Chapter 871
Freight Route Middle East to China (TD3C) (Platts) Futures

871100. SCOPE OF CHAPTER
The provisions of these rules shall apply to all futures contracts bought or sold on the Exchange for cash settlement based on the Floating Price. The procedures for trading, clearing and cash settlement of this contract, and any other matters not specifically covered herein shall be governed by the general rules of the Exchange.

871101. CONTRACT SPECIFICATIONS
The Floating Price for each contract month is equal to the arithmetic average of the freight rate published each day during the Settlement Period by Platts in the Dirty Tankerwire report for Middle East Gulf to China for cargoes of 270,000 metric tons valued in Worldscale points, multiplied by the applicable Worldscale flat rate for the TD3C route (as defined by, and or subsequently amended by Baltic Exchange).

The Floating Price is determined by multiplying each daily freight rate by the applicable Worldscale flat rate (for that day), and subsequently calculating the average for the Settlement Period.

871102.A. Trading Schedule

The applicable position limits and/or accountability levels, in addition to the reportable levels, are set forth in the Position Limit, Position Accountability and Reportable Level Table in the Interpretations & Special Notices Section of Chapter 5.

A Person seeking an exemption from position limits for bona fide commercial purposes shall apply to the Market Regulation Department on forms provided by the Exchange, and the Market Regulation Department may grant qualified exemptions in its sole discretion.
