

## Special Executive Report

S-7544

December 10, 2015

### Amendments to the Listing Schedule for the Live Cattle Futures and Options Contracts

Effective Monday, December 28, 2015, and pending all relevant CFTC regulatory review periods, Chicago Mercantile Exchange Inc. will amend the listing schedule for the Live Cattle Futures and Options contracts. More specifically, the Exchange will temporarily halt the listing of the June 2017 Live Cattle futures and options contracts, normally scheduled for listing on January 4, 2016, and subsequent contract months, pending consideration of changes in contract specifications precipitated by the pending repeal of federal mandatory country of origin labeling (“COOL”) laws for beef and pork. CME is continuing to engage in discussions with market participants regarding potential elimination of the prohibition on delivering non-US origin cattle for contract months from June 2017 forward. Please see SER-7534 dated December 4, 2015, with respect to the current requirement that cattle delivered against the existing CME Live Cattle futures contract months must be of U.S. origin.
