

Chapter 105 Platinum Futures

105100. SCOPE OF CHAPTER

This chapter is limited in application to Platinum futures. The procedures for trading, clearing, delivery and settlement not specifically covered herein or in Chapter 7 shall be governed by the general rules of the Exchange.

The provisions of these rules shall apply to all platinum bought or sold for future delivery on the Exchange.

The terms “seller” and “buyer” shall mean the seller of the physical product and the buyer of the physical product, respectively. Terms not specifically defined herein shall be defined in Chapter 7.

For purposes of these rules, unless otherwise specified, times referred to herein shall refer to and indicate New York time.

105101. CONTRACT SPECIFICATIONS

105101.A. Grade and Quality Specifications

The contract for delivery on futures contracts shall be 50 troy ounces of platinum, weighed to the nearest thousandth of a troy ounce, or the equivalent weight in grams, of homogeneous cast plate and/or ingot, with a weight tolerance of 10% either higher or lower. Each contract may consist of more than one piece of plate and/or ingot, with no individual piece weighing less than 10 troy ounces, or the equivalent weight in grams. Platinum delivered under this contract shall be a minimum of 99.95% pure and must be a brand approved by the Exchange.

105101.B. Packing Methods

Platinum may be delivered in packaged or unpackaged form.

1. If platinum is delivered in packaged form, the platinum must be in a package sealed by an Assayer or Producer such that the package may not be opened without destruction of the seal. Each package must contain exactly one contract unit of platinum and must bear:
 - a. the lot or identification number(s) of each ingot and/or plate contained therein;
 - b. the actual weight of the platinum therein;
 - c. the grade of the pieces therein;
 - d. the name or logo of the Assayer or mark of the Brand; and
 - e. the chemical symbol for platinum “Pt” and/or the word “Platinum”.
2. If platinum is delivered in unpackaged form, each piece of platinum comprising the contract unit shall be incised with:
 - a. the lot or identification number of such ingot and/or plate contained therein;
 - b. its actual weight (provided that if the piece was previously sampled, the weight on the Assay Certificate shall govern);
 - c. the grade of such piece;
 - d. the name or logo of the Assayer or mark of the Brand; and
 - e. the chemical symbol for platinum “Pt” and/or the word “Platinum”.

105101.C. Warrant

Each Warrant shall contain the information set forth in the Assay Certificate, incised on the bar, or clearly identified on the package; provided, however, that weight shall be expressed in troy ounces. If the weight incised on the bar or set forth on the Assay Certificate is in grams, it shall be converted to troy ounces by dividing the weight in grams by 31.1035 and rounding to the nearest thousandth of a troy ounce. The Warrant shall represent that the contract unit:

1. is a Brand, meeting the grade and quality specifications herein, received directly from its Producer by means of one or more Carriers and/or, with respect to platinum from the Producer, by means of such Producer’s own transport, or
2. is a Brand, meeting the grade and quality specifications herein, received directly from one or more storage vaults located in Zurich, Switzerland owned or controlled by either Credit

Suisse Group or UBS AG, by means of one or more Carriers. Such storage vaults are delivery locations for the London Platinum and Palladium Market. Upon request of the Depository, the seller's clearing member shall provide to the Depository a pro forma invoice and a bar list issued by either Credit Suisse Group or UBS AG (or the wholly-owned subsidiary that owns such vault), and, if so requested, the Depository is not required to issue a Warrant for any such contract unit until such documentation has been provided, or

3. was received directly from an Assayer or Producer by means of one or more Carriers and/or, with respect to platinum from the Producer, by means of such Producer's own transport, and was accompanied by an Assay Certificate(s) for each piece in the contract unit, or
4. was received directly from an Assayer or Producer by means of one or more Carriers and/or, with respect to platinum from the Producer, by means of such Producer's own transport, and was not accompanied by an Assay Certificate(s) for each piece in the contract unit but has been determined to be Eligible after having been inspected by an Assayer or Producer, or
5. was received directly from another Depository by means of one or more Carriers, provided, however, that the platinum was previously Eligible, or
6. was deposited at a Depository, and thereafter inspected by an Assayer or Producer and determined to be Eligible.

105102. TRADING SPECIFICATIONS

Trading in Platinum futures is regularly conducted in the following months: (1) the current calendar month; (2) the next two calendar months; and (3) each January, April, July, and October falling within a 15-month period beginning with the current calendar month. The number of months open for trading at a given time shall be determined by the Exchange.

105102.A. Trading Schedule

The hours for trading shall be determined by the Exchange.

105102.B. Trading Unit

The contract unit shall be 50 troy ounces.

105102.C. Price Increments

The minimum price fluctuation shall be ten cents (\$0.10) per troy ounce. Prices shall be quoted in dollars and cents per troy ounce.

105102.D. Position Limits, Exemptions, Position Accountability and Reportable Levels

The applicable position limits and/or accountability levels, in addition to the reportable levels, are set forth in the Position Limit, Position Accountability and Reportable Level Table in the Interpretations & Special Notices Section of Chapter 5.

A Person seeking an exemption from position limits for bona fide commercial purposes shall apply to the Market Regulation Department on forms provided by the Exchange, and the Market Regulation Department may grant qualified exemptions in its sole discretion.

Refer to Rule 559 for requirements concerning the aggregation of positions and allowable exemptions from the specified position limits.

105102.E. Termination of Trading

No trades in Platinum futures deliverable in the current month shall be made after the third last business day of that month. Any contracts remaining open after the last trade date must be either:

- (A) Settled by delivery which shall take place on any business day beginning on the first business day of the delivery month or any subsequent business day of the delivery month, but no later than the last business day of the delivery month.
- (B) Liquidated by means of a bona fide Exchange for Related Position ("EFRP") pursuant to Rule 538. An EFRP is permitted in an expired futures contract until 12:00 p.m. on the business day following termination of trading in the expired futures contract. An EFRP which establishes a futures position for either the buyer or the seller in an expired futures

contract shall not be permitted following the termination of trading of an expired futures contract.

105102.F. Special Price Fluctuation Limits

At the commencement of each trading day, the contract shall be subject to special price fluctuation limits as to set forth in Rule 589. and in the Special Price Fluctuation Limits Table in the Interpretations & Special Notices Section of Chapter 5.

105103. INSPECTION AND ASSAY CERTIFICATE

Except for platinum delivered pursuant to Rules 105101.C (1), (2), (3) or (5), the Depository shall, upon receipt of the commodity, cause an inspection to be made by an Assayer or a Producer. The Assayer or Producer shall issue Assay Certificate(s) covering each piece in the contract in the form approved by the Exchange.

Each Assay Certificate shall report the lot or bar number, weight, grade, the name of the Assayer or Producer, the symbol identifying the metal or the name of the metal and the date of inspection. On all Assay Certificates, weight shall be expressed in troy ounces.

Every lot inspected must bear on the package the lot number, seal number, date of inspection, weight, grade, and the name of the Assayer or Producer who made the inspection. (Effective as to platinum assayed prior to October 1, 1979)

Every lot inspected, if packaged, must bear on such package the lot or bar number, weight, grade, the name or logo of the Assayer or Producer, and the symbol identifying the metal or the name of the metal. Every lot inspected, if unpackaged, must be incised with the lot or bar number, weight, grade, the name or logo of the Assayer, and the symbol identifying the metal. (Effective as to platinum assayed on and after October 1, 1979)

If a contract unit of platinum is surrendered to the bearer of a Warrant, or if the contract unit is in a package and the seal is broken, the Assay Certificate(s) for such contract unit is no longer valid and such contract unit is no longer Eligible.

The seller shall bear the costs of inspection, delivery to the Depository, charges of the Depository, and all other expenses, if any, to determine that the platinum is Eligible.

105104.-107. [RESERVED]

105108. VALIDITY OF DOCUMENTS

The Exchange makes no representation respecting the authenticity, validity or accuracy of any document or instrument delivered pursuant to these rules.
