

CME Globex

CME Group internal testing in the Production environment can occur during the weekend. Any trades or market data generated during these tests should be disregarded.

As a reminder, clients can connect to CME Globex services beginning at 10:30 am CT Sundays to prepare for weekly start-up. Clients should ensure all services are disconnected by 5:00 pm. CT Fridays to avoid receiving internal test data.

This topic provides comprehensive information for client system development on all features of the CME Globex platform including:

- [iLink Order Entry](#)
- [CME Globex Front-End Audit Trail Requirements](#)
- [Product Specific Information](#)
- [Partner Exchange-specific functionality](#)
- [Global Command Center Product Resources](#)

Use this search bar to search topics within CME Globex.
