the Clearing House. Delivery under these rules shall be on the final settlement day (as described in Rule 29F105.) and shall be accomplished by cash settlement as hereinafter provided.

29F104. FINAL SETTLEMENT PRICE

The final settlement price shall be based on a special quotation of the Bloomberg Commodity Grains SubindexSM which corresponds to the expiring contract as of the close of business on the final settlement day (as described in Rule 29F105.). This special quotation will consist of the Bloomberg Commodity Grains SubindexSM which corresponds to the expiring contract calculated using the settlement prices of the component futures on final settlement day, except as noted below.

If an exchange that lists a component or components of the commodity index is not open on the final settlement day because of a scheduled closing, then the contribution to the final settlement price for the affected component or components shall be based on the settlement quotation of the first preceding trading day.

"Market Disruption Event" ("MDE") shall mean: (a) the termination or suspension of, or material limitation or disruption in the trading of, any futures contract used in the calculation of the Bloomberg Commodity Grains SubindexSM on that day, including if due to the closing of an exchange prior to the regularly scheduled closing time of an exchange; (b) the settlement price of any such contract reflects the maximum permitted price change from the previous day's settlement price; or (c) the failure of an exchange to publish official Settlement Prices for any such contract. If an MDE occurs on the expiration date, the Bloomberg Commodity Grains SubindexSM contract will settle based on a special value calculated using all component futures prices as of the expiration date that were not subject to an MDE and, for any futures contracts which were subject to an MDE, using the next available futures settlement price for which an MDE is no longer in effect, with a delay limited to 10 business days from the original expiration date. If, on the 10th business day, an MDE is still in effect for the affected contracts, then Bloomberg Finance L.P. and the Chicago Board of Trade will agree upon an appropriate estimated futures price or prices to be used to calculate the final adjusted settlement value of the Bloomberg Commodity Grains SubindexSM.

29F105. FINAL SETTLEMENT DAY

The final settlement day shall be defined as the third Wednesday of the contract month, or if the Bloomberg Commodity Grains SubindexSM is not published for that day, the first preceding business day for which the Bloomberg Commodity Grains SubindexSM was published.
