E-mini S&P Select Sector Materials	17.00
E-mini S&P Select Sector Technology	12.00
E-mini S&P Select Sector Utilities	17.00

Exchange Rules call for the limits to be re-calculated quarterly at the close of business on the day preceding the commencement of a new calendar quarter.

The Exchange's price limits are re-assessed quarterly rather than established at fixed levels insofar as fixed limits are not responsive to on-going market fluctuations. Exchange Rules are designed to coordinate with circuit breaker provisions as applied by the New York Stock Exchange (NYSE).

The NYSE enforces limits at 10%, 20% and 30% declines of the Dow Jones Industrial Average (DJIA), calculated at the beginning of each calendar quarter, using the average closing value of the DJIA for the prior month, rounded to the nearest 50 points. Limits enforced during the current quarter are 1,100, 2,250 and 3,350 (limits during the third quarter of 2011 were at 1,200, 2,400 and 3,650 index points).

Please consult the Rulebook for a complete description of the application of the circuit breaker provisions. Or, you may wish to direct any inquiries to Lucy Wang, Research & Product Development at 312-648-5478, or John Nyhoff, Research & Product Development at 312-930-2310.
