

## Chapter 11E

### Soybean Calendar Spread Options

#### 11E00. SCOPE OF CHAPTER

This chapter is limited in application to put and call options on Soybean Futures Calendar Spreads. In addition to the rules of this chapter, transactions in Soybean Calendar Spread Options shall be subject to the general rules of the Exchange insofar as applicable.

For purposes of this chapter, unless otherwise specified, times referred to herein shall refer to and indicate Chicago time.

#### 11E01. OPTIONS CHARACTERISTICS

##### 11E01.A. Contract Months

Trading in Soybean Calendar Spread options may be scheduled in such months as determined by the Exchange.

##### 11E01.B. Trading Unit

One Soybean Calendar Spread Option reflects one (1) Soybean futures contract of a specified nearby contract month, and one opposing Soybean futures contract of a specified deferred contract month on the Board of Trade of the City of Chicago, Inc.

The Soybean Calendar Spread is calculated in cents/bushel as:

Nearby Soybean futures price in cents/bushel – Deferred Soybean futures price in cents/bushel.

##### 11E01.C. Minimum Fluctuations

The premium for Soybean Calendar Spread options shall be in multiples of one eighth (1/8) of one cent per bushel, or six dollars and twenty five cents (\$6.25) per contract.

However, a position may be initiated or liquidated in Soybean Calendar Spread options at premiums ranging from \$1.00 to \$6.00, in \$1.00 increments per option contract.

##### 11E01.D. Trading Hours

The hours for trading of Soybean Calendar Spread options contracts shall be determined by the Exchange. Soybean Calendar Spread options shall be opened and closed for all months and strike prices simultaneously.

##### 11E01.E. Exercise and Exercise Prices

Transactions and exercise of options shall be conducted for option contracts as set forth in the [Strike Price Listing and Exercise Procedures Table](#).

##### 11E01.F. Position Limits, Exemptions, Position Accountability and Reportable Levels

The applicable position limits and/or accountability levels, in addition to the reportable levels, are set forth in the Position Limit, Position Accountability and Reportable Level Table in the Interpretations & Special Notices Section of Chapter 5.

A Person seeking an exemption from position limits for bona fide commercial purposes shall apply to the Market Regulation Department on forms provided by the Exchange, and the Market Regulation Department may grant qualified exemptions in its sole discretion.

Refer to Rule 559 for requirements concerning the aggregation of positions and allowable exemptions from the specified position limits.

##### 11E01.G. Reserved

##### 11E01.H. Nature of Options on the Calendar Spreads

The buyer of one Soybean Calendar Spread put option may exercise his option only upon option expiration, (subject to Rule 11E02.A), to assume a short position of one futures contract of a nearby specified contract month, and a long position in one futures contract of a deferred specified contract month, at a strike price set at the time the option was purchased.

The seller of one Soybean Calendar Spread put option incurs the obligation of assuming a long position one futures contract of a nearby specified contract month, and a short position of one futures contract of a deferred specified contract month at a combination of prices such that the Calendar Spread equals the strike price set at the time the option was sold, upon exercise by a put option buyer.

The buyer of one Soybean Calendar Spread call option may exercise his option only upon option expiration, (subject to Rule 11E02.A), to assume a long position of one futures contract of a nearby

specified contract month, and a short position of one futures contract of a deferred specified contract month at a strike price set at the time the option was purchased.

The seller of one Soybean Calendar Spread call option incurs the obligation of assuming a short position of one futures contract of a nearby specified contract month and a long position of one futures contract of a deferred specified contract month at a combination of prices such that the Calendar Spread equals the strike price set at the time the option was sold, upon exercise by a call option buyer.

**11E01.I. Termination of Trading**

Subject to the provisions of rule 11E01.D no trades in Soybean Calendar Spread options expiring in the current month shall be made after the close of trading of the electronic trading session on the day identical to the expiration of options corresponding to Soybean Futures. Therefore, expiration will occur on the last Friday which precedes by at least two business days, the last business day of the month preceding that earliest expiring corresponding option month. If such Friday is not a business day, the last day of trading shall be the business day prior to such Friday. For example, the March-May Soybean Calendar Spread Option (March Soybeans minus May Soybeans) will expire on the last Friday which precedes by at least two business days the last business day of February; the November-January Soybean Calendar Spread Option (November Soybeans minus January Soybeans) will expire on the last Friday which precedes by at least two business days the last business day of October.

**11E01.J. Contract Modification**

Specifications shall be fixed as of the first day of trading of a contract except that all options must conform to government regulations in force at the time of exercise. If the U.S. government, an agency, or duly constituted body thereof issues an order, ruling, directive, or law inconsistent with these rules, such order, ruling, directive, or law shall be construed to become part of the rules and all open and new options contracts shall be subject to such government orders.

**11E02. ASSIGNMENT**

In addition to the applicable procedures and requirements of Chapter 7, the following shall apply to the assignment of Soybean Calendar Spread Options.

The Soybean Calendar Spread is calculated using final settlement values for the underlying contracts in the following formula: (Settlement Price of specified nearby Soybean futures) – (Settlement Price of specified deferred Soybean futures). An option is in-the-money if the settlement price of the underlying Calendar Spread is greater in the case of a call, or less in the case of a put, than the exercise price of the option.

Exercise notices accepted by the Clearing House shall be assigned through a process of random selection to clearing members' open short positions in the same series. A clearing member to which an exercise notice is assigned shall be notified of the assignment as soon as practicable after such notice is assigned by the Clearing House.

Upon the exercise of a Soybean Calendar Spread option the Clearing House assigns prices to the legs of the Soybean Calendar Spread in the following manner:

- a. assigned nearby Soybean Futures price equals the Soybean Futures settlement price on the day of exercise,
- b. assigned deferred Soybean Futures price equals the nearby Soybean Futures settlement price on the day of exercise minus the strike value of the option,

All such futures positions shall be marked to market in accordance with Rule 814 on the trading day of acceptance by the Clearing House of the exercise notice.

**11E03. [RESERVED]**

**11E04. [RESERVED]**

**11E05. OPTION PREMIUM FLUCTUATION LIMITS**

There are no option premium limits during any day for Soybean Calendar Spread options.

**11E06. PAYMENT OF OPTION PREMIUM**

The option premium must be paid in full by each clearing member to the Clearing House and by each option customer to his futures commission merchant at the time that the option is purchased, or within a reasonable time after the option is purchased.
