CME Group Inc. FMIP Firm Trading Attestation

The trades of a CME Group Inc. FMIP firm may receive preferential fee rates – less than charged to non-member customers. Only the entity maintaining FMIP status is entitled to the preferential fees on its FMIP firm trades. The reduced fee benefit does not flow downward to 100% owned subsidiaries or to affiliates of the FMIP firm.

In order for FMIP firms to receive preferential fees on CME, CBOT and NYMEX trades, all trading activity must be conducted in accordance with the Questions & Answers Guide for FMIP and must be in accordance with CME Group Inc.'s Fee Policy Bulletins which can be found on CME Group Inc.'s website at <http://www.cmegroup.com/tools-information/fee-policy-bulletins.html>. In addition, qualified FMIP firms and all FMIP traders must be located in Latin America.

Requirements (Absolutes)

A FMIP firm trading account is evidenced through:

- Approved Fund accounts being managed must be held
- The financial benefit and risk shall be solely of the FMIP firm – only firm capital is at risk of loss.
- Traders may not make any contributions or payments to the FMIP firm or FMIP firm trading account, nor have any capital at risk in connection with their trading of the FMIP firm account.
- All profits and losses of the FMIP firm account are written off to the income of the FMIP firm and are taxed to the FMIP firm in accordance with applicable regulations.
- All trading must be done in FMIP firm trading accounts held in the name of the FMIP.

Further, FMIP trading activity must be conducted by traders that are:

- Bona-fide employees of the FMIP.

All EMBIP traders must be assigned unique trader IDs, those IDs and the associated LACIP trader must be appropriately registered in CME Group Inc.'s Exchange Fee System and all Globex trades (orders) must be identified with the registered ID of the trader executing the trade.

FMIP Firm Trading Attestation

In addition, FMIP firm trading must meet the following requirements:

- Traders cannot be responsible for losses beyond their share of profits earned and maintained in the account which have not yet been distributed to the trader.
- The firm must be allocated both a portion of the profits and losses of the FMIP firm account.
- The profit split on agreements with any trader, including owners acting as traders, may not exceed 80/20 (i.e. 80% to the trader/20% to the firm).
 - For FMIP firm trading conducted by a team of traders, the profit split to the team in total may not exceed 80/20 (i.e. 80% to the trader team/20% to the firm).
 - Further the 80% limit on profit splits to a trader or team of traders includes any individual who has a specific interest in its profitability including those involved in the training/supervision of the account(s) and/or trader(s).
- Non-owner traders cannot leave their share of profits in the firm for greater than 24 months without becoming an equity owner.

- Non-owner trader's share of capital in an account may not exceed the trader's share of net profit/loss in the previous 24 month period.
- If a trader leaves their share of any profits in the account for greater than 24 months, they must become an equity owner.
- The firm is prohibited from:
 - Setting minimum account balances for its traders.
 - Charging margin on positions to traders.
 - Charging fees on draws taken by traders.
 - Requiring or accepting security deposits from its traders.

Best Practices

CME Group Inc. recognizes that certain business practices may be utilized when conducting customer business as well as FMIP firm trading activities. The Best Practices were established to allow firms to utilize certain business practices (most not allowed in the past) which are generally prohibited. In order to do so, the FMIP firm must clearly demonstrate to CME Group Inc. their application of these non-compliant practices is not inconsistent with CME Group Inc.'s goal of providing preferential fees only for FMIP firm trading activity. Such practices will be reviewed individually and in the aggregate in relation to the firm's entire trading activities and operation.

Review of such non-compliant practices will reflect the following key principles of CME Group Inc.'s FMIP firm trading policies. First and foremost, the trading activity eligible for preferential fees must be conducted for the account and sole benefit of the FMIP firm itself. The trading activity of individual customers/traders conducted in the name of the firm is not eligible for discounted FMIP firm fees to prevent the "selling" of FMIP firm rates. Further, an FMIP firm may only profit/benefit from the FMIP firm trading activity through the performance of the trade and not from any other source such as a commission or charge for trade execution.

Non-compliance with the Best Practices below is generally prohibited as it is indicative of the selling of rates and/or profiting from sources other than the performance of the FMIP firm trade.

FMIP Firm Trading Attestation

As such, while the Best Practices are not absolutes as the Requirements are, any non-compliance of the Best Practices will be carefully reviewed with the burden of responsibility on the FMIP participant to clearly support and demonstrate to CME Group Inc.'s satisfaction that the trading is of the FMIP participant itself. Under limited circumstances in reviewing the totality of the FMIP participant's trading operations and the violative practice(s), CME Group Inc. may deem the FMIP participant's trading activities in accordance with CME Group Inc.'s policies for FMIP participant trading activity that is eligible for FMIP fees. **Please check the box next to each practice which you do not comply with regarding your FMIP firm trading:**

- The firm may not charge interest on debit balances to traders nor may it pay interest on credit balances to traders except where an options trading strategy is utilized in which interest on the premium is a key component of the overall profitability of the strategy.
- The firm may not pay interest on holdbacks where holdbacks are permitted.
- The firm may not pay interest on capital contributions.

- The firm may not allocate expenses to trades or traders in excess of actual direct and indirect expenses of the individual FMIP firm trades or traders. Only actual expenses incurred may be allocated – a markup on expenses is not permitted. Further, opportunity costs may not be allocated. FMIPs must maintain and provide adequate supporting calculations and documentation of such allocated expenses and their reasonableness.
- A firm may not charge a fee for capital usage to individual traders of the firm’s accounts.
- A firm may not charge a fee for the cost of capitalizing the firm (and thus the firm’s trading accounts) to individual traders.
- Individual owners and investing LLCs (as permitted) of a FMIP may not have a specific interest in the profitability of a FMIP account or group of accounts other than a FMIP account that the individual owners or owners of the investing LLC trade or provide direct supervision/training to.

I represent that all current and future FMIP firm trading activity of my organization, a FMIP firm, receiving preferential clearing fee rates will conform to the requirements for such trading activity established by CME Group Inc.

I attest that the above information is true and correct. I further acknowledge that confirming incorrect information may subject me to CME Group Inc. disciplinary action and/or penalties.
