

Trading Floor Access Reminders for Reopening of Eurodollar Options Pit August 10 Updated August 4, 2020

CME Group will reopen trading in its Eurodollar Options pit on Monday, August 10, 2020. After sharing [Guidelines for Trading Floor Access](#) in July, we also are providing the following reminders for those planning to access the 333 S. LaSalle building next week.

Access Procedures:

- **No one will be allowed access the trading floor without a waiver on file 48 hours prior to entering the building.** You will not be allowed to complete the waiver and then gain access same-day. Waivers can be found [here](#). If you have questions about whether the exchange has your waiver on file, you may contact tradingfloorwaivers@cmegroup.com. Everyone who participated in a walk-through appointment has a waiver on file.
- In addition to waivers, all non-members must have an indemnification agreement on file from their employer (the person or firm to whom they are badged). Those agreements can be found [here](#). Non-members will not be allowed access without the requisite indemnification agreements on file. For questions about indemnification agreements, you may contact tradingfloorwaivers@cmegroup.com.
- A health assessment will be required for building entry each day. To expedite entry, we ask that you visit smart-er.net/cme this week to register your preferred device for your daily self-assessment. The website will generate an entry pass (good for that day only) to be shown to Security staff upon your arrival. Those without an entry pass will be assessed by a member of the Healthcare Center team, and your entry may be delayed depending on the availability of the Healthcare Center staff.
 - Questions asked for the screening will gauge the individual's potential symptoms (fever, etc.) or exposure to a COVID-19-positive individual, and whether the individual or anyone in their household has traveled at all out of the state or country during the previous 14 days. If anyone answers affirmatively to any of those questions, they will not be admitted to the building.
- The coat room will be closed. Jackets will not be required, but name badges must be displayed at all times.
- Anyone entering the building must wear a CME Group-approved face mask and observe social distancing measures.
- Food will not be allowed on the trading floor and will be limited to break room and dining areas.

Trading Pit Protocols:

- Once a trader enters the pit, they must wear a CME Group-approved face shield in addition to their face mask. Once they are located in their designated spot in the pit, traders wearing

a face shield may then remove their face mask. However, they must go back to wearing a face mask if they move from their designated spot.

- When in the pit, traders should not leave their spot unless they are exiting the pit. If a trader needs to move from their spot to get another trader's attention to check a trade, the trader must put their face mask on before moving from their spot, do the check as quickly as possible and return to their spot. Traders may not move from their spot for any reason other than exiting the pit or to quickly check a trade.

Enforcement:

- Members, employees of members, and employees of member firms may not, under any circumstances, create a disturbance in connection with these requirements and conditions outlined in [Guidelines for Trading Floor Access](#).
- Failure to comply with these requirements and conditions will result in escalating the matter to the Chief Regulatory Officer, who is authorized to impose a fine up to \$5,000 per offense.
- In addition to the foregoing, the Chief Regulatory Officer may order that any party be denied access to any or all CME Group markets or be immediately removed from the trading floor or facility owned or controlled by CME Group.
