

TO: Clearing Member Firms

FROM: CME Clearing

ADVISORY #: 17-372

SUBJECT: CME SFTP Server Upgrade November 18<sup>th</sup>

DATE: September 22, 2017

Please be informed that CME SFTP Production servers will be upgraded on Saturday November 18, 2017. There are no changes to the SFTP site name, IP address or the connectivity methods. Additionally, there are no changes required on the firms' side. We are asking firms to participate in our initial testing in production on Saturday, October 28<sup>th</sup> or when we go live on Saturday, November 18<sup>th</sup>. This upgrade affects the below CME SFTP sites:

• Web based: sftpng.cmegroup.com- port 22

WAN based: 167.204.41.33 - port 22

## Testing:

- Testing include connectivity to CME SFTP and uploading or downloading prior data file into/from the customer designated account Outgoing or Incoming folders.
- If you are uploading a test file, we recommend that customers insert the word "TEST" in the file name.
- For downloading file from the Outgoing folder, we recommend that firms download a prior day file.
- Customers can connect to CME SFTP using their credentials currently used in Production. Either via userid/password or via public keys.

To register to participate in either test, please provide us with your contact information and your preferred testing date. Please contact <a href="mailto:CCS@cmegroup.com">CCS@cmegroup.com</a> or call 312 207 2525.
