

# AutoCert+ SMART Click Migration

---

- [AutoCert+ SMART Click Migration Legacy Users](#)
- [AutoCert+ SMART Click Migration New Users](#)

AutoCert+ users have the option to use SMART Click to access the application. Some additional steps are required for these users only:

- Associate your legacy entitlements to your SMART Click ID
- Update your local host file with the following IPs:
  - 69.50.112.210 [loginnr.chicago.cme.com](http://loginnr.chicago.cme.com)
  - 69.50.112.210 [ttnrap0012d.chicago.cme.com](http://ttnrap0012d.chicago.cme.com)
- Login to AutoCert+ at <https://69.50.112.210:8081> **only**

**Note:** Legacy AutoCert+ user IDs cannot be used at the new URLs and new IDs cannot be used with legacy URLs.

## AutoCert+ SMART Click Migration Legacy Users

Existing AutoCert+ users will be required to transition their entitlements to a SMART Click ID before using SMART Click to access the application.

If you have logged into AutoCert+ within the last six months, you will receive the following login screen. Upon legacy login, if not yet registered for SMART Click, an option will display which allows transitioning existing entitlements from the Legacy ID to SMART Click in a streamlined fashion.

- When ready to transition to SMART Click, click **Need to register?** and follow prompts for each part of the process:
  - Verify/update user account information
  - Submit the SMART Click registration form
  - Activate their SMART Click ID via email.

Once the SMART Click ID is activated, return to the application and click **Next** in order to complete the transition process.

- Click **“Click Here if you already have a SMART Click ID”** if already using a SMART Click ID to access other CME Group applications. Following this:
  - Utilize the new AutoCert+ SMART Click login page to enter existing SMART Click credentials and click the **“Login with SMART Click and Claim Legacy IDs”** button.
  - Follow prompts to login with legacy ID(s) credentials in order to transition existing AutoCert+ entitlements to SMART Click ID.

## AutoCert+ SMART Click Migration New Users

The following screen displays prior to the first login to CME ClearPort with a Smart Click ID.

The following login options are available:

- If a SMART Click ID has not been created, click **I don't have a SMART Click ID, create one now**. The Contact Information form will display and can be filled out and submitted.
- If a SMART Click ID has been created and there are Legacy IDs, enter the Smart Click ID and Password and click **Login with SMART Click and Claim Legacy IDs**.
  - Enter a legacy Username and Password, and then click **Claim Legacy ID** to claim the Legacy ID.
  - Repeat for multiple Legacy IDs.
- If a SMART Click ID has been created, and there are no Legacy IDs that need to be claimed, enter the SMART Click ID and password, and click **Login with SMART Click ID**.
- To Login with a Legacy ID, click **Login with Legacy ID**.
  - Click **Yes, skip for now**. On the Legacy login page, enter your Username and Password.
