

# Welcome to a new era of performance

## CME FSPI Sports Index futures

Powered by new institutional-grade indexes from CME Group and FutureSports, Sports Index futures will give everyday traders and affiliated businesses transparent, capital-efficient exposure to the performance of professional sports franchises, starting with 32 NHL teams.

### Why trade Sports Index futures?

#### TRADE SPORTS PERFORMANCE

Capture shifting performance by taking long or short positions across all 32 NHL teams, pivoting in real time as the game or season unfolds.

#### TRACK SPORTS LIKE A STOCK INDEX

Now available on [DataMine](#): Data on CME FSPI NHL Indexes, which transform officially reported, live professional statistics into rules-based financial indexes that move with the season.

#### CAPITAL-EFFICIENT EXPOSURE

Access larger market positions with less upfront capital by trading futures with margin.

#### 24/7 MARKET ACCESS

React to draft picks, trades, lineup changes and news cycles instantly. Express your view on your schedule – day or night – without waiting for the end of the game or season.

#### DEEP BENCH FOR SAVVY TRADERS

Strengthen your investment portfolio with Sports Index futures – a pure-play asset class that moves independently of inflation and interest rates.

#### LEVEL PLAYING FIELD

Trade with confidence in a CFTC-regulated marketplace, where you can enjoy the same financial safeguards and transparent pricing as the world's largest institutions.

## How the underlying sports indexes are calculated

CME FSPI Sports Indexes are calculated using live, in-game metrics of teams for every event in a league's respective season.

### TRANSPARENT METHODOLOGY

A rules-based, points-based system adds points for positive plays (e.g., scoring) and subtracts points for setbacks (e.g., penalties).

### STANDARDIZED BASE VALUE

Each index begins at 7,500 before the season, then moves up or down based on official statistics from every game.

### INSTITUTIONAL-GRADE INTEGRITY

Backed by historical data, the indexes align with the IOSCO Principles for Financial Benchmarks and rely on leagues strictly for official data sourcing.

## Versatile applications

Sports Index futures allow affiliated businesses, including regional sponsors and ticketing providers, to offset the financial impact of team performance. Traders can actively capture in-game momentum shifts or express macro, season-long narratives on team trajectories.
