

# iLink 2 Tag 9775-UnsolicitedCancelTypes Table of Values

The following table identifies the unsolicited cancel code values, reason and business description.

Unsolicited Cancel Codes	Reason	Business Description
A	Hard disconnect (cancel all)	In the event of any customer hard disconnect, all resting quotes are cancelled. Upon reconnect, the customer will receive a <a href="#">iLink 2 Quote Acknowledgment</a> message confirming cancellation.
B	Cancellation has been triggered by <a href="#">Mass Quote Messaging Thresholds</a>	A customer can receive this value on an unsolicited cancel if their session exceeds their allowable mass quotes per second threshold.
C	Eliminated All (CME Globex platform-initiated; all resting quotes cancelled)	The GCC has the ability to cancel all resting quotes. In this event, the customer receives a Quote Acknowledgment message for each instrument group for which they are permissioned confirming cancellation for each instrument group.  <b>Note</b> - the following required tags will not be returned on the <a href="#">iLink 2 Quote Cancel Acknowledgment</a> : <ul style="list-style-type: none"> <li>• Tag 57-TargetSubID</li> <li>• Tag 143-TargetLocationID</li> <li>• Tag 1028-ManualOrderIndicator</li> </ul>
D	Eliminated Group (CME Globex platform-initiated)	The GCC has the ability to cancel all resting quotes for an instrument group. In this event, the customer receives a Quote Acknowledgment message confirming cancellation for this instrument group.  <b>Note</b> - the following required tags will not be returned on the <a href="#">iLink 2 Quote Cancel Acknowledgment</a> : <ul style="list-style-type: none"> <li>• Tag 57-TargetSubID</li> <li>• Tag 143-TargetLocationID</li> <li>• Tag 1028-ManualOrderIndicator</li> </ul>
E	Expired – transition out of Continuous Trading state	If the market transitions out of the continuous trading state as indicated in a market data <a href="#">Security Status (tag 35-MsgType=f)</a> message, the CME Globex platform cancels all resting quotes when the instrument group enters the "closed" state. For all instrument groups, the customer subsequently receives a Quote Acknowledgment message confirming cancellation for each instrument group that changed state and for which they are permissioned.  <b>Note</b> - the following required tags will not be returned on the <a href="#">iLink 2 Quote Cancel Acknowledgment</a> : <ul style="list-style-type: none"> <li>• Tag 57-TargetSubID</li> <li>• Tag 143-TargetLocationID</li> <li>• Tag 1028-ManualOrderIndicator</li> </ul>
F	Cancellation has been triggered by Mass Quote Protection	The customer receives a Quote Acknowledgment message with tag 9775-UnsolicitedCancelType=F when the cancellation has been triggered by <a href="#">Mass Quote Protections</a> .
H	Quotes Cancelled due to Self Match prevention	See CME Globex <a href="#">Self Match Prevention</a> .
I	Quotes cancelled due to resting quantity less than minimum lot size	Resting quantity is less than the minimum lot size.
