Chapter 57A
Options on Dry Whey Futures

57A00. SCOPE OF CHAPTER
This chapter is limited in application to options on Dry Whey futures. In addition to this chapter, options on Dry Whey futures shall be subject to the general rules and regulations of the Exchange insofar as applicable.
For purposes of this chapter, unless otherwise specified, times referred to herein shall refer to and indicate Chicago time.

57A01. OPTIONS CHARACTERISTICS

57A01.A. Contract Months
Options contracts shall be listed for such contract months and final settlement in such months as may be determined by Exchange.

57A01.B. Trading Unit
The trading unit shall be an option to buy, in the case of the call, or to sell, in the case of the put, one Dry Whey futures contract as specified in Chapter 57.

57A01.C. Minimum Fluctuations
The price of an option shall be quoted in cents per pound. Minimum price fluctuations shall be in multiples of $0.00025 per pound (also known as one tick). A trade may also occur at a price of $0.00025 per pound ($5.50, also known as one-half tick), whether or not it results in the liquidation of positions for both parties to the trade.

57A01.D. Trading Hours
The hours of trading for options on Dry Whey futures contracts shall be determined by the Exchange. Options on Dry Whey futures shall be opened and closed for all months and strike prices simultaneously.

57A01.E. Exercise Prices
The exercise prices shall be stated in terms of cents per pound. For all contract months, exercise prices shall be at intervals of 1 cent; e.g., 20 cents, 21 cents, etc. In addition, for the two nearest contract months, some exercise prices shall be at intervals of .50 cent; e.g., 20.50 cents, 21.50 cents, as described below.
At the commencement of option trading in a contract month, the Exchange shall list put and call options in a range within 50 percent above and below the strike closest to the previous day’s settlement price of the underlying futures contract (the at-the-money strike). If the previous day’s settlement price is midway between two strikes, the at-the-money strike shall be the larger of the two.
When a contract month becomes the second nearest contract month, the Exchange shall add exercise prices at .50 cent intervals at a range within 25 percent above and below the strike closest to the previous day’s settlement price of the underlying futures contract (the at-the-money strike). If the previous day’s settlement price is midway between two strikes, the at-the-money strike shall be the larger of the two.
All strikes will be listed prior to the opening of trading on the following business day. As new strikes are added, existing strikes outside of the newly determined strike ranges without open interest may be de-listed.
New strikes may be listed for trading up to and including the termination of trading.
The Exchange may modify the provisions governing the establishment of exercise prices as it deems appropriate. The Exchange may modify the procedure for the introduction of strike prices as it deems appropriate in order to respond to market conditions.

57A01.F. Position Limits, Exemptions, Position Accountability and Reportable Levels
The applicable position limits and/or accountability levels, in addition to the reportable levels, are set forth in the Position Limit, Position Accountability and Reportable Level Table in the Interpretations & Special Notices Section of Chapter 5.
A Person seeking an exemption from position limits for bona fide commercial purposes shall apply to the Market Regulation Department on forms provided by the Exchange, and the Market Regulation Department may grant qualified exemptions in its sole discretion.

Refer to Rule 559 for requirements concerning the aggregation of positions and allowable exemptions from the specified position limits.

57A01.G. [Reserved]

57A01.H. Termination of Trading

Options trading shall terminate on the same date and time as the underlying futures contract.

57A01.I. [Reserved]

57A02. **EXERCISE AND ASSIGNMENT**

In addition to the applicable procedures and requirements of Chapter 7 the following shall apply to the exercise of Dry Whey options.

57A02.A. Exercise of Option

The buyer of a Dry Whey futures option may exercise the option on any Business Day prior to expiration by giving notice of exercise to the Clearing House by 5:30 p.m., or by such other time designated by the Exchange, on such day.

An option that is in-the-money and has not been liquidated or exercised prior to the termination of trading shall, in the absence of contrary instruction delivered to the Clearing House by 5:30 p.m. on the Business Day following the Expiration Day by the clearing member representing the option buyer, be exercised automatically. An option is in-the-money if the final settlement price of the underlying futures contract lies above the exercise price in the case of a call, or lies below the exercise price in the case of a put.

Corrections to option exercises, including automatic exercises, may be accepted by the Clearing House after the 5:30 p.m. deadline and up to the beginning of final option expiration processing provided that such corrections are necessary due to; (1) a bona fide clerical error, (2) an unreconciled Exchange option transaction(s), or (3) an extraordinary circumstance where the clearing firm and customer are unable to communicate final option exercise instructions prior to the deadline. The decision as to whether a correction is acceptable will be made by the President of the Clearing House, or the President's designee, and such decision will be final.

Assignment

Exercise notices accepted by the Clearing House shall be assigned through a process of random selection to clearing members with open short positions in the same series. A clearing member to which an Exercise notice is assigned shall be notified thereof as soon as practicable after such notice is assigned by the Clearing House, but not later than 45 minutes prior to the opening of trading in the underlying futures contract on the following Business Day. The clearing member assigned an Exercise notice shall be assigned a short position in the underlying futures contract if a call is exercised or a long position if a put is exercised. The clearing member representing the option buyer shall be assigned a long position in the underlying futures contract if a call is exercised and a short position if a put is exercised.

All such futures positions shall be assigned at a price equal to the exercise price of the option and shall be marked to market in accordance with Rule 814 on the Trading Day following acceptance by the Clearing House of the Exercise notice.
