

CME DataMine Self-Service Platform

CME Group Self-Service provides a suite of tools designed to help customers manage their registration and on-boarding to CME Group applications and services. Through the DataMine Self-Service Center, users can query, price, order, receive, and manage historical data subscriptions.

Accessing Self-Service Platform

To access the CME DataMine self-service platform, please register for a CME Group Login. [Click here](#) to complete this easy process.

Register for a CME Group API ID to access your data purchases via the Datamine API.

API Delivery Set-Up

1. Log in to the CME Customer Center using your [CME Group Login](#) to create an API ID.
2. From the navigation bar, click your CME Group Login name, then click **My Profile**.
3. Select the **API Management** tab.
4. Register for an API ID, and select the **Type** "Basic Auth" for basic authentication.
