Chapter 260A
Options on Russian Ruble/U.S. Dollar (RUB/USD) Futures

260A00. SCOPE OF CHAPTER
This chapter is limited in application to options on Russian ruble/U.S. dollar futures. In addition to this chapter, options on Russian ruble/U.S. dollar futures shall be subject to the general rules and regulations of the Exchange insofar as applicable.

For purposes of this chapter, unless otherwise specified, times referred to herein shall refer to and indicate Chicago time.

Options contracts covered by this chapter may also be referred to as:
RUB/USD Monthly Options
RUB/USD Weekly Friday Options

260A01. OPTIONS CHARACTERISTICS

260A01.A. Contract Months, Trading Hours, and Trading Halts
Options contracts shall be listed for such contract months (i.e., expirations) and scheduled for trading during such hours, except as indicated below, as may be determined by the Exchange.

260A01.B. Trading Unit
The trading unit shall be an option to buy, in the case of the call, or to sell, in the case of the put, one Russian ruble/U.S. dollar futures contract as specified in Chapter 260.

260A01.C. Price Increments
The price of an option shall be quoted in U.S. dollars per Russian ruble. Each $.000005 per Russian ruble (one-half point) shall represent $12.50. For example, a quote of .000305 represents an option price of $762.50 (30.5 points x $25.00 per point). The minimum fluctuation shall be one-half point (also known as one-half tick).

260A01.D. Underlying Futures Contract
1. Monthly Options
The underlying futures contract is the same as the option contract month (i.e., the January futures is the contract underlying the January option).

2. Weekly Options
For weekly Russian ruble/U.S. dollar option contract listings, the underlying futures contract is the nearest futures contract in the consecutive contract month cycle that has not yet terminated trading. For example, for Russian ruble/U.S. dollar option contract listings, the February futures is the underlying futures contract for weekly options expiring after the termination of trading for the January futures and options on January 15th and up to and including the termination of trading for the February futures and options on February 15th.

260A01.E. Position Limits, Exemptions, Position Accountability and Reportable Levels
The applicable position limits and/or accountability levels, in addition to the reportable levels, are set forth in the Position Limit, Position Accountability and Reportable Level Table in the Interpretations & Special Notices Section of Chapter 5.

A person seeking an exemption from position limits for bona fide commercial purposes shall apply to the Market Regulation Department on forms provided by the Exchange, and the Market Regulation Department may grant qualified exemptions in its sole discretion.

Refer to Rule 559 for requirements concerning the aggregation of positions and allowable exemptions from the specified position limits.

260A01.F. Special Price Fluctuation Limits
At the commencement of each trading day, the contract shall be subject to special price fluctuation limits as set forth in Rule 589 and in the Special Price Fluctuation Limits Table in the Interpretations & Special Notices Section of Chapter 5.

260A01.G. [Reserved]
260A01.H. Termination of Trading

1. Monthly Options
Trading in monthly options on the Russian ruble/U.S. dollar futures contract shall terminate at the same
date and time as the underlying futures contract.

2. Weekly Friday Options
Trading in weekly Friday options shall terminate at the close of trading (usually 2:00 p.m.) on those Fridays
that are not also the termination of trading of a monthly option as described in the immediately preceding
paragraph. If the foregoing date for termination is a scheduled Exchange holiday, trading in weekly Friday
options shall terminate on the immediately preceding Business Day. In the event that the underlying
futures market does not open on the scheduled expiration day, the option expiration shall be extended to
the next day on which the underlying futures market is open for trading.

260A01.J. Exercise Prices
Regular exercise prices shall be stated in terms of U.S. dollars per Russian ruble at intervals of $0.00025,
e.g., $0.03500, $0.03525, $0.03550, etc.

260A02. LISTING OF EXERCISE PRICES

1. Monthly Options
At the commencement of trading in a contract month for monthly options on Russian ruble/U.S. dollar
futures, the Exchange shall list put and call options at the regular exercise price that is nearest the
previous day's settlement price of the underlying futures contract. In addition, the Exchange shall list put
and call options at the next twenty-five higher and next twenty-five lower regular exercise prices for
options on Russian ruble/U.S. dollar futures.

When a sale, bid, offer, or settlement price in the underlying futures occurs within half a regular exercise
price interval of the twenty-fifth highest or twenty-fifth lowest existing regular exercise price for options on
Russian ruble/U.S. dollar futures, put and call options at the next higher or next lower regular exercise
price shall be listed for trading on the next Trading Day. New options may be listed for trading up to and
including the termination of trading.

The Exchange may modify the provisions governing the establishment of exercise prices as it deems
appropriate.

2. Weekly Options
Upon demand, the Exchange shall list any exercise price for the weekly options that is eligible for listing
for the nearest monthly option with the same underlying futures contract.

3. Dynamically-Listed Exercise Prices.
Upon demand and at the discretion of the Exchange, new out-of-current-range exercise prices at regularly
defined intervals may be added for trading on as soon as possible basis.

260A03. EXERCISE AND ASSIGNMENT

In addition to the applicable procedures and requirements of Chapter 7, the following shall apply to the
exercise of option contracts on Russian ruble/U.S. dollar futures.

260A03.A. Exercise of Option by Buyer
All in-the-money options are automatically exercised by the Clearing House on the day of expiration for
the option. All out-of-the-money options are abandoned by the Clearing House on the day of expiration
for the option. An option is in-the-money if the settlement price of the underlying futures contract at
termination lies above or is equal to the exercise price in the case of a call, or lies below the exercise
price in the case of a put.

260A03.B. Assignment
Exercise notices accepted by the Clearing House shall be assigned through a process of random
selection to clearing members with open short positions in the same series. A clearing member to which
an exercise notice is assigned shall be notified thereof as soon as practicable after such notice is assigned
by the Clearing House, but not later than 45 minutes before the opening of Regular Trading Hours in the
underlying futures contract on the following Business Day.

The clearing member assigned an exercise notice shall be assigned a short position in the underlying
futures contract if a call is exercised or a long position if a put is exercised. The clearing member
representing the option buyer shall be assigned a long position in the underlying futures contract if a call is exercised and a short position if a put is exercised.

All such futures positions shall be assigned at a price equal to the exercise price of the option and shall be marked to market in accordance with Rule 814 on the Trading Day of acceptance by the Clearing House of the exercise notice.

260A04. [RESERVED]

(End Chapter 260A)
