

Special Executive Report

DATE: April 8, 2024

SER#: 9356

SUBJECT: Milling Yield Premium and Discount Schedule Effective September 3, 2024
in Rough Rice Futures

Effective September 3, 2024, The Board of Trade of the City of Chicago, Inc. ("CBOT" or "Exchange") will amend the milling yield premium and discount fee schedule for the Rough Rice Futures contract (Rulebook Chapter [17](#); CME Globex Code: ZR; CME ClearPort Code: 14). The United States Department of Agriculture ("USDA") has announced the 2024 rice loan rates by class.¹ For the 2024 crop stored in commercial warehouses, the whole kernel (head rice) loan rate for long grain rice is \$11.06 per hundredweight (cwt.) and the broken kernel (broken rice) loan rate for long grain rice is \$7.31 per cwt. The Rough Rice futures contract milling yield premium and discount schedule that takes effect on the first delivery day of the September 2024 contract (September 3, 2024) is based on the 20 percent trimmed mean of the 2020 through 2024 USDA loan rates for long grain rice as described below.

USDA Loan Rates – Long Grain Rice (\$ per cwt.)

| Year | Head Rice | Broken Rice |
|-------------------|-----------|-------------|
| 2020 | \$11.10 | \$6.45 |
| 2021 | \$11.06 | \$6.76 |
| 2022 | \$11.13 | \$6.47 |
| 2023 | \$11.15 | \$6.74 |
| 2024 | \$11.06 | \$7.31 |
| Trimmed Mean Avg. | \$11.10 | \$6.66 |

The Rough Rice Futures contract specifies that head rice over or below 55 percent receives a premium or discount, respectively, and broken rice over or below 15 percent receives a premium or discount, respectively. Current milling yield premium and discount rates are \$11.11 per cwt. for head rice and \$6.55 per cwt. for broken rice. Beginning September 3, 2024, milling yield premium and discount rates will decrease to \$11.10 per cwt. for head rice and increase to \$6.66 per cwt. for broken rice. For example, an outstanding shipping certificate specifying 58 percent head rice and 12 percent broken rice and with an underlying futures price of \$12.00 would be delivered at \$12.1332 per cwt. ($12.00 + (.58 - .55) \times 11.10 - (.15 - .12) \times 6.66$). For assistance in calculating the prices on any outstanding certificates, please see [this calculator](#).
