

Schedule 4: Market Data Policies

1. DISTRIBUTOR'S GROUP

CME's general policy is to encourage Distributors to make Information as widely available as possible, provided that the Distributor establishes effective control over the display and use of Information.

CME will therefore allow the Distributor's Group to include Affiliated Companies and third party Service Facilitators, except as otherwise set forth herein.

Service Facilitators may be agents of the Distributor, owners or operators of web sites displaying the Distributor's Service, software developers, facilities managers, property managers or providers of other support services.

An organization will normally be accepted by CME as a Service Facilitator if:

- The Distributor retains full control, either technically or via an agreement acceptable to CME, over all display of Information within the Distributor's Service as provided via the Service Facilitator
- The Distributor retains full control, either technically or via an agreement acceptable to CME, over the release to Subscribers of Information within the Distributor's Service as provided via the Service Facilitator
- The Distributor unconditionally guarantees and accepts responsibility for performance of all obligations under this Agreement in respect of Information distributed via the Service Facilitator.

Once accepted as a Service Facilitator, an organization's license to use Information within the Distributor's Service is covered by the applicable license Fee(s) paid by Distributor. Distributor remains liable for all other Fees applicable to Service Facilitators' use of Information within the Distributor's Service.

Service Facilitators have no right to use Information outside the Distributor's Service. An organization may act as a Service Facilitator for multiple Distributors, provided, however, that each Distributor shall comply with all of the requirements listed herein with respect to the Service Facilitator. Organizations in this position should consider contracting directly with CME as an Information Distributor.

CME reserves all rights to accept or reject an organization as a Service Facilitator within Distributor's Group, even if such Service Facilitator has been accepted for another Distributor. CME may inspect and audit agreements and controls relating to the use of Information by a proposed Service Facilitator. Approved Service Facilitators must be listed and their function or relationship with Distributor described on Schedule 3 of this Agreement. CME reserves all rights to withdraw approval from any organization listed as a Service Facilitator.

2. MEDIA REDISTRIBUTION

CME recognizes the demand for organizations to broadcast Information to the public without the need for detailed subscriber agreements, reporting and User Fees.

CME may authorize Distributors to:

- i. Redistribute certain Information in specified media publications, at CME's sole discretion, and
- ii. License Subscribers to do the same, subject to compliance by Subscriber with CME policy and reporting requirements and payment by Distributor of applicable Fees in accordance with this Agreement.

For the purposes of this Agreement, Media Redistribution is normally defined as the display of Information to the public via specified newspaper, TV, radio or similar information services, provided that electronic storage and/or processing of Information by the recipient is prevented, excluded and/or expressly forbidden without prior permission from CME. Standard or regular displays of Information in public Internet or on-line news and information services do not qualify as Media Redistribution and will be subject to Web Site Fees and/or the applicable redistribution License Fees.

Distributor is entirely responsible for compliance with the CME requirements by any Subscriber licensed by any member of Distributor's group for Media Redistribution

CME reserves all rights to determine whether any proposed form of publication qualifies as Media Redistribution, to withhold or withdraw a Media Redistribution license at any time and to apply to Distributor any other Fees that may be applicable if a proposed form of Information redistribution is not accepted as Media Redistribution.

Media Redistribution License Fees are payable by the Distributor, pursuant to Schedule 5.

All Media Redistribution must be pre-approved by CME and is not available for all Information. Please reference Schedule 5: Fee Schedule for availability.

Media Redistribution is expressly prohibited for OTC Information.

3. SUBSCRIBERS TERMS AND CONDITIONS

- i. Delayed Information (other than OTC Information), when available as a licensing option and subject to the conditions published by CME from time to time and provided also that Distributor reports to CME and pays the applicable delayed license, website, and user fees where applicable, and as outlined in the Schedule 4: Market Data Policies and the Schedule 5: Fee Schedule. This exception is solely for Information and is not applicable to OTC Information.
- ii. Inclusion of Information (other than OTC Information) in Media Publications, subject to the conditions published by CME from time to time and provided also that the Distributor reports to CME and pays the applicable Media Redistribution Fee for Subscribers that redistribute Information

- iv. Public Internet Display, subject to Distributor meeting the applicable reporting and payment obligations specified in this Schedule, provided that all persons accessing Information (other than OTC Information) on web-hosted sites will be regarded as Subscribers of Distributor, except that they may not be allowed to redistribute Information (other than OTC Information) to third parties.

Inclusion of OTC Information in Media Publications or any other form of Media Redistribution is expressly prohibited. For the avoidance of doubt, please note that the foregoing subsections (i) through (iv) (the "**Exceptions**") are applicable solely to Information, and the Exceptions are not applicable to OTC Information. Please reference Schedule 5: Fee Schedule for availability of any of the foregoing.

CME reserves all rights to determine whether any form of Information redistribution by Subscriber may be allowed, and reserves the right to change the foregoing policy at any time.

All uses of Information by Subscriber that are subject to reporting requirements as specified in this Schedule must be identified and measured with an approved Unit of Count and be subject to effective Internal Controls which record all authorized use and prevent (or identify and record) any unauthorized use.

Subscribers accessing Information, as defined below, may process Information with or without other data for the purpose of creating new original works, provided that:

- i. Any works so created, which display, represent or recreate any item of Information (including any works from which Information may reasonably be reverse-engineered) will be regarded as Information for the purposes of this Agreement and will be subject to applicable Fees.
- ii. Subscriber must obtain prior permission from CME before using any element of Information to create or recalculate indices or any original work that does not include, display or recreate Information. These works will be considered derived works and will require licensing under separate agreement with CME. No use, creation or distribution of such works shall be permitted without CME's express approval, which will include a separate license agreement.
- iii. CME may at its sole discretion deny permission or require Distributor to pay License Fees for each Subscriber granted the right to create or recalculate indices or any other work from Information, for use in derived works.
- iv. CME hereby grants permission for the use of Information to create graphs and charts, where the underlying value of elements of Information cannot be identified or calculated (for example to compare percentage change in elements of Information with percentage change in other data).

Such use will not be considered derived works. No fees will apply to Subscribers where the Distributor provides this service.

Subscriber must not misrepresent Information or deface or remove any trademarks transmitted with Information.

Subscriber must not use Information for any illegal purpose. Subscriber must recognize all Intellectual Property Rights as acknowledged between Distributor and CME.

Subscriber must maintain all records and provide all information required by Distributor to meet Distributor's record-keeping, reporting and payment obligations to CME.

Subscriber must allow CME or any auditors acting on behalf of CME to audit Subscriber's records and use of Information.

Subject to applicable law, Subscriber shall obtain and provide any consent needed for CME or any auditors acting on behalf of CME to review and receive Personal Data, where necessary for the purposes of verifying or ensuring compliance with Distributor's obligations to CME.

In addition to any other remedy, Distributor may immediately suspend or terminate distribution of Information to Subscriber if Distributor has reason to suspect non-compliance with any of these terms or if Distributor is required to do so by CME for any reason.

CME reserves the right at CME's sole discretion, on application by Distributor or in the context of a direct agreement between CME and Subscriber, to extend the definition of "Subscriber's Group" in the case of individual Subscribers to include members of co-operative or professional associations or other corporate structures that function commercially as a single group.

4. PUBLIC INTERNET DISPLAY

Public Internet Display of Information is subject to the following terms.

Notwithstanding anything below, distribution of OTC Information via Public Internet Display is expressly prohibited under all circumstances.

Fees for Public Internet Display of Information are calculated per Web Site. CME reserves the right to determine whether any group of URL's should be regarded as a separate Web

Site for reporting and Fees purposes, taking into account the guidelines set out in this policy statement.

A "Web Site" means a group of URL's with a single commercial brand or identity. Many on-line publishers maintain multiple sites within the same domain. In some cases multiple domains may be used for different language versions of the same web-site service.

CME's policy in these cases for reporting and Web Site Fees is as follows:

Separately branded online publications normally count as multiple Web Sites, even if they are owned by the same corporation and contain similar displays of Information.

In web-host solutions, individual customer sites link or frame URL's from the web-host provider's domain. In this case "Web Hosted Fees" (as listed in Schedule 5) apply. Information resides on the web-host providers domain and servers.

For individual customer domains that contain links to generic or co-branded displays of Information, each normally count as separate Subscriber Web Sites, whether or not the generic or co-branded displays are framed within the customer's domain or sub-domain or carry URL's or attribution notices associated with the Distributor.

Individual customer domains that (i) contain links to displays of Information that are clearly branded as part of the Distributor's site, and (ii) do not otherwise qualify as Subscriber Web Sites, will not be regarded as Subscriber Web Sites.

Quote search facilities will normally be regarded as links unless the quote search graphic displays Information. Links to third-party-branded URL's are not subject to Web Site Fees or reporting requirements by the Web Site displaying the link (the applicable Fees are paid by the third-party). Links to generic or co-branded URL's will render the customer domain subject to Web Site Fees and reporting requirements.

Where different domain names open or are automatically diverted to the same site each domain home page URL should be reported but only one Web Site Fee will normally apply.

Where multiple domains contain different language versions of the same online content each domain home page URL should be reported but only one Web Site Fee will normally apply.

CME reserves all rights to determine whether one or more Web Site Fees should apply in the event that Information is displayed on multiple URL's or accessed via multiple domains linked to the same URL.

Public Internet Display Fees may apply both to Web Sites displaying Information without restriction and to Web Sites displaying Information to registered Users only. Public Internet Display Fees are not applicable where a Web Site offers Fee-liable Information to Subscribers via downloadable terminal software or similar means. In these cases License Fees and User Fees may apply.

Fees for Public Internet Display are specified in Schedule 5: Fee Schedule. Public Internet Display will be permitted only for Distributors that meet the following implementation criteria:

- i. Settlement with CME and release of further liability of Distributor in respect of any unauthorized distribution of Information prior to the effective date of the Public Internet Display Fees
- ii. Full report to CME's satisfaction of all Distributor's Group and Subscriber Web Sites and Authorized Users with access to Information, within 30 days of the effective date of the Public Internet Display Fees
- iii. Full Report to CME's satisfaction of all organizations receiving Information in Distributor's Services and acting as Sub-vendors, whether or not they are authorized by CME to do so
- iv. Removal of Fee-liable Information within 30 days of the effective date from all Subscribers that are not covered by Fees paid by Distributor or by direct agreements between the Subscriber and CME.

Distribution and use of Information under the Fees options are subject to the written permission of CME. Permission may be withdrawn on thirty days' notice in the event of non-compliance by the Distributor with the terms of this Agreement. All other authorized or unauthorized use of Information in Distributor's Services is subject to the standard Fees and reporting requirements specified in this Agreement.

In addition to the Fees options CME reserves the right, on application from Distributor or in the context of a direct agreement between CME and Subscriber, to specify separate terms for the Public Internet Display of Information by individual Distributor and Subscriber Groups.

5. PERSONAL DATA

Subject to applicable law, CME reserves the right to collect Personal Data.

CME's policy with regard to the collection and use of Personal Data is as follows:

- (i) Authenticate and verify authorized use of Information;
- (ii) Enable CME and its Distributors to meet their obligations to each other regarding the supply of Information;

- (iv) Comply with the rules and regulations of the Commodity Futures Trading Commission governing the trading of derivatives (futures and options on futures). CME shall not use Personal Data for another purpose without the requisite consent.

CME does not disseminate Personal Data to brokers or to other third parties for direct marketing activities. Personal Data may be used for statistical purposes and statistics provided to third parties, but not in such a way that the Personal Data is disclosed. CME and its Distributors may provide Personal Data to regulatory authorities and other third parties as required by applicable law or regulation. Individuals whose Personal Data has been collected have the right to request access to and correct Personal Data held by CME or its Distributors. CME will make reasonable efforts to correct errors in Personal Data within 40 Days of receipt of correction notice. To obtain access to Personal Data held by CME or CME Distributors, such individuals should send an email to marketdata@cmegroup.com.

Sub-vendor must be licensed with CME prior to receiving this feed, connection and/or access point, and Distributor must receive written authorization from CME to commence provision of such feed, connection and/or access point to Sub-vendor.

Fees for such access will be charged per Sub-vendor, per exchange, per month and must be reported.

7. BASIS OF COUNT AND CALCULATION OF FEES

User Fees, Fees for Web Site usage, Wallboard, Information Board and all other Fees are calculated on the basis of the number of applicable Units of Count with access to Information at any time during the relevant month. Fees apply to any unauthorized use or redistribution of Information by Distributor or Subscribers. A full month's Fee is due for each month in which the Unit of Count has access to Information.

CME will provisionally accept reports based on snapshot counts and partial month calculations, without prejudice to the amounts owed in accordance with CME policy as stated above. Notwithstanding anything herein, CME reserves the right in all cases to make a final determination as to whether a Device falls into any of the above categories.

9. DIRECT AGREEMENT BETWEEN CME AND SUBSCRIBERS

CME policy is to encourage the formation and growth of Distributor Groups to minimize the cost and administrative burden of providing Information in Services to Subscribers. CME will normally contract with Distributors for the Distribution of Information to Subscribers.

CME reserves the right, at CME's sole discretion, to contract directly with Subscribers. If CME contracts directly with Subscriber, CME User Fees apply per Subscriber and will be billed by CME direct to Subscriber.

Where CME contracts directly with Subscriber, Distributor is still responsible for reporting the Subscriber's use of Information in Distributor's controlled Service, under non-billable codes as established by CME.
