

TO: Clearing Member Firms; Back Office Managers

FROM: CME Clearing

ADVISORY #: 21-183

DATE: 05/19/2021

SUBJECT: OTC FX New Release – Enhancements and ClearPort GUI Update

CME Clearing released the following product enhancements into the New Release environment today, May 19, 2021. Please note these enhancements do not impact clearing firms or the CME CORE Margin Calculator. CME will confirm the Production date in a forthcoming advisory.

#### **Flexible Value Date for NDFs and CSFs**

- CME will add a flexible value date support for trade submission within a specified business date range
- If no value date is on the trade submission, CME will continue to derive the value date based on the fixing calendars and static calendar setup
- No change to cleared confirm (FIXML) message or EOD/ITD reporting

#### **Update OTCFX Trade Identifiers**

- Remove Exec ID
  - Exec ID will not be generated by CME and will be utilized by the platform as the block trade ID
  - Firms may continue to identify the trade using Match ID and Trade ID
- Update format for USI and UTI
  - New format for USI & UTI for OTC FX will be aligned with OTC IRS
  - USI format will comprise of the following string:

<b>Sample Value</b>	CCC	FXF	84423
<b>Description</b>	Fix/ Static Value	Fix/ Static Value	CME Trade id
○ UTI will comprise of the following string, including a 'C' to delineate from USI:			
<b>Sample Value</b>	CCC	FXFC	84423
<b>Description</b>	Fix/ Static Value	Fix/ Static Value	CME Trade id

#### **New Deal Management System (DMS) functions for OTC FX**

- Add the Trade Price in search trades screen
- View single-sided trades (pre and post match)
- View limit utilization

**Decommission ClearPort GUI for OTC FX trades only**

- OTC FX trades are no longer available in New Release ClearPort GUI effective May 19, 2021
- All OTC FX trades will continue to be submitted via ClearPort API
- No other ClearPort products are impacted
