39002.H. [Reserved]
39002.I. Price Limits and Trading Halts
Futures trading shall be subject to Price Limits as set forth in this Rule.

1. Daily Determination of Price Limits
For a given Business Day, Price Limits applicable to a futures contract for a given delivery month shall be calculated on the basis of the corresponding Reference Price (Rule 39002.I.1.a.) and the corresponding Offsets (Rule 39002.I.1.b.), as follows:
7% Price Limits = Reference Price minus 7% Offset and Reference Price plus 7% Offset

1.a. Reference Prices for Price Limits
For a given Business Day, for futures for a given delivery month, the Exchange shall set a contract Reference Price on the first preceding Business Day, as follows:

Tier 1
Such Reference Price shall be based on the volume-weighted average price of transactions in
futures for such delivery month on the CME Globex electronic trading platform between 4:29:30 and 4:30:00 p.m. London time ("reference interval").

**Tier 2**
If no such transaction occurs during the reference interval, then such Reference Price shall be based on the average of midpoints of bid/ask spreads for such futures quoted on CME Globex during the reference interval, provided that the Reference Price calculation shall exclude the midpoint value for any such bid/ask spread that is wider than 0.10 Index points.

**Tier 3**
If such Reference Price cannot be determined pursuant to Tier 1 or Tier 2, then the Exchange, in its sole discretion, shall set such Reference Price by alternative means which may include, but are not limited to, derivation by reference to the basis relationship between such futures contract’s price and the Index, or application of Tier 1 and Tier 2 calculations to successive time intervals of increasing length, in integer multiples of thirty (30) seconds, until suitable price data are obtained.

The resultant Reference Price value shall be rounded down to the nearest integer multiple of 0.05 Index points. Such Reference Price, so rounded, shall be used for determination of the corresponding Price Limits.

For newly listed futures for a given delivery month, the Exchange shall set, in its sole discretion, a Reference Price value for the purpose of determining Price Limits for the first day of trading in such futures.

**1.b. Offsets for Price Limits**
For a given Business Day, the Exchange shall determine the Offset on the basis of the Index closing value ("I") for the first preceding Business Day, as follows:

\[
7\% \text{ Offset} = 0.07 \times I
\]

The resultant Offset value shall be rounded down to the nearest integer multiple of 0.05 Index points. Such Offset, so rounded, shall be used in determination of the corresponding Price Limits.

**2. Application of Price Limits from Start of Trading Day to 8:00 a.m. London Time:**
Without limitation to the following, the start of a Trading Day generally shall coincide with the start of the corresponding CME Globex trading session at 5:00 p.m. Chicago time on the evening first preceding such Trading Day.

From the start of any Trading Day until 8:00 a.m. London time, there shall be no trading in futures for a given delivery month at any price outside the range defined by the 7% Price Limits, where such 7% Price Limits are established on the basis of (i) the Reference Price most recently determined by the Exchange as of 5:00 p.m. Chicago time and (ii) the Offset derived by the Exchange on the basis of the most recently published Index closing value as of 5:00 p.m. Chicago time.

During this period of time, the contract shall also be subject to dynamic price fluctuation limits as set forth in Rule 589.D. and in the Special Price Fluctuation Limits and Daily Price Limits Table in the Interpretations & Special Notices Section of Chapter 5.

**3. Application of Price Limits from 8:00 a.m. London Time to 4:30 p.m. London Time:**
Price Limits shall not apply.

**4. Application of Price Limits from 4:30 p.m. London Time to 5:00 p.m. Chicago Time:**
There shall be no trading of futures at any price outside the range defined by the 7% Price Limits, where such 7% Price Limits are established on the basis of (i) the Reference Price most recently determined by the Exchange as of 4:30 p.m. London time and (ii) the Offset derived by the Exchange on the basis of the most recently published Index closing value as of 4:30 p.m. London time.

During this period of time, the contract shall also be subject to dynamic price fluctuation limits as set forth in Rule 589.D. and in the Special Price Fluctuation Limits and Daily Price Limits Table in the Interpretations & Special Notices Section of Chapter 5.

**39003. SETTLEMENT PROCEDURES**
Delivery shall be by cash settlement.

**39003.A. Final Settlement Price**
For a futures contract for a given delivery month, the Final Settlement Price shall be determined on the third Friday of such delivery month, and shall be equal to the Index closing value for the third Friday of such delivery month.

If the Index is not scheduled to be published on the third Friday of such delivery month, then such
Final Settlement Price shall be scheduled for determination on the first preceding Business Day on which the Index is scheduled to be published.

39003.B. Final Settlement
Clearing members holding open positions in an expiring futures contract at its termination of trading (Rule 39002.G.) shall make payment to or receive payment from the Clearing House in accordance with normal variation margin procedures based on such expiring contract’s Final Settlement Price (Rule 39003.A.).

BTIC block trades must be executed in accordance with the requirements of Rule 526. For a BTIC or BTIC block trade executed on a given Business Day after 4:30 p.m. London time, the corresponding futures price shall be assigned by reference to the Index closing value for the next following Business Day.

39006.D. Market Disruption Events
In the event of a market disruption, which precludes a valid Index closing value calculation, all pending and executed BTIC transactions in the corresponding futures contract shall be cancelled by the Exchange. Such disruption shall be declared by the Exchange in its sole discretion, and may include, without limitation, an unscheduled early close of the futures trading.
