User Help Systems

For details about the CME Direct front-end application, please refer to one of the User Help Systems below. See complete details regarding other CME Group [User Help Systems](#).

CME Direct Release Notes

Learn about the most recent [software release features and functionality enhancements](#):

CME Direct Excel Quick Start

CME Direct's Excel integration provides real-time market data and allows you to view orders via an Excel Add-in. Use CME Direct's Excel functionality to look up CME Direct contracts and subscribe to market data directly in the Excel application, drag and drop data from CME Direct into Excel, and save your data in a .xls file. For more information, refer to this [User Help System](#).

New Version of CME Direct Mobile

Use the CME Direct Mobile front-end application from any browser or a mobile device to monitor market data and cancel orders that were previously entered into the market using CME Direct. For more information, refer to this [User Help System](#).

CME Direct Clearing Member View

The CME Direct Clearing Member View application allows clearing member firms to manage users for the accounts the firm clears, while providing clearing member firms real-time monitoring capabilities of order flow in CME Direct. Using the Clearing Member View, firms can add or remove account mappings for individual users, and view the orders placed against those accounts. For more information, refer to this [User Help System](#).
