

Type Y Record - Standard and Expanded

Length	From	To	Datatype	Format	Description and Comments
2	1	2	AN	X(2)	Record ID - "Y "
10	3	12	AN	X(10)	Combination Product (Commodity) Code
10	13	22	AN	X(10)	Option on Combination Product (Commodity) Code

Notes:

1. A "Y" record specifies an option on combination product family, and identifies the product family which is the underlying combination. Options in this option-on-combination product family are margined using the method specified on the "X" record for the underlying combination product family.
