adviser’s services as investment adviser, the Portfolio pays the Adviser a management fee at an annual rate of 0.05% of its average daily net assets. SSGA FM also serves as administrator.

Custodian, Sub-Administrator and Transfer Agent Fees

State Street serves as the custodian, sub-administrator and transfer agent to the Portfolio. For its services as custodian, sub-administrator and transfer agent, the Portfolio pays State Street an annual fee. The fees are accrued daily and paid monthly.

5. Trustees’ Fees

The fees and expenses of the Trust’s trustees, who are not “interested persons” of the Trust, as defined in the 1940 Act (“Independent Trustees”), are paid directly by the Portfolio. The Independent Trustees are reimbursed for travel and other out-of-pocket expenses in connection with meeting attendance and industry seminars.

6. Income Tax Information

The Portfolio is not required to pay federal income taxes on its net investment income and net capital gains because it is treated as a partnership for federal income tax purposes. All interest, gains and losses of the Portfolio are deemed to have been “passed through” to the Portfolio’s partners in proportion to their holdings in the Portfolio, regardless of whether such items have been distributed by the Portfolio. Each partner is responsible for its tax liability based on its distributive share; therefore, no provision has been made for federal income taxes.

The Portfolio files federal and various state and local tax returns as required. No income tax returns are currently under examination. Generally, the federal returns are subject to examination by the Internal Revenue Service for a period of three years from date of filing, while the state returns may remain open for an additional year depending upon jurisdiction. SSGA FM has analyzed the Portfolio’s tax positions taken on tax returns for all open years and does not believe there are any uncertain tax positions that would require recognition of a tax liability.

As of December 31, 2018, gross unrealized appreciation and gross unrealized depreciation of investments based on cost for federal income tax purposes were as follows:

	<u>Tax Cost</u>	<u>Gross Unrealized Appreciation</u>	<u>Gross Unrealized Depreciation</u>	<u>Net Unrealized Appreciation (Depreciation)</u>
State Street Money Market Portfolio	\$11,177,526,925	\$310,526	\$444,772	\$(134,246)

7. Risks

Concentration Risk

As a result of the Portfolio’s ability to invest a large percentage of its assets in obligations of issuers within the same country, state, region, currency or economic sector, an adverse economic, business or political development may affect the value of the Portfolio’s investments more than if the Portfolio was more broadly diversified.

STATE STREET MASTER FUNDS

Market, Credit and Counterparty Risk

In the normal course of business, the Portfolio trades securities and enters into financial transactions where risk of potential loss exists due to changes in global economic conditions and fluctuations of the market (market risk). Additionally, the Portfolio may also be exposed to counterparty risk in the event that an issuer or guarantor fails to perform or that an institution or entity with which the Portfolio has unsettled or open transactions defaults. The value of securities held by the Portfolio may decline in response to certain events, including those directly involving the companies whose securities are owned by the Portfolio; conditions affecting the general economy; overall market changes; local, regional or global political, social or economic instability; and currency and interest rate and price fluctuations (credit risk).

Financial assets, which potentially expose the Portfolio to market, credit and counterparty risks, consist principally of investments and cash due from counterparties. The extent of the Portfolio's exposure to market, credit and counterparty risks in respect to these financial assets approximates their value as recorded in the Portfolio's Statement of Assets and Liabilities, less any collateral held by the Portfolio.

8. Recent Accounting Pronouncements

In March 2017, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) No. 2017-08, Receivables — Nonrefundable Fees and Other Costs (Subtopic 310-20): Premium Amortization on Purchased Callable Debt Securities. The amendments in the ASU shorten the amortization period for certain callable debt securities, held at a premium, to be amortized to the earliest call date. The ASU does not require an accounting change for securities held at a discount; which continues to be amortized to maturity. The ASU is effective for fiscal years and interim periods within those fiscal years beginning after December 15, 2018. Management is currently evaluating the impact, if any, of applying this provision.

In August 2018, the U.S. Securities and Exchange Commission (the "SEC") released its Final Rule on Disclosure Update and Simplification (the "Final Rule") which is intended to simplify an issuer's disclosure compliance efforts by removing redundant or outdated disclosure requirements without significantly altering the mix of information provided to investors. The Portfolio has adopted the Final Rule for the current period.

9. Subsequent Events

Management has evaluated the impact of all subsequent events on the Portfolio through the date the financial statements were issued and has determined that there were no subsequent events requiring adjustment or disclosure in the financial statements.

**STATE STREET MASTER FUNDS
STATE STREET MONEY MARKET PORTFOLIO
REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM**

To the Owners of Beneficial Interest and the Board of Trustees of State Street Money Market Portfolio

Opinion on the Financial Statements

We have audited the accompanying statement of assets and liabilities of State Street Money Market Portfolio (the “Portfolio”) (one of the portfolios constituting State Street Master Funds (the “Trust”)), including the schedule of investments, as of December 31, 2018, and the related statement of operations for the year then ended, the statements of changes in net assets for each of the two years in the period then ended, the financial highlights for each of the five years in the period then ended and the related notes (collectively referred to as the “financial statements”). In our opinion, the financial statements present fairly, in all material respects, the financial position of the Portfolio (one of the portfolios constituting State Street Master Funds) at December 31, 2018, the results of its operations for the year then ended, the changes in its net assets for each of the two years in the period then ended and its financial highlights for each of the five years in the period then ended, in conformity with U.S. generally accepted accounting principles.

Basis for Opinion

These financial statements are the responsibility of the Trust’s management. Our responsibility is to express an opinion on the Portfolio’s financial statements based on our audits. We are a public accounting firm registered with the Public Company Accounting Oversight Board (United States) (“PCAOB”) and are required to be independent with respect to the Trust in accordance with the U.S. federal securities laws and the applicable rules and regulations of the Securities and Exchange Commission and the PCAOB.

We conducted our audits in accordance with the standards of the PCAOB. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement, whether due to error or fraud. The Trust is not required to have, nor were we engaged to perform, an audit of the Trust’s internal control over financial reporting. As part of our audits we are required to obtain an understanding of internal control over financial reporting, but not for the purpose of expressing an opinion on the effectiveness of the Trust’s internal control over financial reporting. Accordingly, we express no such opinion.

Our audits included performing procedures to assess the risks of material misstatement of the financial statements, whether due to error or fraud, and performing procedures that respond to those risks. Such procedures included examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements. Our procedures included confirmation of securities owned as of December 31, 2018, by correspondence with the custodian, brokers and others or by other appropriate auditing procedures where replies from brokers and others were not received. Our audits also included evaluating the accounting principles used and significant estimates made by management, as well as evaluating the overall presentation of the financial statements. We believe that our audits provide a reasonable basis for our opinion.

We have served as the auditor of one or more State Street Global Advisors investment companies since 2000.

Expense Example

As a shareholder of the Portfolio, you incur two types of costs: (1) transaction costs, including sales charges (loads), if applicable, on purchase payments, reinvested dividends, or other distributions and (2) ongoing costs, including advisory fees and to the extent applicable, distribution (12b-1) and/or service fees; and other Portfolio expenses. This example is intended to help you understand your ongoing costs (in dollars) of investing in the Portfolio and to compare these costs with the ongoing costs of investing in other mutual funds. It is based on an investment of \$1,000 made at the beginning of the period shown and held for the entire period from July 1, 2018 to December 31, 2018.

The table below illustrates your Portfolio’s cost in two ways:

Based on actual fund return — This section helps you to estimate the actual expenses that you paid over the period. The “Ending Account Value” shown is derived from the Portfolio’s actual return, and the third column shows the dollar amount that would have been paid by an investor who started with \$1,000 in the Portfolio. You may use the information here, together with the amount you invested, to estimate the expenses that you paid over the period. To do so, simply divide your account value by \$1,000 (for example, an \$8,600 account value divided by \$1,000 = 8.6), then multiply the result by the number given for the Portfolio under the heading “Expenses Paid During Period”.

Based on hypothetical 5% return — This section is intended to help you compare your Portfolio’s costs with those of other mutual funds. It assumes that the Portfolio had a yearly return of 5% before expenses, but that the expense ratio is unchanged. In this case, because the return used is not the Portfolio’s actual return, the results do not apply to your investment. The example is useful in making comparisons because the SEC requires all mutual funds to calculate expenses based on a 5% return. You can assess your Portfolio’s costs by comparing this hypothetical example with the hypothetical examples that appear in shareholder reports of other funds.

Please note that the expenses shown in the table are meant to highlight your ongoing costs only and do not reflect any transaction costs, such as sales load charges (loads). Therefore, the hypothetical 5% return section of the table is useful in comparing ongoing costs only, and will not help you determine the relative total costs of owning different funds. In addition, if these transaction costs were included, your costs would have been higher.

	Annualized Expense Ratio	Actual		Hypothetical (assuming a 5% return before expenses)	
		Ending Account Value	Expenses Paid During Period(a)	Ending Account Value	Expenses Paid During Period(a)
State Street Money Market Portfolio	0.07%	\$1,011.30	\$0.35	\$1,024.90	\$0.36

(a) Expenses are equal to the Portfolio’s annualized net expense ratio multiplied by the average account value of the period, multiplied by 184, then divided by 365.

Proxy Voting Policies and Procedures and Records

The Portfolio has adopted the proxy voting policies of the Adviser. A description of the policies and procedures that the Portfolio has adopted to determine how to vote proxies relating to portfolio securities are contained in the Portfolio’s Statement of Additional Information, which is available (i) without charge, upon request, by calling the Portfolio at 1-877-521-4083 (toll free) or (ii) on the SEC’s website at www.sec.gov. Information regarding how the Portfolio voted proxies, if any, during the most recent 12-month period ended June 30 is available by August 31 of each year without charge (1) by calling 1-877-521-4083 (toll free), or (2) on the website of the SEC at www.sec.gov.

Quarterly Portfolio Schedule

The Portfolio will file its complete schedule of investments with the SEC for the first and third quarters of each fiscal year on Form N-Q. The Portfolio’s Form N-Q is available (i) without charge, upon request, by calling the Portfolio at 1-877-521-4083 (toll free) or (ii) on the SEC’s website at www.sec.gov.
