CME Group, in coordination with CQG, hosts an annual electronic trading challenge exclusive to currently enrolled college and university students at the graduate and undergraduate levels.

This simulated electronic trading team competition is designed to provide student teams with an educational experience consistent with that of professional trading of CME Group products. Teams trade using live data in a simulated environment and will use the CQG Integrated Client trading platform to execute trades on the CME Globex platform. As a provider of the simulated trading platform, CQG will provide access to the technical analysis and trading software as well as training before the Program begins.

By participating in the Program, participants agree to these Terms and Conditions, which are final and binding in all respects.

Please refer to <https://cmegroup.com/events/university-trading-challenge> (the “Program Page”) for further details applicable to the Program.

3. TO PARTICIPATE:

Teams will be able to trade all CME Group futures products through CME Globex on CQG’s trading applications during the competition. CME Globex is an open access marketplace that allows you to directly enter your own trades and participate in the trading process, including viewing the book of orders and real-time price data. To access CME Globex, participants will use CQG’s CME Group-certified trading applications and connectivity. CQG will create a simulated trading account for each team. Competition products do not have specified contract months. Teams are responsible to be aware of first notice day and expiration days. All profits for these trades are expunged. Only one team member can be logged into the CQG Integrated Client trading platform at a time. If a second team member logs in while another team member is in the system, the first team member will be logged out. Algorithmic trading is not permitted.

Beginning account balances are set at virtual amount of \$500,000. Teams are required to execute at least 10 contracts per day in one competition product or a combination of the competition products. Daily required minimum is 10 contracts, can be an entry (long or short) or an exit. It can also be any combination of 10 contracts which can result in open positions.

Virtual penalties apply to teams during the Program Period for the following scenarios:

- Not executing 10 required contracts per day – penalty of virtual amount of \$1,000 per day. This means that team volume traded each day must be a minimum of 10 contracts. If a spread trade is made in one of the exchange traded spreads, volume is the number of those spread contracts traded.
- Teams are penalized \$1,000 per contract not liquidated by expiration.
- Open contracts at the conclusion of the Program – \$1,000 per contract plus commission expenses on the open contracts. Any gains will be removed and losing trades will be closed out at settlement price to determine the final account balance.

Participants who completely deplete their account funds in connection with trading will not receive additional account funds. CQG trading accounts will not be replenished during the Program Period. Sponsor is not responsible for any trading errors. Commissions and any fees from exchanges or regulators will not be considered in account profit and loss calculations. Those who do not follow all of the instructions above, provide the required information in their enrollment form, or abide by these Terms and Conditions may be disqualified. A student who is registered to participate in the Program under one team shall not participate in the Program for an additional team registered in the Program.

Sponsor reserves the right to modify, remove, or amend the leaderboard in the event of any misconduct, in Sponsor's reasonable discretion.
