SUBJECT: OTC Platform Advisory – Anonymous Execution Indicator for the CFTC Part 45
Regulations rewrite

Please be advised that CFTC regulation § 45 technical specification require the identification of trades executed anonymously for reporting purposes from December 5, 2022. To allow significant time for submission platforms to test the change, CME Clearing (CME) will make the following changes for all OTC trades in **New Release on Wednesday, August 10, 2022**:

Submission Change

Platform can send CME an anonymous indicator tag (AnonymsTrdInd) in TrdCaptRpt block in new incoming trades.

```
<TrdCaptRpt TransTyp="0" RptTyp="0" TrdTyp="22" AnonymsTrdInd="  
"Y" ExecID="137153" ExecID2="137153" TrdDt="2021-11-17" LastQty="55500000"  
LastPx="5.0000" TxnTm="2021-11-17T13:29:41.801Z" VenuTyp="R">
```

Absence of tag would be considered non-anonymous.

No Impact

The flag would not be reflected on the notifications to platforms.
