

TO: Clearing Member Firms; Back Office Managers

FROM: CME Clearing

ADVISORY #: 21-423

DATE: 11/16/2021

SUBJECT: OTC IRS Production Advisory – USD LIBOR 1W & 2M Tenor Discontinuation

Please be advised that CME will amend all in-scope USD LIBOR swaps and FRAs affected by the one-week and two-month USD LIBOR tenor discontinuation in the Production environment on **Friday, November 19, 2021**, following the close-of-business. Beginning on **Monday, November 22, 2021**, CME will apply updated product validations on new trades referencing the one-week and/or two-month USD LIBOR tenors.

Existing Trades: Effective November 19th

- CME will identify and amend in-scope USD LIBOR Swaps and FRAs based on the below criteria:
 - If the adjusted fixing date for either the 1W or 2M stub tenor is on or before December 31, 2021, the swap/FRA will be left unchanged
 - If the adjusted fixing date for either the 1W or 2M stub tenor is after December 31, 2021, the swap/FRA will be amended
- CME will not provide clearing member firms with amendment messaging
- Amendment Logic
 - For interpolated stub tenors, the next shorter or next longer USD LIBOR tenors that are published must be referenced as part of the bulk amendment.
 - Examples:
 - 1W – 1M → **1D – 1M**
 - 1W – 2M → **1D – 3M**
 - 1M – 2M → 1M – **3M**
 - 2M – 3M → **1M – 3M**
- For standalone stub tenors, the new rate will be interpolated between the next shorter and next longer tenors that are still published.
 - Examples:
 - 1W → **1D – 1M**
 - 2M → **1M – 3M**

New Trades: Effective November 22nd

- CME will apply updated product validations on new trades based on the below criteria:
 - If the adjusted fixing date for either the 1W or 2M stub tenor is **on or before** December 31, 2021, the swap/FRA will be cleared

- o If the adjusted fixing date for either the 1W or 2M stub tenor is **after** December 31, 2021, the swap/FRA **will be rejected**

Overnight (1D) USD LIBOR Support

- Beginning on November 22, CME will begin supporting the overnight (1D) USD LIBOR tenor for clearing on IRS and FRAs in the Production environment
- The 1D USD LIBOR tenor will be added to the daily Rate Reset report (IRSRR) posted to Clearing Firm FTP sites
