This Advisory Notice supersedes CME Group Market Regulation Advisory Notice RA1501-5 from January 23, 2015. It is being issued to reflect revisions to NYMEX and COMEX Rule 533 (“Simultaneous Buy and Sell Orders for Different Beneficial Owners”) and Rule 531 (“Trading Against Customers’ Orders Prohibited”) that will become effective on January 3, 2017, in connection with the December 30, 2016, termination of open outcry trading in NYMEX and COMEX products and the closure of the NYMEX and COMEX trading floor. CME and CBOT Rules 533 and 531 have not been revised.

Overview

This Advisory Notice clarifies the proper procedures for the handling of simultaneous buy and sell orders for different beneficial owners in open outcry and electronic markets pursuant to Rules 533 and 531. The complete text of these rules begins on page 2 of this Advisory Notice.

Neither this Advisory Notice nor the rules referenced herein pertain to transactions on CME Globex that involve pre-execution communications. Pre-execution communications are addressed in each exchange’s Rule 539 (“Prearranged, Pre-Negotiated and Noncompetitive Trades Prohibited”) and in the Market Regulation Advisory Notice concerning Rule 539, which can be found on the Rulebook Harmonization page at the following link:

CME and CBOT Open Outcry Markets

CME and CBOT Rule 533 allows for the direct crossing of buy and sell orders by a floor broker provided that the orders are for the accounts of different beneficial owners and the floor broker executing the orders first openly bids and offers the price and quantity three times in a manner that is transparent to the pit. If neither the bid nor the offer is accepted, then the floor broker may match the orders, or any remaining portion of the orders, in the presence of, and with the approval of, a Floor Operations staff member.

A floor broker may not cross an order with a trade for his own account, an account in which he has a direct or indirect financial interest, or an account over which he has discretionary trading authority unless he complies with the requirements set forth in Section B. 5. of Rule 531. (“Trading Against Customers’ Orders Prohibited”).

A floor broker who executes a cross trade must ensure that it is reported to Exchange price reporting staff for entry into the Price Reporting System as a cross trade. Failure to identify the transaction to Exchange price reporting staff as a cross trade shall constitute a violation of the rule.
Market participants are reminded that pre-execution communications or any other form of prearrangement are prohibited with respect to all orders entered for execution in the open outcry venue with the single exception of Standard & Poor’s 500 Stock Price Index options orders (“SP options”) executed pursuant to CME Rule 549. Requirements concerning the execution of SP options pursuant to CME Rule 549 are set forth in CME Market Regulation Advisory Notice RA1901-2.

CME, CBOT, NYMEX and COMEX Electronic Markets

In electronic markets, opposite orders for different beneficial owners that are simultaneously placed by a party with discretion over both accounts may be entered on the electronic platform provided that one order is exposed for a minimum of 5 seconds in the case of futures orders (including futures spreads) or for a minimum of 15 seconds in the case of options orders (including any spread with an option component). Similarly, an order allowing for price and/or time discretion, if not entered immediately upon receipt, may be knowingly entered opposite another order entered by the same firm only if the other order has been entered immediately upon receipt and has been exposed for a minimum of 5 seconds in the case of futures orders or for a minimum of 15 seconds in the case of options orders. Orders involving pre-execution communications are separately governed by each Exchange’s Rule 539 or CME Rule 549, as applicable.
