

MDP 3.0 - FTP and SFTP Site Information

CME provides an FTP (<https://www.cmegroup.com/ftp>) and SFTP (sftpng.cmegroup.com) site to disseminate MDP 3.0 schemas and market data configuration information. This site contains the Schema and Configuration files for all events, Security Definition flat files for the Production environment, and Market Schedule files for the New Release and Production environments. Schema and market data configuration details for the production environment are only available to customers after the certification process is complete.

Information applies as follows in the table:

- Environment - specific environment (i.e., Certification, New Release, Production).

The AutoCert+ tool will indicate which environment you need to connect to for certification. For additional information on AutoCert+ access, refer to the [AutoCert+ Access Guide](#).

- Service - the Schema, Configuration, Security Definition Flat File, or Market Schedule File service.
- FTP/SFTP Site - address of FTP/SFTP site.
- Directory Location - identifies the directory.
- Client System Update Schedule - client systems should download updates according to the schedule specified.

Environment*	Service	FTP/SFTP Site	Directory Location	Client System Update Schedule
Certification	Schema	https://www.cmegroup.com/ftp or sftpng.cmegroup.com	/SBEMix/Cert/Templates	Sunday prior to market open
Certification	Configuration		/SBEMix/Cert/Configuration	daily
Certification	Market Schedule File		/SBEMix/Cert	Sunday at 9:30 a.m.
Certification AutoCert+	Schema		/SBEMix/CertAutoCertPlus/Templates	Sunday prior to market open
Certification AutoCert+	Configuration		/SBEMix/CertAutoCertPlus/Configuration	daily
New Release	Schema		/SBEMix/NRCert/Templates	Sunday prior to market open
New Release	Configuration		/SBEMix/NRCert/Configuration	daily
New Release	Market Schedule File		/SBEMix/NRCert	Sunday at 9:30 a.m.
New Release AutoCert+	Schema		/SBEMix/NRAutoCertPlus/Templates	Sunday prior to market open
New Release AutoCert+	Configuration		/SBEMix/NRAutoCertPlus/Configuration	daily
Production	Schema		/SBEMix/Production/Templates	Sunday prior to market open
Production	Configuration		/SBEMix/Production/Configuration	daily
Production	Security Definition Flat File Optional - download anytime after 9:30 am Sunday		/SBEMix/Production	8:30 pm Sunday - Thursday
Production	Market Schedule File Optional - download anytime after 9:30 am Sunday		/SBEMix/Production	Sunday at 9:30 a.m.
