Date: May 20, 2019

SUBJECT: Product Modification Summary for Clearing Firms, Bookkeeping Software Providers, ISVs

Amendments to Block Trade Standards for All Options on Foreign Exchange (FX) Futures Contracts

Effective Sunday, June 2, 2019 for trade date Monday, June 3, 2019, and pending all relevant CFTC regulatory review periods, Chicago Mercantile Exchange Inc. ("CME" or "Exchange") will implement amendments to standards for block transactions in all options on Foreign Exchange (FX) contracts (the "Contracts") as set forth in Exhibit 1.

Specifically, the Exchange will amend the minimum permissible size for block trades in intra-commodity spreads, such that it will be based on the sum of option contracts in all legs of such spread. At present, a block transaction in any such intra-commodity spread is permitted only if the number of contracts in each individual leg of such spread is not less than the minimum allowable quantity applicable to that leg.

In addition, the Exchange shall establish a uniform submission time requirement of 15 minutes. At present, such requirement is 5 minutes for a block trade executed during Regular Trading Hours (RTH, 7:00 a.m. – 4:00 p.m. Central Time, Monday through Friday on regular business days) and 15 minutes for a block trade executed at any other time. Block transactions are executed pursuant to CME Rule 526. ("Block Trades"). Additional information regarding block trades may be viewed [HERE](#).
