

24/7 Trading for 1-Ounce Gold and 10-Barrel Crude

June 17, 2026

24/7 Trading for 1-Ounce Gold and 10-Barrel Crude

CME Group is launching two commodity [24/7 trading](#) initiatives

- 1-Ounce Gold futures Expansion
 - Existing product migration to 24/7
 - Migrating existing product to a different market segment and market data channel
 - Migrating to existing Event Contracts channel
 - no impact to event contracts
 - Block trades will no longer be supported for 1-Ounce Gold futures.
 - 1-Ounce Gold TAS (TG) products will be delisted.
- 10-Barrel WTI Crude Oil futures
 - New product launch
 - Will trade 24/7
 - New CME MDP 3.0 market data channel

24/7 Trading Impacts

Key changes to support 24/7 trading

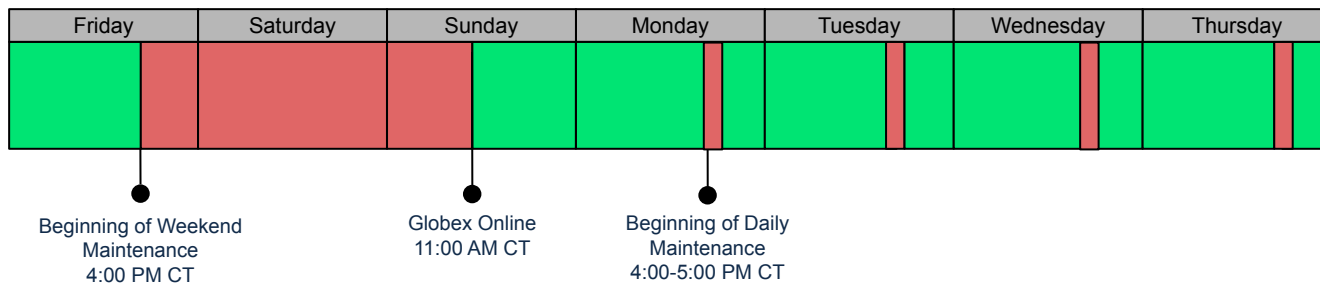

- 24/7 Trading will include holidays, Saturdays and Sundays:

Day	Type	Close	Pre-Open/Open
Saturday	Extended Maintenance Window	Close: 2:00 a.m. to 3:45 a.m. CT	<ul style="list-style-type: none">• Pre-open: 3:45 a.m. CT to 4:00 a.m. CT• Open: 4:00 a.m. CT
Monday through Friday	Daily Maintenance Window (with Trade Date roll)	Close: 4:00:00 p.m. to 4:01:00 p.m. CT	<ul style="list-style-type: none">• Pre-open: 4:01:00 p.m. CT to 4:01:30 p.m. CT• No cancel: 4:01:30 p.m. to 4:02:00 p.m. CT• Open: 4:02:00 p.m. CT

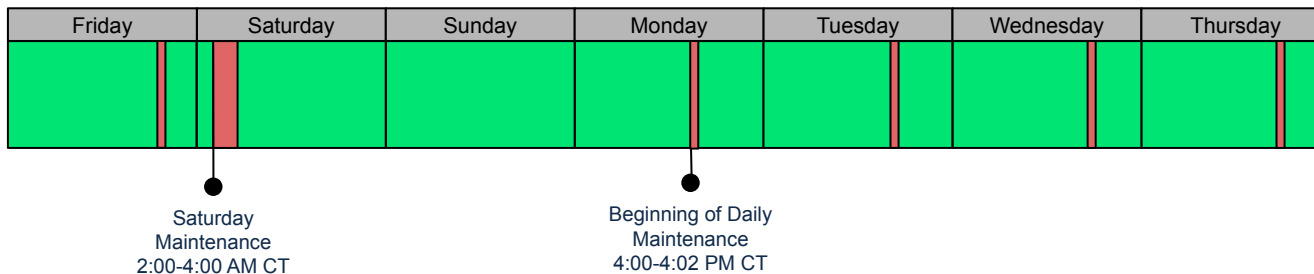

- Existing iLink, Drop Copy and MDP 3.0 functionality is supported.
- Testing:
 - No new iLink, Drop Copy, STP and MDP certifications required.

24/7 Trading - Maintenance Cycle

CME Globex Maintenance Cycles - Non 24/7

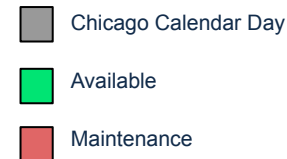

CME Globex Maintenance Cycles - 24/7

24/7 Maintenance Impacts

-The 58 minute reduction in the daily maintenance window is a significant impact for both 5-day and 7-day clients.

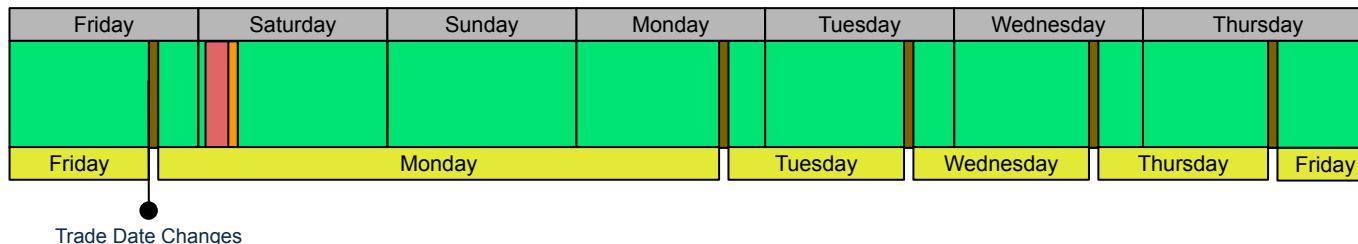

-During Saturday startup client systems must clear their books and prepare for an iLink/DC/MDP3 sequence number reset.

24/7 Trading - Trade Date Processing

Trade date processing follows established standards

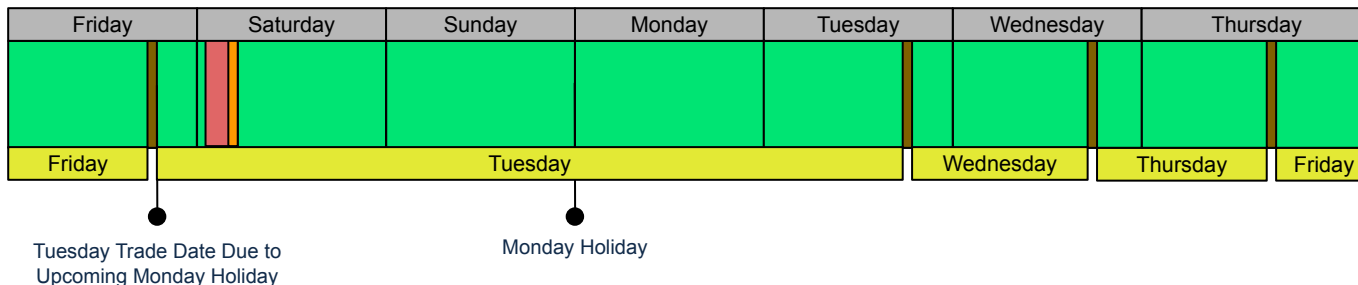

Typical - 24/7

24/7 Trade Date Impacts

-As with Globex today, [the trade date](#) will change with the daily Monday-Friday Close-> Preopen->->No Cancel -> Open (4:00-4:02 p.m. CT).

Holiday - 24/7

- Chicago Calendar Day
- Globex Available
- Weekly Maintenance - Close
- Weekly Maintenance - Close/Preopen
- Daily Maintenance - Close/Preopen/Open
- Trade Date

Client Impacts - Engine & Market Data

Access global data, 24/7

Market Segment (Engine)

- 24/7 10-Barrel and 1-Ounce will launch on the existing market segment ID 74 (tag 1300-MarketSegmentID)

Market Data

System	Product	Impact	Channel ID(s)
Globex MDP 3.0	1-Ounce Gold futures	Migration	329
	10-Barrel Crude futures	New	325

- Existing Globex MDP 3.0 functionality is supported.
- [Smart Stream SBE](#) and [MDP Websocket API](#) support.
- Channel configuration network impacts - see “5 vs 7-Day Client Journey Summary” section for more information.

Client Impacts - Globex Market Access

Empowering clients with around the clock market access

iLink Order Entry

- Existing iLink functionality is supported.
- No new messaging impacts.
- Good Till (GT) order support.
- Convenience Gateway (CGW) support.
- Network impacts - see “5 vs 7-Day Client Journey Summary” section for more information.
- Order Entry Service Gateway (OESGW) IP Impact.

Drop Copy

- Existing Drop Copy functionality is supported.
- No new messaging impacts.
- Convenience Gateway (CGW) support.
- Network impacts - see “5 vs 7-Day Client Journey Summary” section for more information.

iLink and Drop Copy Session Support

Access	Client Type	Impact
Market Segment Gateway (MSGW) iLink or Drop Copy Session	5 & 7-day clients	No impact. Existing sessions support 24/7 on CME Globex.
Convenience Gateway (CGW) iLink or Drop Copy Session	5-day clients	Existing CGW sessions support market hours between Sunday 4:05 p.m. and Friday 4:00 p.m. CT. No migration required for 5-day clients.
	7-day clients	CGW clients who wish to access weekend trading must create a new 24/7 session. The new session can access <i>all</i> Globex listed derivatives markets (cryptocurrency, interest rates, energy, etc) during the weekday.

- For the first time Globex will support iLink and Drop Copy Convenience Gateways (CGW) during the weekend.
- 7-day OESGW production information is outlined [here](#).

Good Till (GT) Order Support

Globex will support Good Till (GT) orders during weekend trading

- **Key question:** How can 5-day and 7-day clients manage resting GT orders?

Solution

- [CME Globex Credit Controls \(GC2\)](#) will support automatic GT elimination functionality via a distinct weekend GC2 limit at the execution firm level.
- Accounts default to a 5-day support schedule (zero weekend limit).

Weekend GFIDs NOT Enabled	Weekend GFIDs Enabled
<p>Cancellation Time: GT orders for these products will be canceled every Friday at 4:00 p.m. CT.</p> <p>Scope: This cancellation applies only to products designated as "7-Day Products" and is enforced at the GFID level.</p>	<p>iLink 7-day session: GT Orders submitted through 7-day GFIDs will remain active and manageable in the market.</p> <p>iLink 5-day Session: GT Orders submitted through a 5-day session will remain working, although not accessible via an iLink session.</p>

Client Impacts - Core Systems

Straight Through Processing (STP)

- CME FIXML and FIX Straight Through Processing (STP) will [support trade reports for 24/7 markets](#)
 - No new messaging impacts.
- GCP connectivity required, on-prem is not available.

Reference Data API

- Supports 24/7 trading, including [schedule functionality](#).
- New sevenDayTradingIndicator attribute

DataMine

- [DataMine](#) supports 24/7 trading.

CME Direct

- [CME Direct](#) does not support weekend trading.

5 vs 7-Day Client Journey Summary

	5-Day Clients	7-Day Clients
Weekday Schedule Update	Daily maintenance window reduced from one hour to two minutes.	
Weekend Schedule Expansion	N/A	Clients must successfully process the new Saturday startup.
Globex Sunday Startup Decommission	Sunday startup is longer applicable, startup moves to Saturday.	
Good Till (GT) Order Support	Default: GT orders are eliminated on Friday.	GC2 Opt-in: FCMs enable weekend support to retain GT orders.
iLink & DC Convenience Gateways (CGW) Session Support	No Impact - clients can use their existing CGW sessions to continue to trade cryptocurrency during the weekday.	7-day CGW session required to support weekend trading and <i>all</i> CME Globex futures and options markets (e.g., interest rates, energy, etc.) during the weekday.
iLink & DC Market Segment Gateway (MSGW) Session Support	No impact - clients can use their existing MSGW sessions.	
Network Impacts for 10-Barrel Crude	<ul style="list-style-type: none"> -Configure iLink and Drop Copy sessions for Market Segment (74) -New MDP 3.0 channel 325 	
Network Impacts for 1-Ounce Gold	<ul style="list-style-type: none"> -Configure iLink and Drop Copy sessions for Market Segment (74) -Migrate to CME MDP 3.0 channel 329
