Chapter 1071
German Power Peakload Calendar Month Futures

107100. SCOPE OF CHAPTER

This chapter is limited in application to trading of German Power Peakload Calendar Month Futures. The procedures for trading, clearing and cash settlement of this contract, and any other matters not specifically covered herein shall be governed by the general rules of the Exchange. The provisions of these rules shall apply to all futures contracts bought or sold on the Exchange for cash settlement based on the Floating Price.

107101. CONTRACT SPECIFICATIONS

The Floating Price for each contract month will be determined with reference to prices for the German power bidding zone during the contract period. Where the German power market is priced in conjunction with the Austrian power market, the floating price shall reference the combined DE/AT zone. Where the German power market is priced independently of the Austrian power market, the floating price shall reference the independent DE zone. Should the German power market be priced in conjunction with any other market area, the floating price shall reference the pricing zone which incorporates Germany. Should the German power market be priced as multiple market areas, the floating price shall reference the pricing zone which incorporates the Amprion GmbH TSO zone, or its successor. The floating price is the arithmetic average of all hourly day-ahead auction prices run by EPEX Spot SE for the applicable pricing zone for the contract period. The Exchange shall confirm details of the applicable pricing zone.

For Peakload Calendar Month Futures, the contract period consists of all hours from 08:00 to 19:59 local German time each weekday in the contract month. For the avoidance of doubt, should a public holiday fall on weekday, such weekday shall continue to be considered a Peakload Day.

107102. TRADING SPECIFICATIONS

The number of months open for trading at any given time shall be determined by the Exchange.

107102.A. Trading Schedule
The hours of trading for this contract shall be determined by the Exchange.

107102.B. Trading Unit
The contract quantity shall be 1 MWh per hour in the contract period. Each contract shall be valued as the contract quantity multiplied by the settlement price.

107102.C. Price Increments
Prices shall be quoted in Euros per MWh. The minimum price fluctuation shall be € 0.01 per MWh. There shall be no maximum price fluctuation.

107102.D. Position Limits, Exemptions, Position Accountability and Reportable Levels
The applicable position limits and/or accountability levels, in addition to the reportable levels, are set forth in the Position Limit, Position Accountability and Reportable Level Table in the Interpretations & Special Notices Section of Chapter 5.

A Person seeking an exemption from position limits for bona fide commercial purposes shall apply to the Market Regulation Department on forms provided by the Exchange, and the Market Regulation Department may grant qualified exemptions in its sole discretion.

Refer to Rule 559 for requirements concerning the aggregation of positions and allowable exemptions from the specified position limits.
1071102. E. Termination of Trading
Trading shall cease on the first US business day immediately preceding the last weekday of the contract month. On the last trading day, the trading shall terminate at 12:00 hours local German time (normally 06:00 hours Eastern Time).

1071103. FINAL SETTLEMENT
Final settlement under the contract shall be by cash settlement. Final settlement, following termination of trading for a contract month, will be based on the Floating Price. The final settlement price will be the Floating Price calculated for each contract month.

1071104. DISCLAIMER
New York Mercantile, Inc. ("NYMEX") uses publicly available spot market prices in connection with the trading and/or clearing of the German Power Peakload Futures (the "Product"). The Exchange and its Affiliates make no warranties, express or implied, as to the results to be obtained by any person or entity from use of the price assessment, trading and/or clearing based on the price assessment, or any data included therein in connection with the trading and/or clearing of the Product, or, for any other use. The Exchange and its Affiliates make no warranties, express or implied, and hereby disclaim all warranties of merchantability or fitness for a particular purpose or use with respect to the price assessment or any data included therein. Without limiting any of the foregoing, in no event shall the Exchange or its Affiliates have any liability for any lost profits or indirect, punitive, special or consequential damages (including lost profits), even if notified of the possibility of such damages.
