Resetting of Price Limits for Grain and Oilseed Futures

Effective Sunday, November 1, 2015 for trade date Monday, November 2, 2015, The Board of Trade of the City of Chicago, Inc. (CBOT or Exchange) will reset price limits for grain and oilseed futures. This is the second and last price limit reset in 2015 that is stipulated by the variable price limits mechanism pursuant to each product's respective CBOT Rulebook Chapter. Please see CBOT's CFTC Submission No. 14-062 dated February 28, 2014.

The new futures price limits effective on trade date November 2, 2015 are shown in the table below and will remain in effect until the first trading day in May 2016. There shall be no price limits on the current month contract on or after the second business day preceding the first day of the delivery month. All mini-sized grain and oilseed futures will have the same daily price limits as their corresponding standard-sized futures. In addition, please be reminded that the Exchange previously removed price limits for all grain and oilseed options contracts.
