<b>Entity</b>	<a href="#">Portfolio</a>
<b>Action</b>	Delete
<b>URL</b>	/portfolios/{id}
<b>HTTP Method</b>	DELETE
<b>Parameter Input</b>	Yes
<b>XML Input</b>	No
<b>Multiple Output</b>	No
<b>Synchronous</b>	Yes

## Description

The request allows the Client to send in a request to delete the specified portfolio which was added and margined in CME CORE ([Add Portfolio](#), [Update Portfolio](#) and [Margin Portfolio](#)). The Client must submit a unique CME CORE assigned internal portfolio identifier in the request URL. If no portfolio is found matching the identifier, an error is returned. An error is also returned if the user isn't authorized to delete the portfolio. Otherwise the server deletes the portfolio and all associated data (transactions, margin, etc.).
